SENATE A UNIT FOR LOAN

WILSON CRACKS WHIP AS DRAFT BILL IS BALKED

Flings Dire Threat Over Obstructionists of House Body.

BY ARTHUR SEARS HENNING.

Washington, D. C., April 17.—[Special.]—President Wilson and the Democratic majority of the house committee on military affairs are engaged in a desperate struggle over the adoption of selective conscription as the basic means of raising the new national army of 2,000,000 men for the war with Germany.

Despairing today of the virtues of moral suasion in his efforts to induce Chairman Dent and the other pacifist Democrats on the committee to abandon their insistence upon retention of the volunteer system the president resorted to threats.

ONLY ONE MORE CHANCE.

He said he would give the Democratic majority one more chance to get in line for selective conscription and that if they failed he would brand them publicly as dangerous foes of the highest interests of the nation in its hour of dire necessity.

The president summoned Dent to the White House and "read him the riot act" concerning the consequences of his conduct in blocking the speedy provision of an adequate army on the democratic basis of universal service and by the only method of procuring the requisite number of men in short order. Mr. Wilson warned that any attempt to raise the army by the volunteer system would be the cause of dangerous delay, if not utter failure.

Dent showed no signs of yielding to the president's demands, thus confirming the predictions of the consequences of the retention of the pacifistic Democratic majority on the military affairs committee.

PLEADS TO REPUBLICANS.

Then the president had recourse to the Republicans, summoning Minority Leader Mann and Representative Lenroot to the White House.

He appealed to them for aid to defeat the obstructive tactics of the members of his own party. There is one particular in which the Republican leaders can be of great assistance. That is in naming an advocate of selective conscription for the Republican vacancy on the committee. As a result of the pressure brought to bear by the president this may be done tomorrow.

PLAN FOR VOTE TODAY.

The ruction raised by the president in his own party resulted in a special meeting of the military affairs committee tonight. Secretary of War Baker appeared before the committee for the second time today and endeavored to obtain an agreement on the administration army plan.

After two hours of talk the committee adjourned with the understanding that a vote should be taken on the selective conscription feature tomorrow morning.

Representative Dunn of New York proposed that selective conscription be applied to citizens progressively in four classes, according to age—21 to 27, 28 to 34, 35 to 41, and 42 to 48. Another proposal was that of the 724,000 men Secretary Baker says are needed to raise the regular army and national guard to war strength, 500,000 be allowed to volunteer as individuals and 224,000 as units, after which conscription be invoked to procure the first force of 500,000 universal service men.

DENT IS OBDURATE.

"I have not changed my position," said Chairman Dent after the meeting. "We shall vote tomorrow."

"It is exceedingly desirable that the committee bring in a unanimous report," said Representative Kahn, ranking Republican member of the committee. "The country would be at a great disadvantage if the world were told that the military affairs committee is divided on the first military step in this war. I still believe it is possible to obtain a unanimous report, embodying a limited volunteer and a subsequent conscription provision."

ADMINISTRATION AROUSED.

Early in the day the administration manifested impatience over the attitude of the house military affairs committee. President Wilson late Monday afternoon had made known to Senator Chamberlain that there would be no weakening of the bill if he could help it, and when Secretary Baker went before the

U. S. Will Open Military Camps to Train 10,000 Officers at Once

Definite plans for the training of the middle west's share of the first 10,000 officers who will command the first 500,000 soldiers in Uncle Sam's new army were announced last night by Maj. Gen. Thomas H. Barry, commander of the central army department.

As about one-third of the country's population is in the fifteen states in the central department, the six training camps which are to open May 8 are expected to furnish about one-third of the 10,000 officers—majors, captains, and first and second lieutenants—which the 500,000 men will need. Gen. Barry hopes that eligible men in senior classes at colleges will be graduated by May 1.

The camps in this department will train, if put to their maximum capacity, 15,000 officers. From these the middle west's share of first 10,000 officers will be taken.

Attendance to Be Limited.

Attendance at the camps will be limited to reserve officers and candidates for such appointments in the infantry, cavalry, field artillery, engineers, and coast artillery branches. The camps will last for three months. Those in the central department will be located as follows:

At Fort Sheridan two camps, one for Illinois and one for Michigan and Wisconsin.

At Fort Benjamin Harrison, Ind., two camps under one command, one for Ohio and one for Indiana and Kentucky.

At Fort Snelling, Minn., one camp for Minnesota, Iowa, North Dakota, South Dakota, and Nebraska.

At Fort Riley, Kas., one camp for Missouri, Kansas, and Colorado.

Quick Training Plan.

Gen Barry, on authority from Washington, made a statement in part as follows:

"The object of each camp is the training and selection of offiecrs for a division and one additional cavalry regiment. Maximum attendance at each camp will be 2,500. The attendance will be divided into fifteen infantry companies for the first month and all will be trained alike for that period. At the beginning of the second month they will be organized into nine infantry companies, two cavalry troops, three artillery batteries, and one engineer company for the remaining two months. The object of each company is to train all members thereof and finally select the officers for one regiment, and appoint the remainder as additional reserve officers, if competent.

"The attendance is limited to the following: Reserve officers of the infantry, cavalry, field artillery, coast artillery, and engineers, members of the reserve officers' training corps, of over 20 years and 9 months old, and other cadet students of same age, graduates of military schools, and other citizens not less than 20 years and 9 months old and no more than 44 years old.

High Standard Fixed.

"No one will be accepted who does not conform to the required standard with respect to (a) character and sobriety, (b) personality, address, and force, (c) reputation and standing in his community, (d) likelihood of his being able to command the respect of officers and enlisted men, and (e) adequacy of his education. Preference will be given men of valuable military experience.

"College students are advised to attend the camps provided for their home state, rather than to attend the camp provided for the state in which their college happens to be situated. Applicants will be examined by boards appointed by the department commander, and certificates of the examining officers will be sent to the commanding officer of the camp concerned. From these certificates the camp commander will select and notify 2,500 men if more than that number are certified to him as suitable.

Young Men; Older Men, Too.

"From these camps and from those in other army departments will be selected the first 10,000 leaders to officer the first half million troops. Not only young men are wanted but also mature men on account of the need for officers who can qualify for higher grades when additional forces are organized. It is hoped that college authorities will graduate on May 1 all such seniors as may be selected as candidates for this camp training.

"There is as yet no appropriation or authority to order reserve officers to active duty, but all such officers are invited to attend these camps without enlisting. At present no assurance can be given as to the pay of reserve officers or candidates, as same must depend upon the action of congress.

"All men attending the camps are urged to secure their own uniforms before joining the camp."

Must Rush Applications.

It was announced that applications for the reserve officers' corps, or to take the course of training to be given in the six camps, should be sent in at the earliest possible moment, as little more than three weeks remain in which to make preparations for the camps. Applications are to be addressed to the Commanding General, Central Army Department, U. S. A., Federal Building, Chicago (Military Training Division).

Gen. Barry worked until 11 o'clock last night on the preliminary plans for the camp.

LATE NEWS BULLETINS

PORTO ALEGRE, Brazil, April 17.—A mob attacked 270 German houses tonight, tore down German flags, and smashed the windows. Afterwards caricatures of the German emperor were nailed to the walls. Porto Alegre is one of the principal cities of Brazil and is known as the capital of the south. It is a modern city with a population of 130,000.

AMSTERDAM, via London, April 18, 5:20 a. m.—The Rheinische Westfalische Zeitung complains that the Poles seem to be confusing the word autonomy with the word independence and are wrongfully claiming that independence was promised to them last November. The paper points out that Germany only held out the prospect of an autonomous kingdom in the closest union with the central powers.

COPENHAGEN, via London, April 18, 6:30 a. m.—Lieut. Baldamus, one of the most successful of the German aviators, is reported to have been killed in a collision with an allied airplane on the western front. Lieut. Baldamus had a record of eighteen enemy airplanes destroyed.

Carson City, Nev., April 17.—An explosion at one of the Ely copper mines, in which "many men were killed," was announced in a telegram received by Gov. E. D. Boyle late today.

NEW YORK DRY FROM 1 TO 6 A. M., DUE TO WAR

New York, April 17.—[Special.]—Beginning May 1, New York will be a dry town between the hours of 1 and 6 a. m. Mayor Mitchel has so decreed, the restaurant and hotel men have agreed, and there is every reason to suppose the excise law will be rigidly enforced and there will be no exceptions.

By the new rule Healy's, Reisenweber's, the Midnight Follies, the Cocoanut Grove, and all such places will close at 1 o'clock instead of 2 as they have been doing.

In addition, all saloons and restaurants which have had all night licenses will close at 1 o'clock.

The war is given by the mayor as the reason for his action.

Hobos Must Leave by May 1 or Be Arrested

May 1 will be clean-up day for hobos in Chicago. This was announced yesterday by Chief Schuettler. They must get out by then or be arrested.

U. S. ATTACHE WOUNDED IN ARRAS BATTLE

LONDON, April 18, 1 a. m.—Eric Fisher Wood of New York, formerly an attaché of the American embassy in Paris, who recently was appointed a lieutenant in the British naval reserve, took part in the battle of Arras. After four hours of fighting, during which he went with the British troops through four lines of German trenches, Lieut. Wood was wounded. He now is in England recovering.

Four Men in Evanston Fined for Killing Birds

Four men were fined for killing song birds by Police Magistrate J. F. Boyer in Evanston yesterday. They were: James Virgillio, 1007 Davis street, $25; Settinio Silvestri, 31 North Cicero street, $50; Giuseppe Pantoni, 815 Davis street, $25, and Italio Meucci, 810 Davis street, $50. The cases were prosecuted by Theressa M. Porter of the Evanston Audubon society.

FRENCH SMASH 25 MILE FRONT; CUT FOE'S LINE

Germans Between Reims and Soissons Crushed by Terrific Drive.

BULLETIN.

LONDON, April 17.—A dispatch to the Daily Express from Amsterdam says sensational rumors are current on the Amsterdam bourse to the effect that the Anglo-French victories on the western front, coupled with the Berlin strike of munition workers, are about to cause a most dramatic move in German public opinion.

BY LINCOLN EYRE.

[Copyright: 1917: By Press Publishing Company (New York World).]

PARIS, April 17.—Smashing against the Soissons-Reims sector—the corner stone segment in the entire German western front—the French have crushed in the entire enemy defenses along the whole twenty-five mile front, reaching the second and even the third lines in several places, and on the north front at Brimont breaking clear through, during a single day of terrific fighting.

Need of consolidating the positions taken, coupled with a downpour of rain, caused an over night lull in the infantry activity as the victorious poilus pulled themselves together preparatory to the next grapple with the picked German legions opposing them.

GERMAN COUNTERS FAIL.

Frantic at the success of Gen. Nivelle's swift onslaught and fearing to allow time for the French to dig themselves in among the shell swept German trenches, the crown prince flung reserve brigade after brigade against the poilus in desperate efforts to unseat them.

But lessons of past offensives have not been forgotten by the French staff, and machine guns and seventy-fives, trench mortars, and even heavy guns had followed close on the heels of the crack storming infantry units, with the result that the Prussian troops failed and suffered bloody losses.

Their nerve was with them, but no force of human or other beings could withstand the mightiest bombardment in the world's history.

NEARLY 12,000 CAPTIVES.

Nearly 12,000 haggard, shaking, half mad German soldiers and officers have been counted filing inside the great barbed wire inclosed cages.

Recitals by both French and German officers concerning the efficacy of the gunfire preparation is unnecessary, as it is known Gen. Nivelle concentrated along the twenty-five mile sector probably the greatest weight of metal ever massed even in this war of titanic cannon power.

More than a month past the "artillery duel," as the official communique called it, has been mounting in intensity until the crescent was reached just before the attack yesterday morning. Even the French soldiers stationed in the first line trenches, opposed to the German positions, under the terrific fire, assert the chaos and noise was infernal.

GERMANS SHAKE FROM FEAR.

German prisoners dragged from a cement abyss deep underground were in a pathetic state. Their frames continued to twist, throb and quiver even back in the prison camp cages as they had done for hours as the great French shells burst above them and the atmospheric and earth detonations rocked them in their lairs.

Crying that they had had no food for three days while the tremendous barrage of fire cut off every communication behind them, the Germans were offered food, but the strain of the bombardment had caused such an effect that they were unable to retain the food given them. Brandy and broth was all any could hold on their stomachs.

North of Brimont, where the French pierced clear through the German defenses, they are in a position to turn the flank of Fort Brimont, where long range Krupp guns have been bombarding Reims. French aviators report a number of biggest enemy weapons still in Brimont, as the Germans evidently did not have time to withdraw them.

In yesterday's fighting, when the Germans had forty miles of the strongest

CHICAGO MOTHER OF THREE SONS DEMANDS DRAFT

Mrs. Wallace Winter Sends Letters to Congressmen.

A Chicago woman, Mrs. Wallace C. Winter, of 1447 Astor street, who has three sons old enough and eager to defend their country, sent pleas to Illinois representatives in Washington yesterday to vote for selective conscription without further delay.

Of her sons, Wallace Winter Jr. has enlisted in the aviation corps and Daniel R. Winter in the reserve officers' corps at Yale. Edwin Winter II. is only 18 years old, but is holding himself in readiness for enlistment in some department of the army at the first opportunity.

Reward of Selfishness.

After reviewing in her letter the injustice of the volunteer system, which permits the "nation's selfish and less useful citizens to remain at home in comfort and security," Mrs. Winter said:

"As the mother of three children, all of them sons, two of whom, students at Yale, have already offered themselves to their government, and the third, entering Yale in September, standing ready to serve his country, I maintain that such a great and outrageous wrong to these brave youths and men should not be allowed to darken the pages of our nation's history in her splendid march toward the defense of humanity, honor, and liberty, and that this government 'of the people, for the people, and by the people' should exact from the people her rightful protection in this time of peril.

Raise Army by Conscription.

"I therefore urge you, as my representative in congress, to make every possible effort toward measures for the raising of our army by conscription without further delay."

SUMMARY OF THE WAR

Paris reports capture of German positions between Soissons and Reims over a twenty-five mile front. Village of Auberive captured and 2,500 prisoners taken in this sector. London reports further progress north of Gouzeaucourt and west and northwest of Lens. Berlin says attempt of French on Monday to cut line was failure with heavy losses for the attackers.

British in Mesopotamia advance on right bank of the Tigris and now are in touch with Turks at Istabilat, London reports.

Rome reports heavy artillery engagements on whole Austrian front.

END OF CLASSES, LAND FOR MASSES, URGED IN RUSSIA

Workmen and Soldier Delegates Plan Votes for All.

PETROGRAD, via London, April 17.—The closing sitting of the congress of the council of workmen's and soldiers' delegates passed resolutions today favoring the suppression of classes and titles and the confiscation of all lands belonging to the crown, the church, and also monasteries. Provision is made for the transfer of the lands to the use of the peasants.

Lieut. Gen. Korniloff, commander of the troops in Petrograd, has issued a proclamation calling upon the people of the capital to return 40,000 rifles and 35,000 revolvers taken from the Russian military stores during the recent revolution.

Urge Votes for All.

LONDON, April 17.—A Petrograd dispatch says that the congress of the council of workmen's and soldiers' delegates has adopted a report regarding the constituent assembly which makes the following recommendations:

The assembly shall be convened at Petrograd as early as possible on the principle of universal suffrage. The army shall take part in the elections like the rest of the population, but the active army shall vote separately. Women shall have the same voting rights as men. The qualifying age for the vote shall be 20 years. The council of workmen's and soldiers' delegates shall control the election, which shall fix the political régime of Russia and her fundamental laws.

The report also provides that after constitutional questions are settled the assembly shall take up agrarian problems and draft new laws on matters of labor, questions of nationality, organization of local self-government, and all questions of an international character.

SEVEN BILLION ISSUE PASSES UNANIMOUSLY

Few Amendments to Be Ratified by House—Action Speedy.

Washington, D. C., April 17.—The war finance bill, providing for issuance of $7,000,000,000 in securities—the largest single war budget in any nation's history—was passed unanimously tonight by the senate.

After seven hours of discussion the administration measure, which was passed by the house last Saturday and which provides for a loan to the allies of $3,000,000,000, was approved by the senate with few changes in record time. The amendments may necessitate a conference or the senate changes may be accepted by the house.

In either event the executive branch of the government conducting the war with Germany will, within a few hours, have authorization for the great war chest at its disposition. To expedite action the senate tonight appointed conferees to act if the house should not, contrary to expectations, accept the senate changes.

WINS ANTI-WAR VOTES.

Of the eighty-four senators present tonight every one, including all those who voted against war except Senator Lane of Oregon, who was absent because of illness, recorded themselves in favor of providing the funds to prosecute hostilities. Nearly all of the twelve absentees were ill.

That, in the inability of the nation to supply men at once for the fighting lines, money should be America's immediate contribution to her allies, was the dominant thought expressed during the debate. Few senators participated in the discussion, which was totally devoid of partisan expression. Every senator speaking announced intention to aid the government in prosecuting the war to speedy conclusion. Only two senators, Borah and Cummins, declared opposition to the proposed allies' loan. A few favored raising a larger proportion by taxation of the present generation and less upon bonds.

AMENDMENTS ADOPTED.

Amendments adopted by the senate include provisions:

Limiting deposits of proceeds from the bonds in banks to the amount subscribed by the banks and their depositors; permitting deposit of proceeds in state banks and trust companies, as well as federal reserve banks; providing for exchange by subscribers of the issues authorized for bonds subsequently issued, during the war, at higher interest rates; requiring the secretary of treasury to report expenditures of the bond proceeds, Dec. 31 and annually thereafter; and exempting the authorized $2,000,000,000 of treasury indebtedness certificates from all taxation, except estate and inheritance levies.

By mistake, it was first announced that eighty-three senators had voted for the bill. A corrected tally showed the vote eighty-four with, as the vice president announced, "the nays being nay."

FLOTATION METHODS UP.

While the senate was still debating the measure Secretary McAdoo held an informal conference with the members of the advisory council of the federal reserve board, including J. P. Morgan, who were holding their quarterly meeting here. To the members of the council Mr. McAdoo announced his intention of taking counsel with financial experts of the country as to the best methods to be followed in the flotation of the issue. The visitors were requested to submit suggestions to the secretary.

Later Mr. McAdoo announced that he would invite representatives of the leading bond and investment houses of the country to confer with him here before offering any part of the issue.

Representations made today to the secretary were to the effect that the country is in excellent condition to absorb without disturbing normal business virtually the entire amount of the issue. It is unlikely, however, that the full $7,000,000,000 in bonds and certificates will be issued at one time.

AS TO THE CERTIFICATES.

As the $2,000,000,000 in certificates are short term government notes, there probably would be no disposition on the part of the federal reserve board to regard them as investments of such a term as to make them undesirable to banks. Banks lending the government money on these certificates would still be regarded as preserving their resources in a liquid condition, under previous rulings of the board.

In the case of the bond issue, however, the government is desirous of reaching the millions of individual investors in the country rather than placing large blocks of the bonds with financial institutions. The denominations of the bonds are yet to be determined, but there is a strong likelihood that they will be issued in denominations as low as $25 so that persons of small means may be permitted to subscribe.

Stone Lines Up for Bill.

When the senate took up the measure Senator Stone, opponent of most of the administration war measures, announced that he would vote for its passage, but thought it should have been framed along different lines.

"This is a war measure, however, and I accept the judgment of the committee," said Senator Stone. He added he believed the present generation should largely pay for the war's expenses. Senator Stone said he approved the proposed allies' loan.

"It will not be a burden upon the American people or government," he said, "provided we lose nothing on the bonds we secure. Having cast our fortunes with the allies we must work with them and aid them. This bond issue is a very great and important service."

"Wall Street Patriotism."

Reading from a Wall street newspaper article, stating that to be successful, the loan must be made attractive and that the government cannot commandeer public subscriptions, Senator Stone declared: "There is a fine exhibit of Wall street patriotism."

Senator Stone said he believed the present generation should largely pay for the war's expenses.

Senator Simmons predicted that after the present issue another issue probably will be necessary, possibly at a higher interest rate. For this reason, he said, it was desirable to give subscribers to the present issue the conversion right to exchange their bonds for those having higher rate. In this he was supported by Senator Penrose.

Urges Prompt Patriotism.

Senator Simmons said it would be "long, weary months before we can render much assistance in the field."

"This bill represents all we can do now," he said, "all they are asking us to do. In the name of America, of patriotism, of liberty and democracy, let us do it now, quickly, without carping or hesitation, in the spirit of men inspired by the cause for which we are fighting."

Senator Penrose said that, "united in a single patriotic purpose of sustaining the government, the minority will support this loan bill despite any views of its members."

While it was well known that he differed with President Wilson in respect to his Mexican policy and other matters, the senator said all such things were laid aside, and that he now stood behind the president "to bring this war to a successful conclusion."

Senator Borah said, in his judgment, the country could well have provided for raising more of the money necessary by taxation and less through bonds. He added that he was opposed to the $3,000,000,000 loan to the allies, and would vote against it if he could have the opportunity to vote on it separately.

Cummins Doubts Wisdom.

Although indorsing Senator Borah's view of the loan, Senator Cummins said he would, however, vote for the bill.

"I am willing," he said, "to give to any of the allies the money they need to carry on our war, for it is our war now. I would give it freely, just as I would equip an army. But I shrink from the consequences that will flow from this loan. I do not want the United States to be the bond creditor of any foreign power. I do not want to enter the entangling alliances which possession of these foreign bonds will entail. I fear that in the years to come the fact that the United States has bonds of these countries, all of which will be bankrupt at the war's close, will create embarrassment which men of that time will find difficult to overcome.

"We should give our money in a generous and patriotic spirit for the allies to do anything we are not now able to do."

Allies Don't Want a Gift.

Senator Hoke Smith insisted that the allies did not want a gift from the United States to maintain their armies and their ships.

The proposed issues, stupendous as they are, will not be a large contribution for the American nation, said Senator McCumber.

Senator Kenyon of Iowa also said he hoped the vote would be unanimous.

"This tremendous sum staggers us," he said, "but it will stagger the enemy, too. It will cause the American people to realize the stupendous task we have undertaken."

Referring to the proposed loans to the allies, Senator Kenyon said he hoped France would never be asked to repay, because "we owe more to France than we can ever repay."

Senator Smoot said he had not the slightest doubt the $3,000,000,000 loan to the allies would be paid, but, if it were not, "every penny will be expended in defense of the principles we believe in and are fighting for." He declared that if the president saw fit to advance Russia a billion dollars and take in return obligations, if it would establish a republican form of government, he would favor its advancement, even though the United States were not to get back a cent.

U-BOAT ATTACK ON U. S. WARSHIP AIDS RECRUITING

1,000 Jackies Leave for the Coast—400 Will Go Today.

While 1,000 jackies were entraining for the east yesterday and 400 more were getting ready to start today, there was a perceptible improvement in navy and marine enlistments following the announcement of a U-boat's appearance in west Atlantic waters. The dreary weather was held responsible for scarcity of recruits early in the day, and at none of the stations was Monday's high record reached.

"Applicants have been afraid they would stay so long in training that they might not see service," said Lieut. L. M. Stevens, in charge of the navy office. "That is certainly not true now. With the German submarines near our coast there can be no doubt about the navy seeing action without much delay.

Promotion Is Rapid.

"The boys who have enlisted lately have been learning with remarkable speed under the intensive training methods. We received word today that apprentice seamen are becoming second class seamen in two weeks. Ordinarily it takes nearly four months to make that progress and get to earning $20.90 instead of $17.60 a month. Ordinarily it takes nine months more to become first class seamen, but it may be cut to half that time in these days."

The Illinois naval reserve sent thirty-four men to the seaboard, and the marine corps sent twenty-four new men to Port Royal for training, these being the balance of Monday's record recruiting. Here, as in the navy, there was a falling off in recruits because of the weather, but by night nearly sixty new men were enrolled. Additions to the army also showed a decrease, but new clerks have been added to care for the rush hoped for shortly.

National Guard Busy.

The national guard continues to receive recruits, with the field artillery noticeably active. The loss of a great part of E battery's noncommissioned force through the enforcement of the "dependency order," has set the recruiting sergeants to work once more in order to bring in likely sergeants and corporals.

During the day 100 new men enlisted in the First cavalry and thirty-five men in the Second infantry. Men in these regiments who have dependents will be discharged within a week, as soon as an accurate list can be obtained.

One hundred applications for examination for commissions in the quartermaster's reserve corps were received yesterday. The applicants were informed that all commissions are filled and that the ony way left for them to become commissioned officers in the reserve is to pass examinations for line commissions in the hope that they may be transferred to the quartermaster's corps.

REGIMENT A DAY ENLISTING.

Washington, D. C., April 17.—Recruiting figures for the regular army, made public by the war department today, show that more than enough men to form a regiment are being obtained daily. For the five day period, April 11 to 15, a total of 7,171 men were recruited, a daily average of 1,434. Twelve hundred men are required for a regiment based on a peace footing of 100 men to the company.

Enlistments in the navy Saturday and Monday totaled 1,635 men, bringing the combatant force of that service up to 71,696 men. The maximum strength now is fixed at 87,000, but officials expect this week to receive congressional authorization raising the number to 150,0000.

CABINET FAVORS REGULATION OF PRICES OF FOOD

Washington, D. C., April 17.—[Special.]—The cabinet today approved Secretary Houston's proposed bill empowering the council of national defense to fix maximum and minimum prices for food and authorizing the department of agriculture to license food distributing agencies.

Secretary Houston announced after the meeting that he would prepare immediately a report to be sent to congress accompanying a draft of this suggested legislation. Mr. Houston wants the authority though he will use it only when national needs require it.

A White House farm, with the approval of President Wilson, it was announced today, is to be started in a vacant government owned lot diagonally across from the executive mansion.

The farm will be used as an object lesson to visitors to the capitol and the country that the chief executive of the nation proposes to carry to the letter the recommendations made in his recent address to the people concerning conservation of all food supplies.

Allies Invent New War Game of Seesaw to Whip Germans

BY FLOYD GIBBONS.

[SPECIAL CABLE TO CHICAGO TRIBUNE.]

LONDON, April 17.—The "military firm of Haig & Nivelle" is beginning to play a seesaw on the Hindenburg line. Military experts discern in the western front events of the last ten days the development of martial tactics expected to overshadow the vaunted effectiveness of the once boasted German scissors or nut cracker maneuvers.

In the language of outspoken Americans hovering about the bulletin boards in the Savoy hotel, the new system of the allies' offensive may be calculated to "run the Germans ragged." Even a person unversed in martial technique is capable of grasping the meaning of the seesaw tactics, with the result that the subject is one of popular discussion in London.

How Haig Forged Ahead.

Field Marshal Haig opened his offensive north of Arras a week ago Monday and night and day the British hurled themselves at the heels of the retreating Germans while Von Hindenburg's troops were subjected to terrific bombardments from a record breaking concentration of heavy guns and points far in the rear of the German lines were bombed and harassed by swarms of aeroplanes.

The Germans finally stopped the bolt by massing reserves of infantry and artillery in the path of the British avalanche. They attempted, but failed, to regain the initiative by costly counter attacking.

The popular belief now is that the large numbers of reserves used to slow up the British were either taken from other parts of the western front or represented the largest part of the auxiliary reserves in the rear. It is conceded that the Germans by rushing additional strength in men and material to the Arras sector weakened some part of the western front.

French Take Their Turn.

Now this week the completing action of the seesaw movement is being executed by the French. Using the juncture point of the old German line with the new Von Hindenburg line near Arras as the fulcrum, Gen. Nivelle's forces, engaged in the big offensive between Soissons and Reims already have advanced beyond the enemy's first line trenches on a front of twenty-five miles, with captures amounting to about 11,000 men and booty described as enormous. These losses, combined with the 14,000 men lost last week to the British, constitute a respectable tribute to the effectiveness of the coöperative seesawing.

What Will Germans Do?

The French offensive still is moving forward and the question is whether Von Hindenburg will be forced to weaken parts of his line by withdrawing reserves to be rushed to the Soissons-Reims sector to plug Gen. Nivelle's break.

Indications are that Germany will have to look well to the boasted flexibility of her armies and the excellence of her transportation facilities. Both will have to be exerted to the utmost if the alternating advances of Gens. Haig and Nivelle are to be stopped.

FRENCH SMASH 25 MILE FRONT

(Continued from first page.)

part of their line wrested from them by the French, it is estimated they lost nearly 100,000 killed, wounded, and prisoners.

Measured by the amount of territory freed yesterday and today, the victory does not compare with the Somme offensive which opened a month ago, but viewed from the amount of destruction done to the enemy's armed forces and the damage to his military prestige, it is a far greater success.

Here there can be no question either of a previously planned retreat or a surprise. The enemy expected an attack and made every preparation to defeat it.

From Soissons to Craonne the German line runs along a series of hills of an average height of 500 feet, with deep valleys between.

The weak point of the German line is from Craonne to Reims, where the ground is more level.

Many Prisoners Taken.

(By the Associated Press.)

GRAND HEADQUARTERS OF THE FRENCH ARMY, ON THE FRENCH FRONT, April 16.—[Delayed.]—Not only did the French army get astride and partly around the so-called Hindenburg line today, but in doing so they captured many thousands of German prisoners. After one of the most intensive artillery bombardments of the war, the French tonight were advancing along another twenty-five mile front.

This morning from north of Soissons to just west of Reims, the French infantry started the work for which they had been patiently waiting.

The Germans opposed the advance with their utmost power, bringing into play thousands of cannon and machine guns. Nothing, however, could withstand the gallantry and skill of the French, whose ardor was strengthened by the sight of the desolation through which they passed.

The correspondent watched one phase of the battle from a prominent position in the new French advance. The brigade with which he was stationed was composed of troops who had won the highest fame in pushing back the Germans around Verdun. Now, as then, it was under the command of a colonel who proudly informed the correspondent that he had fought beside both Americans and British in the Boxer war.

Part of the brigade's task today was the capture of a position forming one of the most difficult problems along the line owing to its being undermined for its whole length and breadth by deeply tunneled quarries, whose galleries were immune to artillery and bristling with machine guns.

Germans Are Encircled.

There was no hesitation among the French soldiers when the order to advance was given, but they did not throw their lives away. There was no hurry; every movement was executed as if on parade.

Advantage was taken of every inch of cover, and thus the infantrymen were able to approach up the sloping ground until within striking distance of the numerous entrances to the tunnels; they then encircled the whole plateau and left sufficient men around to prevent the garrison's retreat or its communication with the main body of the Germans. Its fate was then sealed.

Meanwhile the bulk of the French troops continued their advance both here and on other parts of the line.

Everywhere groups of Germans were to be seen on their way to captivity. Before evening more than 10,000 had been counted and others were arriving.

Some of the prisoners told of exceedingly severe losses, their companies being reduced in several cases from 250 to eighty men or thereabouts.

All seemed pleased over their capture, some of them saying that there would be many desertions except for the constant vigilance of their superiors, as most of them were tired of the war.

PLAN CONGRESS WAR COMMITTEE TO STAY ON JOB

Washington, D. C., April 17.—[Special.]—Following a caucus of senate Republicans today, a genuine movement was initiated with a view to creation of a congressional committee to coöperate with the president and executive departments on the conduct of the war.

Republicans in conference were almost unanimous in support of Senator Weeks' proposal, or one similar, which would provide for appointment of a joint senate and house committee to aid in supervising expenditures of the vast war appropriations.

Leading Republicans, acting free from any partisan desire, conferred with many of the Democrats after the conference. Senator Gallinger, the minority leader, asserted that he found many of them favorably inclined toward the idea. The proposed committee would sit in Washington during the course of the war whether congress should be in session or not.

Later in the day the senate committee on rules appointed a subcommittee to redraft the Weeks resolution, and it is to be pressed upon the senate for action in the near future. On the subcommittee are Senators Owen, Hoke Smith, Overman, Knox, and Gallinger.

DEFIANT ULSTER ABOUT TO DOOM HOME RULE ACT

Erin's Hope for Taking Appeal to Country's Voters Fades.

LONDON, April 17.—The Irish Nationalist party is dissatisfied at the absence of any progress towards a settlement of the home rule question, though practically the whole press of this country demands a settlement and has opposed the bill for the prolongation of the life of this parliament, so there may be an appeal to the constituencies.

Ulster Orangemen repudiate every scheme submitted to them, short of a partition of Ulster which would give them six counties, whereas on a plebiscite they would at the most secure three. Sir Edward Carson is credited with desiring a reconciliation, but having fanned into flame the intolerance of the Orangemen he now is being dragged at their heels, the helpless victim of his own policy.

Chances for any general election soon seemed hopelessly lost tonight when by a vote of 286 to 5 the house of commons passed on second reading the bill for the extension of the life of the parliament until November.

Andrew Bonar Law, member of the British war council, in concluding the debate on behalf of the government admitted that a solution of the home rule problem would be a great advantage to the prosecution of the war. The government, therefore, was most anxious, he said, for a settlement.

Dominions for Settlement.

It is known that the dominion premiers and other representatives consider a settlement essential to the future solidarity of the empire, but the Orangemen, having successfully defied the British parliament under Carson's leadership, now defy the whole British empire, apparently with every hope of success.

Thus the impasse is reached which the Irish party considers demands an appeal to the country. They are prepared to face the risk of losing several of their seats to Sinn Feiners, as they consider that as successive British governments by their treatment of the home rule act have undermined the constitutional movement in Ireland, the government should now take the responsibility of being brought face to face with the forces its feebleness and evasions have recreated in Ireland.

WANT TO THANK M'CORMICK.

A massmeeting of thanks to Representative Medill McCormick, as soon as Mr. McCormick can arrange to be present, was voted unanimously last night at a meeting of representatives of the various Irish societies in Chicago. The event is in appreciation of Mr. McCormick's resolution in congress asking the legislative bodies of the allied nations to provide eventually for the reëstablishment of self-government for Poland and Ireland. At the meeting, over which former Congressman George Gorman presided, there were speeches by Judges McGoorty and Scanlan, by the Rev. F. X. McCabe, by M. J. Faherty, and Joseph A. O'Donnell.

HOME RULE IS TO BE URGED ON CONFEREES

Aid in Prosecution of War, British Commission to Be Told.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., April 17.—[Special.]—Arthur J. Balfour and the other British commissioners will go back to England convinced that the prompt settlement of the Irish question will go far toward bringing the United States into closer accord with Great Briain and insuring the paritcipation of the American nation in the war until a peace satisfactory to the allies be concluded.

It became known today that representatives of the allies in this country will bring up the Irish question in the conferences scheduled to begin as soon as the British commission reaches Washington. They will point that immediate home rule for Ireland would create an extremely favorable impression in the United States.

Now a Stumbling Block.

Ireland is the stumbling block to complete accord between the United States and the allies. President Wilson says we are fighting to achieve conditions under which government shall rest on the consent of the governed. Great Britain says the allies are fighting for the same thing. Whereupon the Irish inquire whether this dictum applies to Ireland also. Great Britain has not answered that question satisfactorily to the Irish and now is to be asked to do so not only for the sake of the Irish but of the United States. With Ireland granted home rule, it is contended, it would be much easier for the United States to give assurances that it would fight as long as the other allies to liberalize the world.

Subjects to Be Considered.

It was learned today that there will be six major subjects to be considered by the Anglo-American conference in Washington. These are, in the order of the representation upon the commission from England as presented in the list furnished to the state department:

International relations, blockade, other naval operations, financial assistance to the entente allies and to Great Britain especially, munitions, military dispositions and resources and foodstuffs.

All the delegates to the conference will be experts. Foreign Secretary Arthur J. Balfour is authorized, it was indicated, to conclude with the United States government in the name of the British government any and all agreements, and to ratify them, which the conferences may deem advisable or necessary.

The exact time of the expected arrival of the British commission in Washington has not been revealed by the government and will be kept secret until the safety of the members is assured.

Insurance Rates Increased Again for Nation's Fighters

New York, April 17.—[Special.]—Gen. O'Ryan of the national guard was informed today that the Equitable Life would put new insurance rates into effect at 4 o'clock tomorrow afternoon. Premiums on new policies will be raised $70 for each $1,000 of insurance issued on the life of any man in the army or navy. This is in addition to an increase of $30 in the rates announced some time ago.

U-BOAT FIRES TORPEDO AT U.S. DESTROYER

Submarine Reported 100 Miles Off New York—Fish, Shippers Hint.

Boston, Mass., April 17.—The war was brought to the shores of this country today when the United States destroyer Smith reported by radio that an enemy submarine had tried unsuccessfully to torpedo it 100 miles south of New York at 3:30 this morning.

Additional reports were received from the destroyer tonight and were forwarded to Washington. Nothing of an official nature regarding the additional reports was made public here.

A suggestion in shipping circles that the lookout on the Smith had perhaps mistaken a large fish for a torpedo in the uncertain light of the early morning met with the reply that the Smith's officers "stood by their original statement."

Navy's Version of Report.

The navy department's version of the original statement was:

"Reported from Fire Island lightship to the naval stations at Boston and New York at 3:30 a. m. on the 17th, an enemy submarine was sighted by the U. S. S. Smith, running apparently submerged. Submarine fired a torpedo at the U. S. S. Smith, which missed it by thirty yards. The wake of the torpedo was plainly seen crossing the bow. Submarine disappeared."

Whether the swift destroyer dashed for the spot where the U-boat was thought to be lurking was not known by officers who had seen the Smith's report of the incident. Neither could it be learned here whether there was a chance for the Smith's quick firers to come into action.

It was learned, however, that another destroyer passed near the position mentioned in the Smith's report without sighting anything unusual.

Cruiser Halts British Ship.

The United States cruiser Birmingham reported by radio today that it had halted the British steamship South Down by a shot across its bow off Nantucket lightship this morning. The steamer was allowed to proceed after an examination.

No further details were given and naval officers did not seem inclined to attach much significance to the incident except as it showed the strict watch kept over all shipping in these waters. It was said informally that the probabilities were that the South Down was flying no flag and showed no other distinguishing mark.

No Confirmation at Capital.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., April 17.—[Special.]—Navy department officials at a late hour tonight were without confirmation of the report published today that an enemy submarine at an early hour this morning fired a torpedo at the United States destroyer Smith, missing the patrol boat by thirty yards.

Some officials and naval officers were frankly skeptical as to what was seen by the lookouts on the Smith. Others were satisfied that the report was accurate.

According to a report today submarines have been shipped to Mexico in parts and assembled there.

Barred Zone May Exist.

It was intimated today that Germany may have declared a barred zone against American ports, the announcement having failed to reach this side on account of interrupted communications.

"Regardless of whether this particular report is accurate," a naval expert said, "the country will wake up some morning to find submarines on this side. We are certain to lose some of our ships and our people. This is real war. The effect of this report will be to redouble the vigil of every man in the patrol fleet."

FRENCH RECITE ATROCITIES IN EVACUATED ZONE

PARIS, April 17.—A government commission which was appointed to investigate German atrocities has just completed its inquiry in the evacuated regions north and south and prepared a report which will appear in the Official Journal tomorrow. The commission has traversed a portion of the regions of the Oise, Aisne, and Somme.

"Everything in this spectacle of devastation ethics we have had before our eyes discloses a method of such implacable and striking uniformity that it is impossible not to see in it the execution of a rigorously prepared plan," the commission says in the opening of its report. "All this was done at the same time and with the same ferocity, in order to bring about misery, inspire terror, and create desperation."

The report recounts atrocities committed by the Germans when they entered villages in August, 1914, and which now are made public for the first time. At Noyon, it says, one of the residents, M. Devaux, selected as a hostage, was shot by a soldier as he was about to look for a handkerchief. The same day, Aug. 30, M. Momeux, a [illegible], was shot and wounded. Some time afterward Mme. del Beca was shot and killed by a soldier to whom she had refused to give wine.

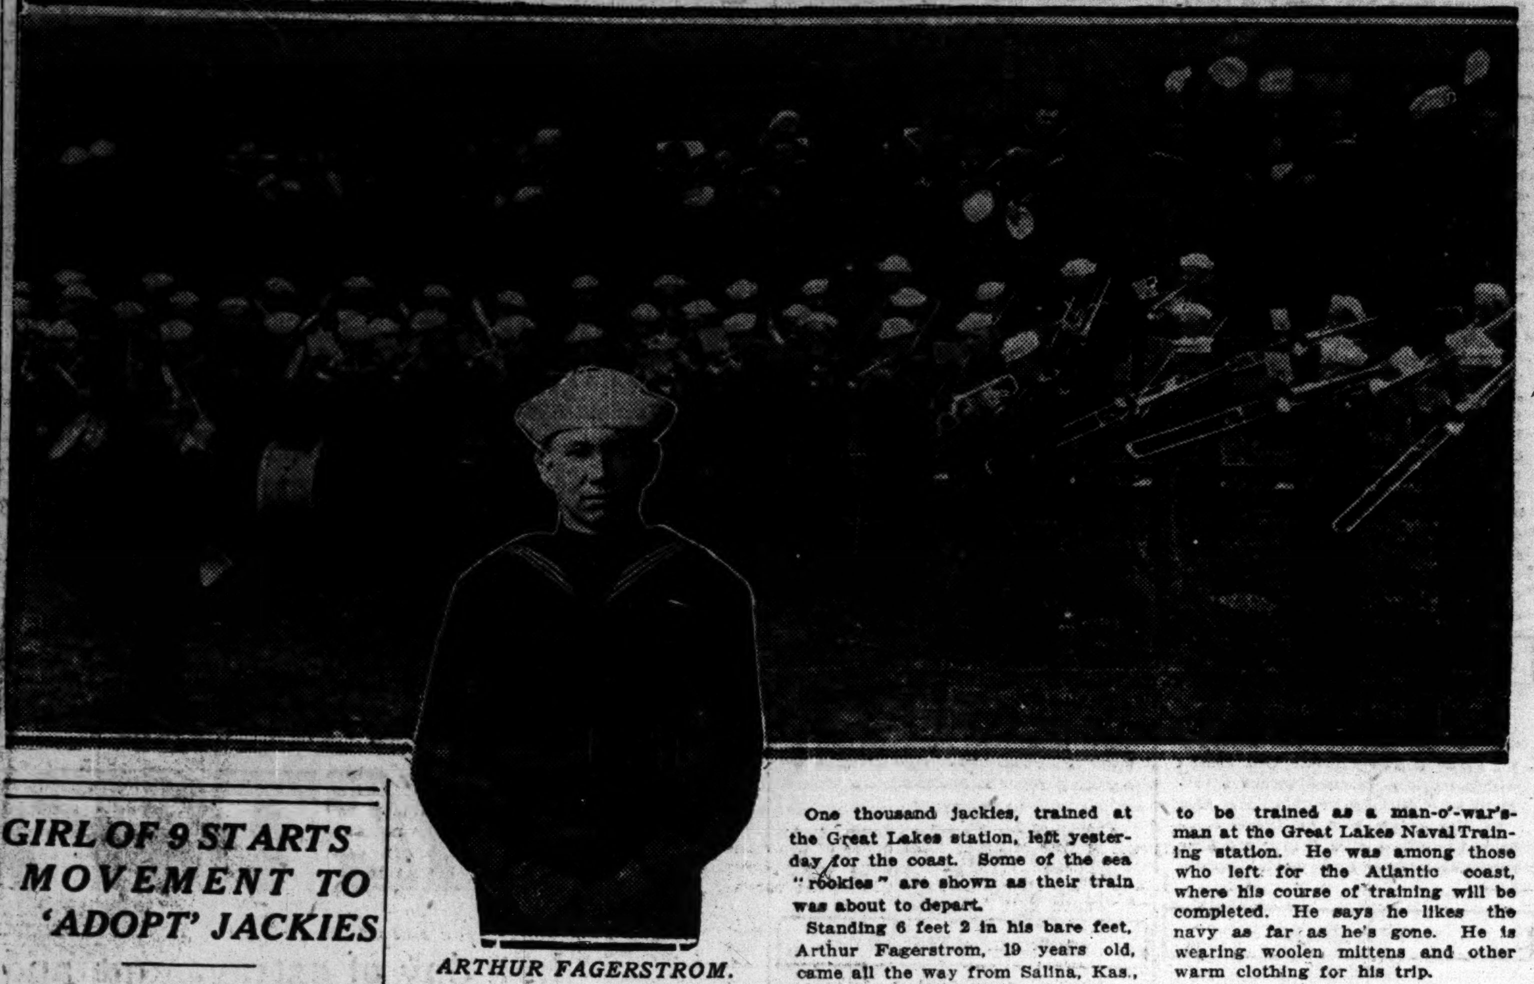
At the beginning of October, the report affirms, inhabitants of Verpilliere were arrested on the pretext that they were communicating with the French army. They were taken before a court-martial at Avricourt and after an inquiry twelve of them were marked on the right cheek with a blue cross.

Toledo University Board 'Fires' Prof. Scott Nearing

Toledo, O., April 17.—The services of Prof. Scott Nearing as dean of arts and sciences in Toledo university were dispensed with tonight by action of the institution's board of trustees, which voted 4 to 3 for his removal. The action resulted from Dr. Nearing's stand against militarism.

OFF TO WAR

One Thousand Jackies Leave Great Lakes Station for Warships on Atlantic Coast.



ARTHUR FAGERSTROM.

One thousand jackies, trained at the Great Lakes station, left yesterday for the coast. Some of the sea "rookies" are shown as their train was about to depart.

Standing 6 feet 2 in his bare feet, Arthur Fagerstrom, 19 years old, came all the way from Salina, Kas., to be trained as a man-o'-war's-man at the Great Lakes Naval Training station. He was among those who left for the Atlantic coast, where his course of training will be completed. He says he likes the navy as far as he's gone. He is wearing woolen mittens and other warm clothing for his trip.

GIRL OF 9 STARTS MOVEMENT TO 'ADOPT' JACKIES

Child Writes Training Station for Name of Youth She May Aid.

A letter from a 9 year old girl which Capt. W. A. Moffett, commandant at the Great Lakes Naval Training station, hopes may start a movement of great benefit to the jackies of the entire United States navy broke the routine of business at the station yesterday. Little Evelyn Young, who gave her address as 2621 Hampden court, wrote to the commandant as follows:

"My Dear Capt. Moffett: Will you kindly ask your jackies who are going to the war if any one wants an American girl, 9 years old, to be his friend and send nice letters from home, a pipe and cigarets and candy and things to show how much we admire him? And who could write me, too, sometimes and tell me what he were doing for the stars and stripes and all us girls and boys.

"I like jack tars and mamma does, too. Papa wants to fight and he was in the guard, but had to earn money for us.

"Hoping you do not get angry and do me this favor. Your friend,

"EVELYN YOUNG,
"2621 Hampden court, Chicago."

The Captain's Reply.

Capt. Moffett sent the following letter last night in reply:

"My Dear Evelyn: If all our little girls had such a spirit as yours, we would have no difficulty in getting our boys to enlist in the navy, especially now, when their country needs them. You do not realize yet, but some day you will, that a man does not go to the front for his country alone, but for some woman—his mother, his wife, his sister, his sweetheart, or perhaps his daughter—such a patriotic little girl as yourself. He fights to defend his women and his home—these are his country.

"I have a great many lads at this station who would be proud to be your knight, and when they are at the front the thought of you will be an inspiration for them. You will hear from one of them tomorrow."

Hopes Plan Will Grow.

"Get angry at that letter? Not in a thousand years!" said Capt. Moffett later.

"Evelyn has started something that I would like to see every little girl in Chicago take up."

NAVY LETS 16 RADIOS AT LAKE PORTS OPERATE

Capt. Moffett, in charge of the Great Lakes Naval Training station, announced last night that there are sixteen radio stations in this district where commercial messages will be accepted and transmitted under the supervision of naval radio censors. These stations, operated by naval or naval reserve wireless operators, are at the following points:

Milwaukee, Wis.,
Manitowoc,
Buffalo, N. Y.,
River Rouge, Mich.,
Detroit,
Benton Harbor,
Frankfort,
Ludington,
Manistique,
Mackinaw,
Calumet,
Great Lakes, Ill.,
Duluth, Minn.,
Cleveland,

Chicago has no wireless communication except through the station at Great Lakes.

Hand Grenades

THE funeral of R. H. Randel, Company C, First Illinois infantry, will be held this afternoon from the residence of his sister, Mrs. John Winters, 6208 Langley avenue. The services will be in charge of Capt. Irving G. McCann, chaplain of the regiment, and will be attended by Company C. Burial will be at Mount Greenwood cemetery, where a squad will fire three volleys over the grave and a bugler will sound taps.

Dr. M. Feuer, 1310 Milwaukee avenue, has written the following letter to THE TRIBUNE: "It has come to my attention that a number of applicants at the various recruiting offices have been rejected for having bad teeth. I am gladly offering my services free to these rejected candidates and will perform such minor operations as will make them fit for duty. Let them come at any time."

The Universal Military Training league will held a luncheon tomorrow at 12:30 p. m. at the Hotel La Salle primarily to raise funds for prosecuting the nation-wide campaign of education which the league has undertaken. Former Gov. Dunne, John M. Harlan, and H. H. Gross, president of the league, are among the speakers. Continuance of the work is looked on as vital, in view of the president's call for aid in arousing the country to its needs.

Impetus to the enlistment of Negroes in Chicago was given today by a letter from Secretary of War Newton H. Baker to the advisory committee of the Greater Hampton Patriotic movement, in which the Negro soldier was highly praised. Secretary Baker's letter was displayed as a bulletin in the armory of the Eighth Illinois regiment. Hampton, which graduated Booker T. Steps were taken to open recruiting stations in the Woodlawn district at the meeting of the Woodlawn Business Men's association yesterday morning. Capt. McCann of the First regiment, infantry, I. N. G., spoke.

The Cornell Alumni Association of Chicago has come out strongly in favor of compulsory military service in a telegram to President Wilson, Senators Lewis and Sherman, and the Chicago members of the house at Washington.

Twenty men who have wives or other dependents were discharged from the First Illinois infantry. On Thursday another batch will be dropped.

An infantryman with a recollection of last summer in Texas writes THE TRIBUNE suggesting that friends of the national guard supply the Illinois regiments with ice boxes, which are not furnished by the government. Each regiment requires sixteen boxes, the standard being a zinc lined double walled chest with outside measurements of 3 feet 2 inches in length and 2 feet 8 inches in height and width, and with four carrying handles.

At Northwestern university Prof. Philip Fox announced that an alumni corps was being organized and military training will be given twice a week on the campus.

One hundred and ten co-eds of Northwestern university decided to prepare a card index showing what lines of work each can take up to assist the government.

Paul Revere lodge, No. 998, will hold a patriotic meeting at the Terminal hall, Clifton and Wilson avenues, tomorrow night at 8 o'clock. Ladies are invited.

Seven Evanston boys, sons of prominent families and friends in the Evanston High school, enlisted in the United States marine corps yesterday and were sent to an eastern receiving station. They are Norman F. Lighthart, Warren B. Legler, Edward M. and Dibert K. Church, Carlyle Babcock, Alfred H. Lindsey, and Herbert E. Johnson.

Coöperation in affording war relief and supplying reading rooms at the training camps was promised by officials of the Salvation army. Through Commissioner Thomas Estill a "war council" has been named to formulate the work.

A woman who refused to give her name presented the First Illinois infantry with a 8x12 foot regimental post flag.

Company F and H, First Illinois infantry, are expecting orders to send detachments of men, about fifty in all, to guard a railroad "somewhere in Illinois."

BERLIN VIEW IS RUSSIA WILL BE FIRST IN PEACE

Reaffirms Readiness to Discuss Break with the Entente.

BY JAMES O'DONNELL BENNETT.
[SPECIAL CABLE TO CHICAGO TRIBUNE.]

BERLIN, via London, April 17.—The reaffirmation by Germany and Austria of their willingness to consider peace with Russia, which the Socialists are trying to bring about, is regarded as highly significant here, but the Germans refuse to permit themselves an excessively sanguine view of the situation.

Nevertheless the new phrase, "right in the east," is on many lips.

It is also important to note that Russia under the czar's rule was the first to refuse German peace and now under provisional rule it is the first to reach a view identical with that of Germany and Austria—namely: that this war must not involve territorial aggrandizement or aggressions.

The prospect of immediate negotiations is not probable, however.

I learn from the provinces that the food situation is improving. There are immense amounts of beef in the markets and the egg supply is increasing. Oatmeal is helping to fill the deficiencies.

Admits Germany Wants Peace.

AMSTERDAM, via London, April 17.—The Frankfurter Zeitung, a copy of which has been received here, says the German people and the imperial government desire peace.

"The people and the government," the newspaper adds, "also desire reformation in internal German conditions, but we will not permit outsiders to confuse the two questions in order to make democratization of our state the price of our attaining peace. We reject such interference in our affairs."

T. R. SPEECH HERE PROMISES TO BE A 'RIPSNORTER'

Says He Will Tell People He Believes in What the U. S. Really Needs.

New York, April 17.—[Special.]—The speech which Col. Roosevelt will make at the Stockyards pavilion in Chicago April 28 will be a "ripsnorter." The colonel so hinted today in commenting on his address.

"This is to be my first speech after the declaration of war," he said, "my first speech after our country has decided to play its part in the greatest crisis that the world has seen for more than a century.

"I wish to make that speech in Chicago, for whose people I naturally have a peculiar feeling. I owe very much to the west. I believe in the west with all my heart, and I wish to state the reasons for the faith that is in me in the great city of the west.

Will Tell Need of Volunteers.

"I wish to speak for the great democratic principle of universal military training and service as the permanent policy of this republic, and also to say why in my judgment we should in addition, and pending the time when the great army will be made ready, provide for calling out an exceptional class of volunteers, which I personaly know are needed at the front, so that at the earliest possible moment we may put our flag on the firing line."

Wants Lane to Speak.

Congressman Medill McCormick in Washington is making an effort to have Secretary Franklin K. Lane of the department of the interior go to Chicago at the time Col. Roosevelt goes there to speak from the same platform with the colonel.

Mr. McCormick feels that Mr. Lane, who was originally an appointee of President Roosevelt on the interstate commerce commission, will well represent the administration at this big patriotic meeting.

Offer to Go with Colonel.

Camden, O., April 17.—James R. Garfield of Mentor, former Federal Judge William L. Day, and Attorney Luther Day of Cleveland, the latter two sons of Justice William R. Day of the United States Supreme court, have written Col. Theodore Roosevelt offering themselves for military service in France should Roosevelt be permitted to take an expedition abroad.

Whitman Would Commission T. R.

Albany, N. Y., April 17.—Col. Theodore Roosevelt may have any military commission which Gov. Whitman has the power to confer, the executive announced today.

"I think no other living American," the executive said, "would attract by his leadership so many men to the colors. Of course, my commission is good only within the state, and whether it would be recognized by the federal government is not within my power to determine."

BRITISH LORDS THANK AMERICA

LONDON, April 17.—The Earl of Crawford gave notice in the house of lords this afternoon that Earl Curzon of Kedleston tomorrow would move the following resolution:

"This house desires to express to the government and people of the United States of America their profound appreciation of the action of their government in joining the allied powers and thus defending the high cause of freedom and rights of humanity against the gravest menace by which they ever have been faced."

SAYS PENFIELD ASKED AUSTRIA TO QUIT KAISER

Berlin Paper Asserts Plan Made Offer of German Land.

AMSTERDAM, via London, April 17.—The Budapest correspondent of the Tages Zeitung of Berlin says he is "reliably informed" that Frederic C. Penfield, former American ambassador to Austria-Hungary, before his departure from Vienna made definite proposals for the separation of Austria-Hungary from Germany and the conclusion of an agreement with the entente.

The basis of this arrangement, the correspondent says, was the cession by Austria-Hungary of part of Galicia, the Trentino, Bosnia, and Herzegovina, as an offset against which it would receive Bavaria and Silesia after Germany's defeat. This proposal was given in such a form, the correspondent says, that Mr. Penfield realized the uselessness of prolonging his stay in Vienna.

Czernin States Peace Terms?

LONDON, April 17.—The Daily News Berne correspondent says a member of the American diplomatic party who arrived there last night from Vienna—an American of unrivaled experience who has been in close touch with Austrian official opinion—gave him the following account of an interview he had last week with Count Czernin, Austrian foreign minister.

Count Czernin, he said, expressed genuine regret at the continuation of the war.

"My ambition and the new emperor's ambition," he said, "is to put an end to the slaughter at the earliest moment. Every one in the dual monarchy wants peace and the emperor will sign it tomorrow as far as Austria is concerned on the following terms:

"First, the dual monarchy to remain absolutely intact.

"Second, no indemnity to be exacted.

"Third, the Serbian kingdom to be reconstructed, but under a new dynasty."

Will Not Bow to Italy.

During this interview Count Czernin declared emphatically that Austria woud never surrender Triest or Trent to Italy. He struck his desk emphatically as he added:

"The Italian war is the one war really popular with our people. Soldiers from other fronts always want to fight against Italy. We shall never surrender Triest or Trent."

Emperor Knows War's Horrors.

BERLIN, April 16, via London, April 17.—Emperor Charles of Austria is quoted by Bjorn Bjornson as saying in an interview at Luxemburg, near Vienna:

"I believe I know war better than most of the men who are at the head of the enemy powers today. I know not only the financial and economic effects of war, but I know also what it means to die in the trenches. I have lived a long time in the field and have seen men fall and die at my feet. Therefore, I know, also, maybe better than any other emperor or king, what peace means."

ARGENTINE TO DEMAND BERLIN EXPLAIN SINKING

BUENOS AIRES, April 17.—The fact having been established that the Argentine sailing vessel Monte Protegido was sunk by a German submarine, the Argentine government, it is stated on good authority, has decided to demand an immediate explanation from Germany.

The German minister is said to have intimated to the Argentine government the possibility of assuring that in the future no Argentine vessel will be attacked by the Germans, under certain conditions.

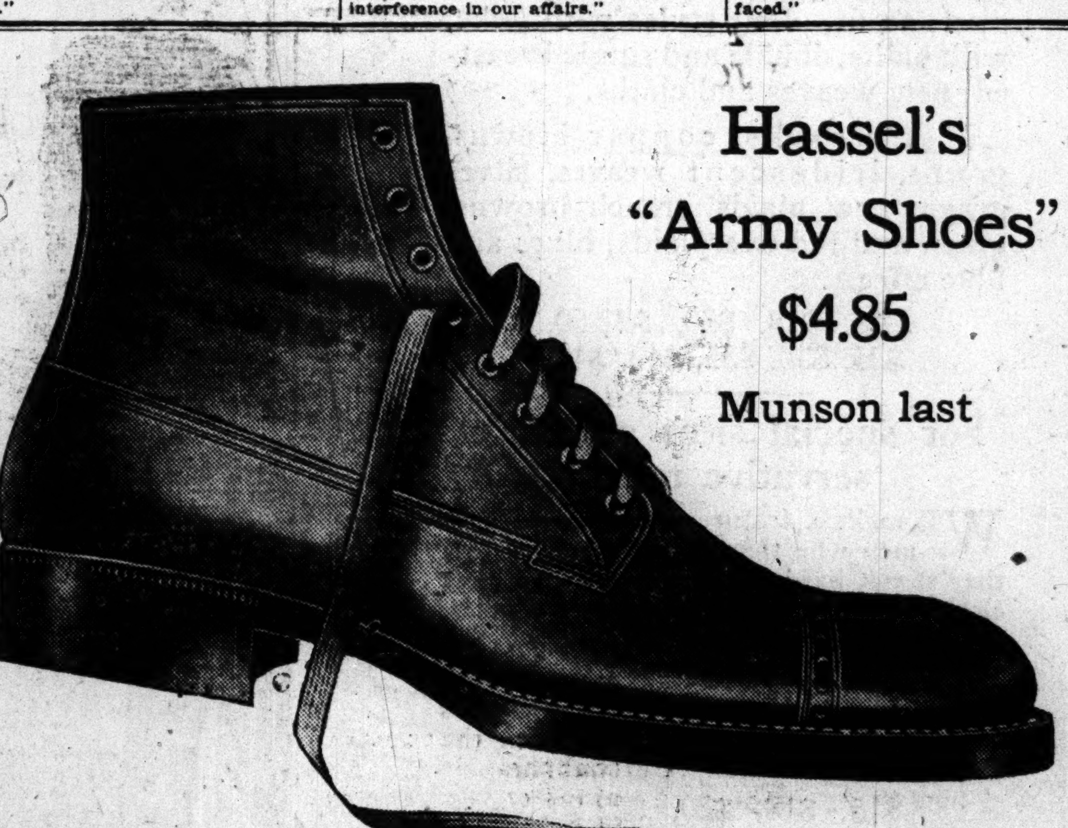
Munson last



FOOT-COMFORT is one of the things absolutely necessary for the soldier; a man can't fight anything else very well if he has to fight his feet.

The shoe we show here is worn by the soldiers in our army; scientifically constructed; it's the most comfortable shoe made; just right for drill, hike, camp, and all-'round, every-day service.

The government placed orders last week for 450,000 pairs at bids ranging from $5.95 to $6.89 the pair. Lieut. Whelan says: "Since this Munson last was adopted sore feet are practically unknown in the army."

We are selling this shoe at a special reduced price—$4.85—for a short time only. We have it in a tan or black.

FRENCH FRONT

FRENCH.

PARIS, April 17.—We enlarged our action today east of Reims and attacked the German lines between Prunay and the road between St. Hilaire and St. Souplet. Notwithstanding violent gusts of rain and snow, our troops carried on a front of nine and a third miles, despite the resistance of the enemy, all the first German positions south of Moronvilliers.

Pushing beyond this position our troops brilliantly carried on a front of about seven miles a line of heights solidly organized, from Mont Carnillet as far east as Vaudesincourt.

Further to the east, a spirited action enabled us to capture the village of Auberive and a powerfully fortified salient formed by the German line around that village on a front of about two miles.

Counter attacks by the enemy in the direction of Mont Carnillet were broken down by our fire. The number of prisoners taken by us on this part of the front exceeded 2,500.

Between Soissons and Reims during the course of the day we resumed our destructive fire against the German organizations and reduced isolated sections where enemy groups still resisted.

About 3:30 o'clock this afternoon a strong enemy counter attack in the region of Hurtebise farm (west of Craonne) was repulsed. Another violent attempt in the sector of Courcy, occupied by the Russian troops, likewise failed.

According to latest reports, our troops in the battle of April 16, between Soissons and Reims overthrew important German forces. In expectation of our attack the enemy had brought in nineteen divisions (266,000 men). According to the declaration of prisoners, they had received the formal order to hold, cost what it may, the first position, which had been reinforced as to depth.

The losses suffered by the Germans were considerable, not only in the course of the battle, but on the preceding days. On the eve of the attack an enemy division while engaged in going to the relief of the sector of a neighboring division lost under the violence of our artillery fire the greater part of its effectives. The number of unwounded prisoners taken by us yesterday between Soissons and Reims has reached a total of 11,000.

DAY STATEMENT.

North and south of the Oise there was intermittent artillery fighting. Our patrols brought back prisoners.

Between Soissons and Reims our troops are organizing the positions captured. In the region of Ailles a strong German counter attack on our new lines was broken up by our artillery and machine gun fire, which inflicted severe losses on the enemy.

Other German counter attacks in the sector of Courcy also were broken up. The weather continues to be very bad over the whole front.

In the Champagne the night was marked by more active artillery fighting west of Auberive. Everywhere else the night was calm.

AVIATION.

In the period between April 10 and 15 our pilots accomplished numerous exploits. Capt. Lecourt, Capt. Grandmaison, Sublieut. Languedoc, and Sergt. Rousseau brought down each his fifth German machine.

Lieut. Pinsart accounted for three enemy airplanes, bringing up to eight the number to the credit of this officer.

Adjt. Vitalis destroyed his seventh adversary, Lieut. Duellin his thirteenth, and Capt. Guynemer scored his thirty-sixth victory.

BRITISH.

LONDON, April 17.—In the neighborhood of Mavrincourt wood we made further progress today north of Gouzeaucourt. Encounters occurred throughout the day west and northwest of Lens, where we continue to press the enemy. Hostile attempts to drive back our advanced troops were unsuccessful.

AVIATION.

In spite of the exceedingly unfavorable weather, much useful work was carried out by our airplanes yesterday. Three German machines were driven down damaged in the air fighting, but in most cases the enemy avoided combat. Five of our machines are missing.

DAY STATEMENT.

In the neighborhood of Epehy we captured during the night Le Tombois farm, on the Lempire-Vendhuille road and gained ground along the spur northeast of Epehy station. We took a few prisoners.

The weather continues stormy, with high winds and squalls of rain.

BELGIAN.

PARIS, April 17.—There were reciprocal bombardments during the course of the day.

GERMAN.

BERLIN, April 17.—One of the greatest battles of the mighty war, and, therefore, also in the history of the world, is in progress on the Aisne.

Since April 6 preparatory fire by the artillery and mine throwers have continued uninterruptedly. By this fire, which has been unprecedented in duration, volume, and intensity, the French endeavored to make our positions ripe for assault, put our batteries out of action, and exhaust our troops.

Early yesterday morning the French on a front of forty kilometers wide launched, with the object of breaking through, a deep column attack from Soupir on the Aisne to Betheny, north of Reims, with the huge weight of strong infantry forces fed by reserves which had been brought up in the rear.

During the afternoon the French threw fresh masses into the fray and carried out lateral attacks against our front between the Oise and Conde Sur Aisne. The artillery fight which was continued today leveled the positions and produced wide, deep craters, rendering an obstinate defense no longer possible.

The fighting is no longer against a line but over quite a deep and irregular fortified zone. The battle swayed backwards and forwards around the foremost positions, our object being, even if war material were lost, to spare the lives of our forces and inflict heavy, sanguinary losses upon the enemy and thus decisively weaken him. This was achieved, thanks to splendid leadership and the heroic bravery of our troops.

The great French attempt to break through yesterday, the object of which was far reaching, failed. The sanguinary losses of the enemy were heavy and more than 2,100 prisoners remained in our hands.

Where the enemy at a few places penetrated into our lines the fighting still continues and fresh enemy attacks are expected.

In the Champagne this morning fighting between Prunay and Auberive has developed, the battle line thereby extending from the Oise into the Champagne.

The troops look forward with entire confidence to the coming heavy fighting.

MACEDONIAN FRONT

FRENCH.

PARIS, April 17.—Yesterday violent cannonading occurred along the front, especially in the direction of Mayadag, in the valley of the Vardar, hill 1348, north of Monastir and Tsrvena Stena.

TURKISH FRONT

BRITISH.

LONDON, April 17.—Gen. Maude reports an advance by our forces on the right bank of the Tigris by means of a night march to within one and one-half miles of the position occupied by the eighteenth Turkish army corps covering Istabliat station on the Bagdad-Samara railway. The enemy's advanced troops fell back without offering opposition.

RUSSIAN.

PETROGRAD, April 17.—In the Caucasus there have been rifle firing and scouting reconnaissances.

ITALIAN FRONT

ITALIAN.

ROME, April 17.—In the Lagarina valley our artillery renewed the bombardment of the station at Collano, damaging the building, putting trains and motor lorries to flight, and dispersing troops. Encounters among small groups of infantry are reported. We repulsed the enemy, taking prisoners and capturing rifles and munitions.

In the upper part of the Aravionodo valley in a heavy storm an enemy detachment made a surprise attack and penetrated one of our advanced positions west of Lake Bocete. He was promptly driven back to his own lines. Under protection of a thick fog an attempt of the same character was made against our positions in the Basso Disondogna. It was repulsed and we inflicted serious losses on the enemy.

On the Julian front the artillery fighting was more intense in the vicinity of Goritz.

RUSSIAN FRONT

RUSSIAN.

PETROGRAD, April 17.—On Sunday night in the region of Koukary we made a gas attack. Our troops which made a reconnaissance afterward were met by machine gun fire.

In the other sectors there have been the usual rifle firing, scouting reconnaissances and aerial operations.

AIR RAID

GERMAN.

BERLIN, April 17.—On Saturday at noon an enemy air squadron of twelve airplanes attacked the open town of Freiburg in Breisgau. At 5 o'clock in the afternoon the attack was repeated by two further squadrons totaling twenty-three airplanes.

To this nefarious attack several people unfortunately fell victims. Seven women, three men, and one soldier were killed and seventeen women, eight men, and two children were injured.

The enemy airmen selected as objectives the new municipal theater, institutes, and infirmaries. The anatomy section of the university was considerably damaged. Owing to our effective counter measures the attacks could not be fully executed.

In the course of air battles which resulted two enemy airmen were shot down near Schlettstadt and Markirch. A third was shot down in an air battle combined with a bombardment from the ground. All three airplanes were of English type, with English occupants.

The leader of the attack, an English lieutenant colonel, fell into our hands. According to his statement and the contents of a fly sheet which was thrown down, the attack was in reprisal for the torpedoing of the Gloucester Castle [British hospital ship], recently sunk by a German submarine. We must resolutely contest the right to make such [attacks?]. In justification our government gave England to understand in time enough that it could not longer tolerate the passage of so-called hospital ships in the precisely defined zone. If the English despite our warning misuse the red cross and carry it on transports in the war zone they must bear the consequences of their action; but to attack an open town from revenge is cheap glory. There are no objects of military importance in Freiburg to justify the attack.

ROUMANIAN FRONT

RUSSIAN.

PETROGRAD, April 17.—There have been the usual rifle firing and scouting reconnaissances.

AVIATION.

Our aviators brought down two German airplanes which fell in flames at Morecesti, east of Fokshani (Southern Moldavia).

SUPPLEMENTARY

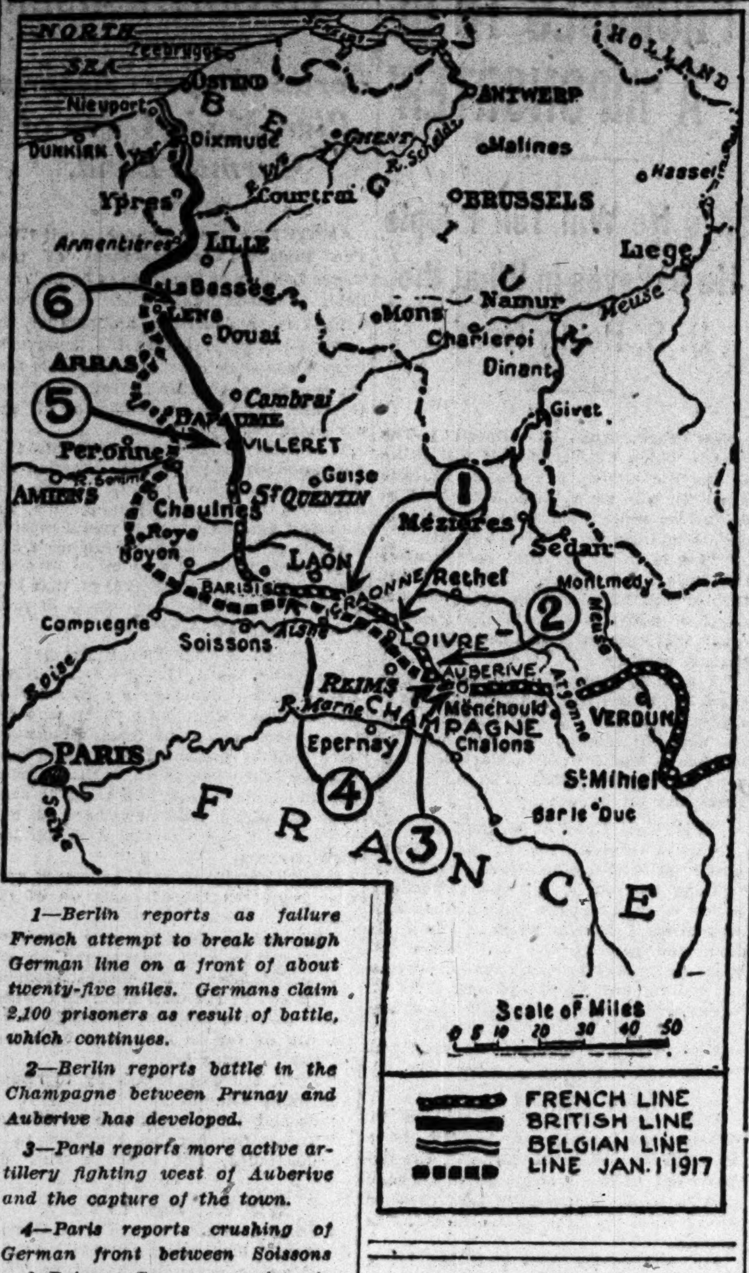
GERMAN.

BERLIN, April 17.—After failure with heavy losses of the French attempt to break through our lines they have not renewed their attacks on the Aisne.

In Champagne bitter fighting proceeded throughout the day on both sides at Auberive.

On the other fronts there is nothing of importance to report.

WAR'S STAGE IN LIMELIGHT



1—Berlin reports as failure French attempt to break through German line on a front of about twenty-five miles. Germans claim 2,100 prisoners as result of battle, which continues.

2—Berlin reports battle in the Champagne between Prunay and Auberive has developed.

3—Paris reports more active artillery fighting west of Auberive and the capture of the town.

4—Paris reports crushing of German front between Soissons and Reims. German counter attacks broken up.

5—London reports British gain east of Peronne-Cambrai railroad at a point between St. Quentin and Cambrai.

6—London reports continued progress west and northwest of Lens.

Lift Corns Out With Fingers Don't Hurt a Bit—It's Magic

Few drops stop soreness, then the corn or callus shrivels and lifts off. Try it and see! No humbug!

This tiny bottle holds the wonder of wonders. It contains an almost magical drug called freezone. It is a compound made from ether.

Apply a few drops of this freezone upon a tender, aching corn or a hardened callus. Instantly the soreness disappears and shortly you will find the corn or callus so shriveled and loose that you just lift it off with the fingers. It doesn't hurt one particle.

You feel no pain or soreness when applying freezone or afterwards. It doesn't even irritate the skin.

Just ask in any drug store for a small bottle of freezone. This will cost but a few cents but will positively rid your poor, suffering feet of every hard corn, soft corn, or corn between the toes, or the tough calluses on bottom of feet. Genuine freezone bears the name of Edward Wesley Co., Cincinnati, O.

In a day of extravagant and easily-given praise there is something very solid about this recent expression of appreciation of The Dictaphone.

Quite simply, the Hamilton Watch Company writes: "We find them very satisfactory." On reflection, it will be seen that words could hardly go further. "Very satisfactory"—after all, that is the *point*. What *daily perfect service is implied!*

One of the most distinguished and successful members of the watch making industry, the Hamilton Watch Company's commendation of The Dictaphone is distinctly worth noting by other houses.

They commenced dictating to The Dictaphone early in 1916 with six Dictaphones. Finding as the months went by, just what The Dictaphone meant in *Convenience* and *Speed* for the entire office staff, more Dictaphones were installed, until now they have fifteen in all.

NATION'S WAR PLANS INSURE 100 YEARS PEACE

Supply Contracts Wait Only Bill Appropriating $2,000,000,000.

BY HENRY M. HYDE.

Enormous contracts for war supplies wait only the final passage of the bill appropriating $2,000,000,000 for military expenses during the current year. Preliminary arrangements for many of these contracts already have been made. Many manufacturers from Chicago and other parts of the country have been called to Washington during the last few weeks. The needs of the country have been laid before them. Each of them has been told just what would be expected from him. In many cases a tentative agreement as to prices and other details has been reached. The manufacturer has come home to get ready for the formal orders.

Will Startle Nation.

Within a few weeks the country will be startled to find how far the government, backed by the big business men in the council of national defense, has gone in the direction of making ready for war on a gigantic scale.

That is the message brought back from the national capital by several Chicago manufacturers who have been called by the council.

"We found," says one of these returned visitors, "a determination on the part of government officials and their aids to see that both the United States and the individual manufacturers should get fair treatment.

Plan for 3 Year War.

"We found plans being made for a war which should last at least three years and which involved the raising of an army of 3,000,000 men. The point was made clear that without reference to when the war in Europe ends this country of ours must be prepared, once and for all, to defend itself against foreign invasion.

"We were all impressed with the conviction that Washington has decided to raise, equip, train, and arm an army of 3,000,000 men within the next three years, and that without reference to the present war. That done, with the annual increments which will be added to it thereafter, the United States will have men enough in civil life, who have been trained to arms, to insure peace for a century. No foreign foe would venture to attack us.

On Enormous Scale.

"Plans for the purchase of supplies and equipment are being made on the same enormous scale and with what seemed to me and the other men I have talked with on an extremely fair and equitable basis.

"We were told about how many of each article the government would be likely to require within three years and how many would be needed the first year. Then we were asked how many we could manufacture without seriously interrupting our regular business.

Officials Well Informed.

"As to price the officials seemed to be well informed, doubtless through consultation with experts in the line, what the normal cost of manufacture would be. Contracts would be let, we were informed, on a basis of cost, plus a certain fixed percentage of profit. That percentage might vary somewhat in different industries. If the individual manufacturer made any considerable investment in buildings or machinery to meet government demands the understanding was that an equitable arrangement would be made under which a certain part of these investments might be charged off and absorbed in the price paid by the government.

"We objected that the government cost price was too low because our raw materials had risen vastly in price and were closely held in a few strong hands by men and corporations who were apparently determined to make a large profit. And again the officials with whom we were dealing seemed to have the situation well in hand.

Warning Is Heeded.

"They seemed to have their minds made up as to what was about a fair price for the raw material we use. 'But we can't buy at any such prices,' we urged. Then they sent for the people who held most of the raw material and held conferences with them. As a result we were assured that all the raw stock needed would be available at about the price fixed by the government.

"We understood that the raw stock people were told if they did not sell their goods at what the government thought fair prices all their stock would be seized by the government, paid for at the price fixed, and turned over to the manufacturers of the finished goods. And, of course, under those circumstances they were quite willing to be good.

Patriotism Shown.

"In fairness I should say that almost everybody with whom the government officials had conferences displayed a patriotic willingness to coöperate in every way. Only always in the background loomed the implied threat that if any gouging was attempted the government would take over the property for its own use, paying, of course, a fair price for it.

"No doubt the action of congress will greatly affect the working out of this whole plan. As it lies it seems to me admirable. I came back to Chicago feeling more cheerful and prouder of my country than ever before. It all seemed too good to be true."

BERLIN STRIKERS RESUME WORK IN MOST FACTORIES

AMSTERDAM, via London, April 17.—Advices received here from Berlin say that work was resumed today in a majority of the factories which were idle yesterday.

Strike Causes No Trouble.

BERLIN, April 16, via London, April 17.—[Delayed.]—A day of apprehension in Berlin ended tonight without alarming events. The threatened strikes because of a reduction in the weekly bread ration materialized in only a portion of the larger factories and did not affect transportation or public utilities.

The strike leaders had planned an elaborate system of street demonstrations, which were to unite in an outdoor assemblage, but inclement weather kept down enthusiasm.

The strikes are limited to factories manned by unions belonging to the Liebknecht?Ledebor branch of the Social Democracy. The Scheidemann group is not striking.

STATE COUNCIL OF DEFENSE IS PLAN OF LOWDEN

Springfield, Ill., April 17.—Arrangements for creation of a state council of defense and for recesses instead of adjournment of the legislature in order that a lawmaking body may be at hand any time during the war were outlined today by Gov. Lowden.

A bill proposing creation of the council of defense will be submitted to the legislature this week. The body would consist of probably fifteen members, each chosen from some profession or trade particularly applicable to war measures. They would serve without pay.

The governor today offered to place his large farm in Ogle county at the disposal of the government for experimental or other purposes, if the Dean Davenport plan should be adopted. The governor said his 4,700 acre lands were under contract, but he believed the government might make satisfactory arrangements with his tenants if it concluded to undertake such an enterprise.

BLACK FRIAR PLAY TO AID RED CROSS

The net profits from the "Myth in Mandel," the annual Black Friar play at the University of Chicago, will be given to the American Red Cross society for relief work in the United States. This announcement was made yesterday after a meeting of the board of superiors of the organization. The usual donation of $200 to the general building fund of the university will not be made this year and that money will also be given to the Red Cross.

REVOLT AWAITS CARRANZA, WITH GERMANY'S AID?

First Chief Will Never Be Inaugurated, Returned American Hears.

El Paso, Tex., April 17.—A reliable American, who arrived at the border from Mexico City today by way of Saltillo and Torreon, said he had heard unverified rumors there of a plan for a garrison uprising on or before May 1, when Gen. Carranza is to be inaugurated president of Mexico.

This rumored plan, he said, was a part of a general movement to have Obregon seize the government and was receiving German financial and moral backing. He said a prominent Mexican had made a prediction to him in Mexico City that Carranza would never be president nor would the new constitution be put into effect.

He said concentration of large bodies of de facto troops in the north, in command of generals loyal to Obregon rather than Carranza was causing much worry in Mexico City.

These reports and rumors were denied categorically late today, by Carranza Consul Bravo.

Carranza Ambassador Received.

Washington, D. C., April 17.—Ignacio Bonillas, the first Mexican ambassador to be received by the United States since the overthrow of Madero, presented autograph credential letters from Gen. Carranza to President Wilson today and was formally accepted as diplomatic representative of the de facto government.

In response to the ambassador's announcement that the constitutional order would be restored in his country May 1, and expression of hope that "the most cordial relations will continue to exist between our people and our governments," the president said:

"The close neighborhood of the United States and Mexico makes it most desirable that there should be between the two countries relations of friendly trust and confidence."

Has America's Good Wishes.

"It has been my endeavor in these years of unrest and strife in Mexico to impress upon the Mexican people that the United States has none but the best interests of Mexico at heart and has no wish more selfish than to see its people placed in the enjoyment of the blessings of peace, happiness, and prosperity by the establishment of a constitutional and stable government, capable, among other things, of affording due protection to American citizens and property, and of meeting all other international requirements."

Paul Revere Ride to Help "Wake Up America Day"

New York, April 17.—Church bells will toll at midnight tomorrow in commemoration of the famous ride of Paul Revere and to tell New Yorkers of the coming of "Wake Up America Day" designed to stimulate recruiting for the army and navy and warn the people of another fight for freedom.

GERMAN SOLDIER TO STAY IN JAIL DURING THE WAR

Release Requires an Order from the President.

Rudolph Muller, the German reservist who is held in the county jail on order of President Wilson, will stay there until peace is declared between the United States and Germany as far as local officials are concerned.

Both District Attorney Clyne and Hinton G. Clabaugh, chief of the government's espionage wrecking forces in Chicago, said Muller would be liberated only on the order of the president.

He Talks Freely.

Somewhat to the chagrin of federal officials, who had given orders that he be held incommunicado, Muller talked apparently without reserve in his county jail cell. After hearing of Muller's interview Mr. Clabaugh said that some new place must be found "to hide such men."

"I have been asked by Mr. Clabaugh's men what I know about an aeroplane and machine gun factory operated by German capital in Mexico City," said Muller. "I had no definite knowledge of it.

"I told those who questioned me that I know that German reservists have been leaving the United States in large numbers and that one party was headed by a Mr. Mahlmann, who was formerly a bandmaster at the Bismarck garden.

"My sympathies are with Germany. However, I would not fight against the United States, though I would against England."

Muller's Career.

Muller came to the United States in 1911, was successful in business, but lost $50,000 in speculation, after which his wife, who was Miss Dorothy Riegel of 844 Lakeside place, divorced him in Cincinnati. In 1916 he said he obtained a position with the Illinois Steel company, but race prejudice led to his discharge. Lately he has been visiting at the home of W. J. Henderson in Rogers Park.

In order to fight against Mexico Muller said that at one time he was tempted to join the army, but fear that he would lose a fortune which he expects to inherit from his father, a Bremen banker, deterred him, he said.

Charles Riegel, tobacco dealer, admitted that his daughter was married to Muller in 1912, but denied knowledge of Muller's whereabouts or activities.

Friend of His Son.

Mr. Henderson, at whose home Muller said he was a guest, said that his son, H. E. Henderson, a real estate dealer, met Muller two years ago in Texas, where Muller aided his son in selling real estate.

"At times Muller came out with some pretty strong statements regarding the war and on several occasions I told him he had better keep his mouth shut or he would find himself in trouble," said Henderson.

Edward Garsten Smith, a writer, whose pamphlet, "The European War," attracted Mr. Clabaugh's attention, promised he would not distribute the pamphlet until the end of the war.

"Mr. Clabaugh and his assistants treated me like a gentleman," said Mr. Smith. "They told me that my pamphlet might do no harm if it found its way only into the hands of educated persons, but they feared that in war times it might inflame weak minds to violence. I agreed wtih them and consented to withdraw it temporarily."

AMERICANS ON BRITISH BOAT SUNK BY DIVER

New York, April 17.—The British steamship Karmala, an 8,983 ton passenger vessel, owned by the Peninsular and Oriental Steam Navigation company, was driven on a reef and sunk on March 17 near Spezia, Italy, after being shelled and torpedoed by a German submarine, according to two Americans who were among the 190 passengers and arrived here today. All on board the Karmala were saved.

RUSSIAN ENVOY QUITS U. S. POST

Washington, April 17.—George Bakhmeteff, Russian ambassador to the United States since 1911, cabled the provisional government at Petrograd today that he had decided to relinquish his office. Distinctly a member of the old imperial régime, the ambassador's retirement causes no surprise. It is known that Baron Rosen, Mr. Bakhmeteff's predecessor here, will be sent to succeed him and probably is now actually en route.

"Our Country! In her intercourse with foreign nations may she always be in the right; but our country, right or wrong."
—Stephen Decatur.

AMERICAN LABOR AND THIS WAR.

The Chicago Federation of Labor seems to be dominated by men who do not consider themselves a part of the United States. We are certain they do not represent the members of the unions which make up the federation any more than certain politicians who get office and manipulate political power represent the morale and the intelligence of the American people. Unionism, like political parties or other forms of organization, is preyed upon by men who exploit it by various devices, taking advantage of the timidity, the shortsighted indifference, the prejudices, or the preoccupation with private affairs of its members.

In England, in France, in Germany, organized labor, while energetically defending its special interests, has given a splendid example of its wholehearted love of country. In this country labor leaders and some organizations have shown the same spirit since we entered the war. But it seems our local federation heads cannot make up their minds to resolve to support the government and have postponed consideration of such a resolution for a month.

At the meeting on Sunday, which refused to take action, one proposal was to lay an embargo on all foodstuffs and necessaries of life; another was to put all effort into obtaining the conscription of incomes.

The first proposal would be warmly seconded in Germany, but if congress were insane enough to adopt it American labor would suffer worse than any other class by the industrial disorganization which would follow.

As for conscription of incomes, that will certainly take place if the phrase means heavy taxation of incomes and profits. But if the wage earner can see beyond the end of his nose he will not support tax legislation which will bring about the exhaustion of capital and the paralysis of industry, for if it does the wage earner will be the chief sufferer.

The delegate who wants incomes conscripted declared that labor ought to say to capital: "We will furnish the men if you will furnish the financial power. Then capital and the prostituted press will do the right-about-face on this war position."

This is the kind of bunk the false labor leader is always giving out. It is an insult to the intelligence of his followers. To begin with, labor leaders up to this time have shown no disposition "to supply the men." The leaders are fighting the government measures for getting men. Up to date the labor bosses refuse either to accept conscription or to make the volunteer system go.

If there ever was a war which labor ought to support it is this one. The United States has gone in reluctantly and late in aid of nations all organized on democratic lines and against an alliance of the greatest military autocracy of modern times, the most conservative monarchy, and an oriental despotism. Until the fall of the Russian czar the American democrat might have pointed to Russian autocracy as an evidence that there was no clear alignment between liberal nations and aristocratic. That objection is now gone. The American radical, unless he is a mere nonresistant, has no excuse for not throwing himself and his influence into the war. The triumph of the central powers means the intrenchment of the autocratic system in Europe at least. Their defeat means its discredit and probable overthrow.

There are socialists who are more Germanic than socialistic in Germany and in America. They will try to prevent the central powers from being defeated. There are labor orators who are more interested in their own jobs than in the war of liberalism against autocratic efficiency in Europe or in America's part in it. They will continue to spout bunk about munition makers and plutocrats.

But it is up to the rank and file of American labor to do its own thinking or it will be serving the cause of autocracy against freedom. If the interest of plutocrats they hear so much about were controlling our policy today we would be staying out of the war on any pretext because war means taxation and sacrifice, whereas peace means piling up billions at the expense of the warring peoples.

American labor is on trial today fully as much as American capital. If it does not think for itself it will be bunkoed by demagogues into defeating its own cause. If American labor is not ready to fight for liberalism it had better get ready to accept tyranny.

GETTING FULL VALUE.

One mistake which this nation made in the civil war may be well avoided in this one. We sent regiments to the front without providing for wastage. We had not depots where men were recruited, trained, and equipped, and finally sent on to fill vacancies.

Units are fixed in their size because certain sizes have been found valuable for certain purposes. A battery of three guns is not three-fourths as effective as a battery of four guns. A gun crew reduced by two men is weaker in greater proportion than the loss of numbers.

If we want to fight Germany with minimum loss—which is, of course, our object—we shall have to establish depots for all existing regiments. An old regiment brought to strength is better than a wholly new regiment. We shall have to retain at the depots enough equipment for training purposes.

Instructors for these men ought not to be difficult to obtain. There are thousands of men with some military knowledge in this country who, by reason of age or physical disability, are unfit for active service in the field. The retention of equipment is more serious.

When the Illinois artillery moves out, for example, it will scarcely be able to leave anything. It has barely enough for its present needs. Wooden rifles may be valuable for training. Wooden field pieces would scarcely do.

But the difficulty of establishing the depot system is infinitely less than its importance. It is the only known way of getting full value out of units at the front, of making use of the experience of the men who are at the front.

A regiment of veterans filled up with recruits is more effective than a new regiment of recruits with new officers and no experience. It is a question of thrift in men.

GOOD LEADERSHIP.

More comforting to good Americans than the news of allied victory is the attitude of the administration toward the problem of creating an army. The first battle for the United States is going to be fought against Von Dent and his colleagues and there is every indication that the president intends to defeat them. When the house of representatives hesitated over the conscription plan the president called in the Republican minority leader. He also set the senate working at the bill. He has not accepted defeat at the hands of those congressmen who are in effect at least allies of the kaiser.

It is this battle which is going to decide the war. If congress permits the proper organization of American forces America is the strongest nation in the world. It will be the strongest force for right and for democracy in the world. Pacifist congressmen take upon themselves a terrible responsibility if they refuse the administration's leadership at this time.

There are many indications that the leadership is going to be good. Secretary Baker's decision not to encourage the formation of new national guard regiments shows a determination to go at the task of making an army in a businesslike way. He has turned his back on the tempting and traditional volunteer way.

Every war stimulates a lot of patriotic men, fairly successful in their local affairs, to recruit new regiments and offer them to the government. Experience has shown this country that this is a bad method of raising an army. Men become officers who have few qualifications for leadership in war because they understand how to get men to enlist. When the troops get into camp they suffer from ignorance. The officers are green and the men are green. The progress of their education is slow and painful. Men die in insanitary camps and if they get into battle they are often killed unnecessarily.

In setting his face against a repetition of our former disastrous experiences with brand new organizations Secretary Baker may be cooling patriotic ardor, but he is saving time and lives.

At this time there is especially little reason for organizing new national guard regiments. The existing organizations, most of which received valuable training on the Mexican border last summer, are not full. Their officers are better than green officers can be. Their men can teach recruits. Nor is the regular army nearly full. There the volunteer would receive the best training it is possible to give in this country. The officers are carefully trained and the men are veterans of military life.

There will be, of course, a great need of officers. But we have already in the officers' reserve corps a means of getting better officers than can be obtained by the new organization method. Political reasons often dictate an officer's appointment in a new militia unit. The officers' reserve corps is chosen by a better system. The applicants take examinations, physical and mental. Those that have not served with troops will doubtless be required to enlist and serve in the ranks before they are given command of troops. Green troops in charge of green officers suffer horribly and accomplish nothing.

Secretary Baker seems to understand the dangers and the weaknesses of our traditional method of raising armies. The country will reap dividends in lives spared by disease and by bullets.

RETAIN PRESIDENT LOEB.

It is reported the mayor will send Mr. Jacob Loeb's name to the council as the first of his new appointments to the school board. This action is obviously appropriate. Mr. Loeb has been the center of a hard struggle and has earned some vociferous enemies, but the amount of noise made by opposition does not represent its real strength, and the council, we believe, will be prompt to recognize Mr. Loeb's excellent record as an executive and the need for continuing him at his post. The silent public, which may not be organized yet which wields the real power, recognizes the man who serves with single mind the cause of the school children and is trying to build up a system directed solely to that end.

Mr. Loeb, a business man of experience and ample means, has put through many constructive reforms in the administration of school affairs and has a capacity for driving straight at the center of a problem as he did when he called for volunteers among the high school boys for the much needed service on farms and truck gardens. He put through the excellent Steever-Wyoming plan of military training in the high schools, but his most important service has been his fight for a free school system run for the children and not for any organization of employés.

Mr. Loeb's reappointment is called for not only in recognition of service done but as assurance of work still to be done.

PAN.

ANOTHER British hoax, we fancy—the report of submarine attacks along the Atlantic coast. Have we not Germany's word that she will not attack the United States? She views our warlike front more in sorrow than in anger.

OUR neighbors' insistent declaration that the volunteer system has always failed will be questioned by our army of contributors. The only conscript in the ranks is the Gentleman at the Adjacent Desk.

AMERICAN FOOD CUSTOMS AND DIETS.

SIX years ago Dr. Langworthy wrote circular 110, "Food Customs and Diet in American Homes," one of the publications of the department of agriculture. Among his conclusions is the following:

"The dietary studies and other similar reliable data seem to show that the people of the United States as a whole are adequately nourished as compared with other races. The acknowledged energy and achievement of the American people, together with their general good health and physical well being, certainly indicate that they have in the main used their food resources advantageously."

Comparatively few men are undernourished. The percentage of children and working women who are undernourished is much larger. Most of the tea-and-toast women are undernourished.

That the body makes use of what is eaten in so far as it digests and absorbs it is proven by this study. Of the food as a whole 96 per cent of the organic matter and 91 per cent of the energy elements are digested and absorbed. The waste of nutrients is only 4 per cent; of energy only 9 per cent.

◆

The digestibility and availability of the energy of different groups of foods are as follows:

Meat and fish—97 per cent of proteins; 95 per cent fats; 97 per cent of total energy.

Eggs—97 per cent proteins; 95 per cent fats; 98 per cent carbohydrates; 89 per cent total energy.

Dairy products—97 per cent proteins; 95 per cent fats; 98 per cent carbohydrates, and 93 per cent total energy.

Total animal foods of mixed diet—97 per cent proteins; 95 per cent fats; 98 per cent carbohydrates, and 89 per cent of total energy.

Cereals—85 per cent of proteins; 90 per cent of fats; 98 per cent of carbohydrates, and 91 per cent of total energy.

Dried legumes—78 per cent of proteins; 90 per cent of fats; 97 per cent of carbohydrates, and 83 per cent of total energy.

Sugars and starches—98 per cent of carbohydrates and 98 per cent of total energy.

Vegetables—83 per cent of proteins; 90 per cent of fats; 95 per cent of carbohydrates, and [illegible] per cent of total energy.

Fruits—85 per cent proteins; 90 per cent of fats; 90 per cent of carbohydrates, and 88 per cent of total energy.

Total vegetables of mixed diet—Percentage of protein, 84; of fats, 90; of carbohydrates, 97; of total energy, 92.

◆

Comparing the ability of the human machine to digest and get the values out of different groups of foods, we find that it gets 92 per cent of the energy out of vegetable foods and 89 per cent of that contained in animal foods. It is more successful in extracting proteids out of animal food—the percentages being 97 and 84 respectively; also of fats—95 to 90.

It takes from vegetables 97 per cent of their starches and from animal foods 98 per cent of theirs. It takes from meat and fish 97 per cent of their protein, while it only gets 78 per cent of the protein contained in dried legumes. It gets 95 per cent of the fats in meat and only 90 per cent of that in vegetables. It gets 98 per cent of the carbohydrates in dairy products and only 90 per cent of that in fruit. It gets 98 per cent of the available energy in sugar and only 83 per cent of that in dried legumes.

The conclusion is that the body does not waste what we put into it to any considerable extent. We do waste in the selection and preparation of food.

J. P. writes: "I am hard of hearing and the noises I have in my head become annoying at times, setting me on edge. What is the cause of these noises in the head? Is there any remedy for them, or relief, and what is it?"

REPLY.

The nerves of hearing react to irritation by noises in the head, just as the nerves of sight react to irritation by flashes of light; those of sensation by feelings of heat, cold, touch, or pain, as the case may be. Ofttimes head noises are cured by treatment of the nose or throat. Sometimes an abnormality can be found in the nose or throat, but treatment of the ears lessens the trouble.

The difficulty in bettering head noises generally is a result of neglect. The ears should have been treated from ten to forty years before they are, in most cases.

2. The possibility is exceedingly slight.

ALFONSO ANSWERS THOUSANDS OF INQUIRIES FOR WAR VICTIMS

(By the Associated Press.)

MADRID, Spain, April 2.—[Correspondence.]—A cable dispatch came from America today addressed to the king of Spain. It was delivered at the royal palace to the king's personal secretary, Señor Don Emilio Maria de Torres, minister plenipotentiary, who after reading it passed it to the representative of the Associated Press, who chanced to be present.

The cablegram said: "Our son enlisted as aviator in British Royal Flying squadron. He was last seen flying over English channel on Dec. 4, last. Since then nothing known of him and he is officially reported as missing. An agonized mother and father appeal to your majesty to obtain information and relieve their terrible suspense."

Señor de Torres at once set in motion the machinery of investigation through the Spanish embassy at Berlin. This was a typical case, one among more than 200,000, which are being investigated under the personal direction of King Alfonso, and which constitute one of the most stupendous humanitarian works created by the war.

◆

Judged by results alone the vastness of the work is apparent; 150,000 cases disposed of and 50,000 still under investigation. A great number of soldiers, reported "missing," have been located alive and in prison camps and thus the agony of suspense has been removed from thousands of homes. In a much larger number of cases, unfortunately, the inquiry has established the death of the missing soldier, while in a still greater number of cases no trace of the missing has been found.

Beside this, 30,000 civilians in the invaded sections of Belgium and France have been located, 5,000 seriously wounded have been brought back through the king's intercession; forty-four pardons have been granted, of which nearly twenty were death sentences, mostly women accused of being spies.

It is not only a vast work but it probably deals with more individual tragedies and more human emotions than any branch of activity created by the war. Pouring in here to the palace, by cable, telegraph and letter, are the pleas of mothers for lost sons, wives for lost husbands, and children for lost fathers and brothers. Each tells a story of terrible suspense.

◆

Most of the appeals are from poor people who write with touching simplicity and with doubt as to how they should address a king. But the simplicity of the appeals has only stimulated the earnestness of the king's efforts. He has organized this extensive system of search here in the palace, alongside the royal apartments, where he can come and go frequently to see the work as it progresses. A dozen large chambers looking out on the royal courtyard are devoted to the work, with scores of officials, including some of the titled women of Spain and of the orders of the Assumption and the Sacred Heart, who devote all their time to this humane work.

Long lines of records contain the thousands of cases, classified and indexed, so that any case can be traced in a moment. The appeals of mothers and children are arranged alphabetically in huge cases and constitute the most touching feature of the work.

◆

Glancing among these appeals one could see the agony each one had for some stricken home. One French mother wrote the king:

"I suffer night and day in not knowing what has become of my boy and I would prefer, I believe, the certainty of his death and of having a tomb where I could go to pray rather than to live in this endless and cruel uncertainty which consumes me as by a slow fire. It is horrible, Monsieur the King, for the two brothers of this poor boy have already died on the field of honor, and if our last son, Charles, is dead, we have no more sons. A weeping mother puts her supreme hope in your majesty."

A wife made this simple appeal: "Seigneur, I appeal to your kindness for my husband, missing the 27th September before Souchez."

A little girl wrote: "Monsieur, I have the honor to ask some news of my brother. We are all in agony and my mother is sick and cannot be consoled. Will you give us news? Here is his address."

"Another wife wrote: "If at least I could only know that my husband lived. I am the mother of a little baby girl the father has never yet seen, and this baby child pleads to your good heart."

◆

These appeals do not always follow the niceties of diplomatic communications. Some of them are on rough paper bought at the country store and are in trembling handwriting of old persons. But the king does not see these defects, and his greatest satisfaction is in sending a personal telegram to some mother or child telling of the successful result of his search.

It is not easy to convey the news when a son or father has been killed. But the king, to avoid a shock to the family, has adopted the delicate formula of first sending notice of a death to the mayor of a town asking him to adopt suitable means of conveying the news to the family.

There are some 150,000 of these dead and untraceable missing in these palace records—an army greater than Napoleon's army at Waterloo. To mark the solemnity of these 150,000 cases the king has placed above the records a gold framed scroll, a wreath of laurel leaves entwining a cross.

The king has attached to the staff of the Spanish embassy at Berlin forty persons who are making these investigations in all parts of Germany. It is growing so that another seventeen will be added soon. The same kind of inquiry is being made in Austria, Italy, and France and other countries.

TRIBUNE LAW DEPARTMENT.

VOICE OF THE PEOPLE

RADICAL REMEDIES FOR RADICAL TIMES.

Chicago, April 13.—[Editor of The Tribune.]—Much has been said with regard to mobilizing the nation's food producing resources to meet the drain of the war into which we have entered. Three concrete actions imperative for the government to take at once are: First—Take over all commercial fertilizer plants immediately. The planting and fertilizing season is at hand and there was evidenced at the meeting of the advisory committee of the National Fertilizer association at Atlantic City yesterday a plain purpose of taking advantage of war conditions as an excuse for further boosting the price of commercial fertilizer to the American farmer who already has been victimized sufficiently by this means.

Second—Let every country high school be dismissed now. They are not customarily dismissed for from a month to six weeks from this time, and the next thirty days is the time when the additional help that a half million American high school boys in the country will be most valuable.

Third—Prohibit the sale of veal or of beeves under one year old. The most wasteful thing in the American live stock industry is the marketing of veal calves. If Americans understood that doing without veal now would go far to insure against doing without beef later on in the war, they would not object to such a restriction.

These are radical remedies, but these are radical times. I believe they would obviate more radical measures in the event of the war lasting as long as it may. R. A. DONHAM.

AN INTERNED BELGIAN SOLDIER

Zeist, Holland, April 8.—[Editor of The Tribune.]—I am an interned Belgian soldier, to whom the long hours of captivity are proving irksome. Perhaps some of your readers would be willing to help me make a collection of used postage stamps. If so, will they be kind enough to send them to the address given below? HARRY SCHOKU,
Corporal, B 12, Camp 1, Zeist, Holland.

FOR EMERGENCY PROHIBITION.

Chicago, April 14.—[Editor of The Tribune.]—Many opinions, personal and editorial, are appearing in the papers advocating increasing farm products of grain; also many suggestions that the government should immediately build buildings to manufacture sundry articles and most insistent of all that we should all save all the food we can; and many suggestions are being made that the president be authorized or instructed to take over various industries for public good.

If congress, the president, the press and people are sincere in these suggestions and really want to act, then let me suggest that congress instantly prohibit the brewers and distillers from destroying 640,000,000 bushels of grain each year by converting it into whisky and beer; that the government take over the immense breweries and distilleries, their machinery and employés, and utilize them to convert the 640,000,000 bushels of grain into wholesome, palatable foodstuffs, cereals, breakfast foods, etc.

In addition and supplementing increasing crops resulting from planting [illegible] back lots with potatoes and corn, will proper authorities prohibit the planting of millions of acres of our choicest and richest and best prepared corn land of the United States to tobacco, substituting corn as a food for our men, women and children in place of tobacco and whisky and beer? R. H. [illegible]

A PLEASING DIVERSION.

Chicago, April 14.—[Editor of The Tribune.]—I wish to express my appreciation of the beautiful work your Clifford Raymond has been doing and believe these are the sentiments of a large number of your readers. I hope every teacher and pupil of our city schools will avail themselves of these wonderful nature stories. They should be used in the daily work oral and written. The studies in astronomy are also very good.

TEACHERS START ECONOMY MOVE FOR EVERY HOME

Organize to Promote Saving Every Scrap as a War Measure.

The big Chicago drive on economy was started yesterday by the household science teachers of the board of education. At a meeting in the school board rooms, called by Supt. John D. Shoop, a plan was outlined which includes saving in various articles from garbage and soft soap to cloth top shoes and graduation dresses.

Every seat was occupied by school teachers or board members, and all the standing space was taken. Three committees are to be appointed as a result of the meeting, and they will contain both board members and teachers or principals. There will be a committee on production, a committee on conservation and distribution, and a committee on Red Cross.

Aid for Every Home.

The object will be to give information to every home in Chicago regarding economies aimed to help the country in its present crisis. There will be auxiliary committees in every school district. It is planned to print the ideas on economy in every foreign language spoken by residents of the city. Information will be distributed through the schools, the community centers, and the newspapers. Some plan will be worked out to utilize the household science equipment of the schools to the best interests of the country.

The girls of the Medill High school have volunteered for a service which brought smiles to the faces of the teachers. They want to cook for the high school boys who organize farm camps to raise vegetables and other farm produce. Supt. Shoop said he thought it possible that some sort of chaperonage might be instituted which would make the plan of the girls possible.

Seek to Prevent Waste.

Steps will be taken in the schools to prevent the waste of perishable foods. Girls will be taught the process of canning and drying vegetables and fruits so that no part of an abundant harvest shall be wasted.

"No scraps of cloth should be thrown away," said another. "All the available wool will go to making uniforms for soldiers."

"Garbage is worth $5 a ton," said Miss Fanny King," and from every ton $3 worth of fat is extracted. With a 10 cent can of lye and the fat from the garbage women could make soft soap."

"Girls haven't any business buying pretty shoes," said Miss Marinda Miller of the Harrison Technical High school. "With leather as high as it is going to be, just as few shoes as possible should be bought, as the soldiers will have to be supplied.

"I have told all my girls that they probably will be wearing the same clothes next year as they buy this year, so they ought to get simple and good looking clothes."

U. S. PHYSICIANS GETTING IN LINE TO AID IN WAR

Consultation in Washington Shows Mobilization Well Under Way.

[BY A STAFF CORRESPONDENT.]

Washington, D. C., April 17.—[Special.]—The council of national defense today listened to an outline of plans for the mobilization of the medical resources of the country, which in the immediate future will reach to every county and local community in the United States.

The council held a joint meeting with the executive committee of the general medical board, an aggregation of twenty-four eminent physicians and surgeons, all specialists.

Covers Entire Field.

The board was appointed by Dr. Franklin Martin of Chicago, who is a member of the advisory commission of the council and chairman of the board. Dr. Frank F. Simpson, vice chairman, is chief of the medical section of the national council.

Dr. Simpson outlined the progress made by the general medical board to date. It was a story of progress in the direction of mobilizing the medical resources of the nation in all directions, covering physicians, surgeons, nurses, dentists, veterinarians, sanitary engineers, hygiene specialists, and also medical supplies and instruments. The report went into present and potential resources, touching many vital questions.

Need Men and Material.

The pressing need of first importance was marked down as men and materials. The second was the necessity for ascertaining in detail the governmental and civilian resources; third, to correlate and coördinate these resources; fourth, to perfect strategic plans; fifth, to secure necessary legislation, and sixth, to readjust civilian activities to meet war conditions.

Fire in Furniture Store.

Fire starting from an unknown cause attacked the shipping room of the L. Fish Furniture company, 3036-3038 Lincoln avenue, last evening and did $5,000 damage. The police will ask the fire attorney to investigate.

ALL MUST MAKE PEACE TOGETHER, SHERMAN URGES

Washington, D. C., April 17.—[Special.]—Senator Sherman of Illinois voiced his "irrevocable opinion" in the senate today that the United States should countenance no separate peace between Germany and any of the allied nations arrayed against her.

The Illinois senator embodied his ideas in a formal resolution, as follows:

Senator Sherman's resolution follows:

"Resolved, That the secretary of state be and is hereby authorized and empowered, under direction of the president, to conclude a convention with the allied powers, binding them, and each of them, and the United States as well, not to make a separate peace with the German government, with which the United States is now at war, nor with any of the allies of the German government, unless such peace, when concluded, shall only be by the joint action of the United States and the governments with which it wages war against the German government and any other governments which may be joined with Germany as an ally, either now or hereafter."

"The time has come in congress to cease talking and for action," Senator Sherman added. "I want to vote to give the president money and men.

"I shall first vote for a short trial of the volunteer system, but for conscription if that fails. I am willing to vote for both at once, leaving it up to the president to resort to conscription."

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c. All druggists.

MODERN SOLDIER USING WEAPONS OF MIDDLE AGES

Grenades, Light Armor, and Mortars Revived by Trench Warfare.

Herewith is printed the second of a series of articles by Capt. Reilly which will be of unusual interest in view of the entrance of the United States into the world war.

BY CAPT. HENRY J. REILLY.

PARIS, April 3.—Armor for the individual soldier disappeared, as firearms gradually increased in power. This was because the weight of metal sufficiently thick to stop a projectile became so great that a man could not carry it, much less march and fight in it. In fact, the development of firearms had become a necessity, as the ordinary weapons frequently were useless against armor.

There was a battle in northern Italy in the fifteenth century in which thousands of armored men were engaged, but only one met his death. He fell off his horse and was smothered in the mud, his mail being so heavy that he was unable to get up.

As the power of firearms increased the point was reached where any attempt at protection was useless and even dangerous, because it meant dirty fragments carried into what otherwise was frequently a clean wound.

High Speed Bullets Hot.

The velocity of small arm projectiles was such that their surface became heated by the friction of the air, and this heat served to sterilize the bullet. The chief exception were the fragments and bullets from the shrapnel used by the field artillery. As the bursting charge in the shrapnel was generally of low power, it produced a low velocity in the bullets and fragments thrown out when it burst.

In fact, the shrapnel bullets on the outer edge of the cone of dispersion frequently had so little power that they would not penetrate a man's ordinary clothing. For this reason the knapsack on the back of the infantryman has always furnished him when lying down a certain amount of protection against shrapnel.

However, with this exception, the projectiles from modern firearms travel with such enormous velocity and on such a straight line that the only protection for them is a deep trench.

Value of Trenches.

The value of trenches was shown conclusively in the American civil war, and again at Plevna in the Russo-Turkish war in 1877. In the Russo-Japanese war the intrenched lines of the two armies extended for many miles. It is not the fact of armies intrenching which is worthy of note in this war, but the tremendous length of the lines.

Armies having taken to trenches to escape the projectiles of modern firearms which travel so straight at such a short distance above the ground that it is impossible to make them go down into the trenches, it became necessary to devise means by which a projectile would go up into the air so that on coming down it would drop into a trench. This led to a much greater development of short guns called howitzers, whose projectiles act in this manner.

Grenades Used by Japs.

In the siege of Port Arthur in the Russo-Japanese war the Japanese revived the use of hand grenades, finding them convenient to throw from a trench into an enemy trench, and also in the assaults on the various Russian forts which they took. They also revived the use of trench mortars, which are nothing but mechanical means of throwing a larger charge of explosive a greater distance than is possible to throw by hand.

Thus firearms made armor disappear, and the armor was replaced by intrenching, which made the great velocity and flat trajectory of modern firearms almost useless for siege or trench warfare. Therefore, weapons were designed whose projectiles could reach men in trenches.

As the distance between trenches is never great, and as the higher the projectile goes up in the air before coming down the more difficult it is to make it land where it is wanted, these weapons are primarily weapons of low velocity.

Fragments Make Bad Wounds.

The projectiles and fragments of projectiles, instead of traveling at such a speed that they go entirely through a man's body, and even occasionally make a hole through a bone without smashing it, only partially overcome the resistance of the body and thus remain in the man hit. Also, they have more of a smashing and tearing effect.

As since the late fall of 1914 until the beginning of the present German retirement all the fighting on the western front has been trench or siege warfare, a large percentage of the wounds has been from low velocity weapons. In fact, about 75 per cent of the wounded has been hit with shrapnel or pieces of shell traveling slowly and thus making the worst kind of wound.

TAX PATRIOTS

Assessments on Several Big Incomes in Advance Declined Because Not Yet Computed—Others Respond.

Half a dozen Chicago men of large incomes, whose names are not disclosed because of revenue department regulations, are said to have offered on Monday to pay immediately their income taxes, which do not become due until June 15.

But the payments could not be accepted by Internal Revenue Collector Julius F. Smietanka because the bills for the revenue assessments of these men had not yet been prepared and will not be ready before May 1.

Many other responses, however, are said to have met with acceptance at the collector's office.

WARNS OF BILL FOR BOOST IN ILLINOIS FARES

Springfield, Ill., April 17.—[Special.]—Passage by the Illinois legislature of the 2.4 cents per mile passenger rate bill would mean that the new rate will be effective immediately without allowing any investigation by the state public utilities commission.

This is the position to be taken officially tomorrow by the attorney general's office, which is prepared to protest vigorously against the enactment of this rate increase.

It is learned that the attorney general will insist to the legislature that the enactment of the bill wanted by the railroads will remove the backbone of the defense that is being made on behalf of the state of Illinois in the federal courts in resisting the order of the interstate commerce commission.

Tomorrow the Cook county civil service bills will hold the spotlight in the house, pending as special orders on second reading. Its passage on Thursday is predicted. The Buck state bill will be up for consideration tomorrow. There is to be an effort to send it to second reading without reference to committee.

SUFFRAGE HIT IN PENNSYLVANIA

Harrisburg, Pa., April 17.—The proposed suffrage amendment to the constitution of Pennsylvania was defeated in the lower branch of the legislature today, lacking three votes of the number necessary to pass it. Subsequently the bill was subjected to a parliamentary procedure which effectively killed it as far as the present session of the legislature is concerned.

Boston, Mass., April 17.—Women will not be permitted to vote on recommendations submitted to the electorate of the state by the coming constitutional convention. The Supreme court, in an opinion, declared that that body had no authority to define the word "people" in the act providing for the convention as meaning both men and women.

Providence, R. I., April 17.—The act extending presidential suffrage to the women of Rhode Island passed the house tonight by a vote of 71 to 20. Gov. Beeckman will sign the act.

WILSON CRACKS WHIP AS DRAFT BILL IS BALKED

Hangs Dire Threat Over Obstructionists in House Body.

(Continued from first page.)

house committee early in the day he frankly and emphatically asserted that the administration and war department would agree to no compromise.

He said that the government did not want a measure which would force it to rely even in part on a volunteer system. He also made it plain that it would greatly handicap the government in the war emergency to postpone conscription.

At the morning session all the compromises that have been submitted in committee were put up to Secretary Baker and he flatly refused to accept them. He asserted the department and administration would accept minor perfecting amendments, but that no vital change would be entertained.

WILSON IS DETERMINED.

When Secretary Baker reported the situation to the president and cabinet in the afternoon, Mr. Wilson waxed resolute. He declared, and was supported by his cabinet advisers in the position, that the selective conscription measure must be passed.

The cabinet is understood to have backed this determination solidly, and the intimation was given following the meeting that should the house committee delay action much longer, the members who have been blocking conscription in this crisis would be called openly to account by the president in a public statement.

May Discharge Committee.

Reports were current that the administration would direct champions of the conscription bill to move that the military committee be discharged from consideration of the army bill if they did not make a report tomorrow. This could not be verified, but it is known that the president contemplates abandoning reliance on the committee unless it acts.

While the house committee was continuing its obstructive tactics the senate military affairs committee was rushing consideration of the bill which Senator Chamberlain introduced formally early in the day.

As submitted and referred to committee the bill is the same as the house committee has had under consideration, with a few changes. It provides for an army of 1,000,000 men, to be obtained by selective draft. It probably will be reported to the senate tomorrow and the senate may pass the bill before it reaches the house.

The bill before the senate committee which has the administration indorsement provides first that the regular army and the national guard shall be raised to their maximum strengths by voluntary enlistment until it is found a sufficient number of volunteers is lacking. Then the selective draft is to be used. For the emergency force in the new army of 1,000,000 men the selective draft is to be employed exclusively.

Here Are the Exemptions.

Among the exemptions from conscriptive service are the following:

The vice president of the United States; officers legislative, executive, and judicial of the United States and the several states and territories; persons in the military and naval service; members of any well organized religious sect or organization, at present organized and existing, whose creed forbids its members to participate in war in any form and whose religious convictions are against war or participation therein; custom house clerks; persons employed by the United States in transmission of the mails; artificers and workmen employed in the armories, arsenals, and navy yards of the United States; pilots; mariners actually employed in sea service of any citizen or merchant within the United States; persons engaged in industries, including agriculture, found to be necessary to the maintenance of the military establishment; those in a status with respect to persons dependent upon them for support, which renders their exclusion or discharge advisable, and those physically and morally deficient.

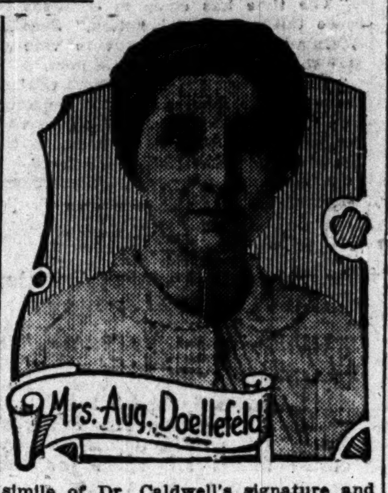
Universal military training and selective conscription was approved as the best means of national defense today by a unanimous vote of the national advisory committee of the Sons of the American Revolution in session here. Every citizen was urged to prepare to do his "bit."

LIFTS BAN ON RISK SOCIETY

Boston, Mass., April 17.—The Supreme council of the Royal Arcanum, which was placed in the hands of a temporary receiver Saturday, was authorized by Federal Judge Aldrich today to continue business as a fraternal insurance organization pending final decision on the question of making the receivership permanent.

The active duties of Thomas J. Boynton, temporary receiver, was suspended.

Judge Aldrich announced he would appoint a master to hear evidence and report findings of fact and law.



Keeps Her Children In Perfect Health

Dr. Caldwell's Syrup Pepsin the Family Laxative for Many Years.

Mrs. Aug. Doellefeld of Carlyle, Ill., recently wrote to Dr. Caldwell, at Monticello, Ill., that she has used Dr. Caldwell's Syrup Pepsin in her home for a number of years, and would not be without it, as with it she has been able to keep her four children in perfect health.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts on the bowels in an easy, natural way, and regulates the action of this most important function. Nearly all the sickness to which children are subject is traceable to bowel inaction, and a mild, dependable laxative, such as Dr. Caldwell's Syrup Pepsin, should have a place in every family medicine chest. It is pleasant to the taste and children like it, and take it readily, while it is equally effective for adults.

Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere for fifty cents a bottle. To avoid imitations and ineffective substitutes be sure you get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois, for whom this advertisement is published.

Executive ability in smoking

The highest type of executive is the man with the ability to *think twice* before he *acts once*. Such a man absorbs advice — but reserves the right to act according to his own judgment.

This type of man, in smoking, will probably be careful to select a mild cigar designed, like Tom Moore, for *pleasant* smoking.

He will certainly find pleasure in the mild fragrance of this light-hearted Havana.

LANS BOOSTING CITY'S REVENUE BY $1,000,000

ay License Nearly Every Industry and Raise Present Fees.

Facing the prospect of millions of dollars of war taxation, city authorities yesterday launched a program for raising from $500,000 to $1,000,000 annual additional revenue for municipal purposes.

The proposed revenue program is set forth in an exhaustive report prepared by a subcommittee of the finance committee, with the assistance of the efficiency staff. The proposals involve licensing practically every industry in the city and increasing the fees for most of the licenses now issued. From peanut stands to barber poles, nearly everything is included in the contemplated licensing program.

Some Suggestions.

Following is a partial list of industries and occupations which may be licensed if the suggestions of the report are carried out:

Accountants,
Agents,
Auto dealers,
Architects,
Chiropodists,
[illegible]
[illegible]
Dancing academies,
Dentists,
Dry goods and furniture dealers,
[illegible]
[illegible] and hairdressers,
[illegible]

Oculists and opticians,
Hat stores and millinery shops,
Patent medicine manufacturers,
Physicians,
Piano stores,
Painters and decorators,
Plumbing shops,
Publishing shops,
Shoe shining parlors,
Photographers,
Tailor shops.

The subcommittee found that other cities are charging anywhere from $2 to $100 for such licenses.

Summary of Increases.

A summary of some of the chief recommendations for increasing license fees is as follows:

Amusements: License theaters according to seating capacity; increase dance hall license fees.

Bowling alleys and billiard rooms: By raising the fee from $5 to $10 for each table and alley the annual revenue would be increased over $25,000.

Brokers: Increase annual fee to $50, thus raising $130,000 additional revenue.

Deadly weapons: Increase fee for dealers from $25 to $100.

Dog licenses: Raise fee to $3 and $5, making $60,000 increased revenue.

Wholesale junk dealers: According to the report these dealers do $6,000,000 worth of business annually and should be licensed.

Breweries and distilleries: Increase annual revenue fee from $500 to $1,000.

Taxicabs: Raise public stand fee from $5 to $10.

Undertakers: Double the license fee, which is now $10.

WANT WOMAN AS HOYNE AID

A request will be made today to State's Attorney Hoyne to appoint a woman as assistant in the Court of Domestic Relations to prosecute cases involving illegitimate children.

The Women's Protective league, headed by Miss Nellie Carlin, public guardian, decided on the request at a meeting in the chambers of Judge Stelk yesterday.

"A woman will be better able to protect the fatherless child," Judge Stelk said.

Two Lawyers Among Five Indicted in Bond Scandals

Five persons, two of them lawyers, are named in indictments returned by the county grand jury yesterday in connection with a bond scandal. Attorneys James Burke and Edward A. Jones are charged with conspiracy and forgery, as is Thomas F. O'Connor; and William Broadley and Howard S. Thompson are charged with conspiracy. The defendants are said to be involved in the forgery of the names of Municipal Judge Edmund Jarecki and John Courtney to bonds for the release of Broadley and Thompson.

Board of Trade Men Named in $.00,000 Suit

Suit for $300,000 damages was begun in the Circuit court yesterday by Hal Smith, an attorney, and J. R. Patterson, a business man, both of Detroit, against eleven complainants, among whom are Mason C. Wells and Robert W. Shimmin, Chicago board of trade men. The action results from the transfer of $100,000 stock in the Sterling Portland Cement company.

O'Donnell Loses Case Against Maclay Hoyne

The Supreme court yesterday dismissed the contempt proceedings brought by Attorney Patrick H. O'Donnell against State's Attorney Hoyne. The court held the prosecutor's answer sufficient. O'Donnell recently was acquitted of a charge of conspiracy, but he still faces indictments charging subornation of perjury.

Court Orders License Be Issued to Saloon Man

Judge John J. Sullivan yesterday sustained Edward Odell's petition for a writ of mandamus against Mayor Thompson and ordered that a license be issued to Odell to conduct a saloon at 1364 West Madison street.

"Undergarments so exquisite-and economical too!"

"THOSE are the loveliest undergarments I have ever seen," said the young woman to the salesgirl. "They are *so* exquisite—so luxurious looking. Yet, even tho' you say Italian Silk wears so well, I can't help feeling that—"

"That is because you have never worn the real Italian Silk," the salesgirl answered. "Won't you wait for a few minutes and hear what my next two or three customers say about the economy of Kayser Italian Silk Underwear?

Everyone exclaims at the fit of Kayser garments. It is the full sizes, the special shaping and the hand tailoring that makes them feel as tho' cut to your own measure.

"This woman coming is a fashion editor for a well-known magazine. She is a business woman and has worn Kayser garments for many years."

"The best value—they launder so well"

"I want to see the tailored Kayser Italian Silk knickers and vests, the kind I always order," said the business woman.

.........."Really, I have found Kayser Italian Silk Underwear very much more economical than cotton lingerie," she replied to the salesgirl's question. "It launders so much better than other kinds."

"They wear so much better than other kinds"

A fashionable middle-aged woman approached.

"Will you please show me simple styles in Kayser Italian Silk for my two daughters? I want to get each a complete outfit for Miss ——'s School Commencement.

"The principal of the school tells me it is the most practical underwear for a young girl—it wears so well. She recommends Kayser Italian Silk to all of the girls in her school."

"I couldn't act in anything else—they fit so comfortably"

"You know this actress coming," whispered the salesgirl. "She always wears Kayser Italian Silk."

I hear you have such lovely Spring styles in Kayser Italian Silk," said the actress in her charming voice. "Let me see them all. I believe I take more pleasure in choosing my undergarments than my gowns. I have never found any other undergarments that fit as well as Kayser Italian Silk. All my friends are wearing them."

"And I'm going to wear them, too," exclaimed the young woman. "I don't need to listen to any more." And she arose and bought them.

There are good reasons for her buying them—reasons every other woman will appreciate. Kayser Italian Silk Underwear is made of the highest grade pure silk that can be obtained. There is no adulteration. That is the reason why Italian Silk washes so well and is so durable. Pure silk is the most enduring of all fibres. Kayser Italian Silk fabric is as perfect as human hands can make it.

Why Kayser Italian Silk garments fit so well

In Kayser Italian Silk Underwear all sizes are full sizes. There is no skimping in the width. All Kayser Italian Silk garments are shaped to fit the figure. By allowing ample width on the hips, the garments are prevented from "riding up," from wrinkling or stretching at the seams. Each garment is cut and tailored individually, *by hand*. All reinforcements are extra large and afford ample protection against extra wear.

Kayser Italian Silk Underwear launders easily and with perfect results if you follow the washing directions below. Kayser Italian Silk will retain its beauty and luster and last for years if washed correctly.

How to wash Kayser Italian Silk Underwear
(Cut this out)
Make soapsuds of lukewarm water, using Lux or Ivory Soap. Do not rub the garments, but gently squeeze. Rinse in clear cold water three times; then pull the garments lengthwise and press with a warm iron while the garment is damp. Never use a hot iron.

A new improvement

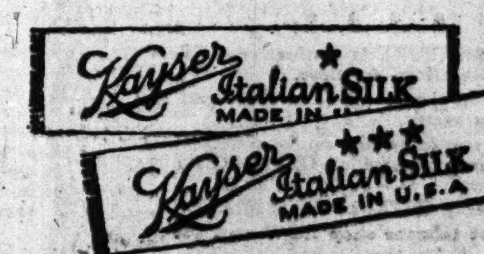
But Kayser has gone still further. They have standardized the weights of silk underwear. These weights are indicated on the Kayser label. You can be assured of getting the same style garment whether you shop in Chicago or Los Angeles. The light weight garment is marked with one star (*) on the Kayser label. The heavy weight is indicated by three stars (***) on the Kayser label. (A five-star (*****) weight—a special weight can be procured for those who like extra-heavy undergarments.)

The school girls say Kayser Italian Silk has a finish, a distinction that other underwear lacks. Their mothers know how durable it is. Kayser Italian Silk is made of the finest silk obtainable. That is why it is so silky, so lustrous—why it wears for years.

Insist on this label

Insist on seeing this Kayser label every time you purchase silk underwear. Think what it means to you:—full sizes; careful shaping; each garment individually cut and tailored; and a fabric as near perfection as human hands can make it. No garment is the genuine Italian Silk unless it has this label on it. Protect yourself!

Have you seen the charming new models in envelope chemises, vests, union suits, camisoles, pantalettes and the knickers that the tighter skirts are making so popular this Spring? See the Spring models today.



Kayser * Italian Silk MADE IN U
Kayser *** Italian Silk MADE IN U.S.A

This is the label that you must insist on. The genuine Italian Silk Underwear has the name "Kayser" on every garment.

WILMETTE TURNS DOWN 20 YEAR CAR FRANCHISE

Residents Beat Interurban Project by Vote of 1,424 to 1,112.

The voters of Wilmette decided at the village election yesterday that the twenty year franchise approved at the village board meeting April 4 in favor of the Chicago, North Shore and Milwaukee Electric railway should not go into effect. The proposition was defeated by a vote of 1,424 to 1,112.

The anti-railroad forces claimed at night that their opponents had spent at least $2,000 during the day in trying to get their people to the polls. Some fifty workers with automobiles were sent into the village.

Carl Latham, attorney for the railroad, carried his own precinct, however, for the franchise by a majority of 29 votes.

Although heated controversies took place continuously, no bloodshed resulted.

William Busse, county commissioner, was yesterday elected the first village president of Mount Prospect, which was incorporated in February.

Palatine reëlected its old officials yesterday after a stiff fight. C. D. Taylor won for mayor over C. E. Julian by a vote of 335 to 208. C. Hildebrand, H. Bruhns, and W. Meyer were reëlected aldermen.

Reform Wins in Blue Island.

The "good government" slate made a clean sweep of all offices in Blue Island with one exception. The reform elements succeeded in overthrowing the entire present city administration, which they charged with extravagance, favoritism to corporations, and failure to suppress vice and gambling.

Edward N. Stein, candidate for mayor on the good government ticket, won out over Jerry Jones, the present mayor, by a plurality of 433. The vote was: Stein, 1,867; Jones, 1,434. The other officials elected were: George J. Roll, treasurer; George J. Landgraf, clerk; Paul T. Klenk, city attorney; Peter W. Heintz, police magistrate, and the following aldermen: Henry J. Schnurstein, First ward; John Mangold, Second ward; William M. Hartzel, Third ward; Charles J. Schrage, Fourth ward, and Charles Adams, Fifth ward. Mangold was the only man elected who was not indorsed by the good government party.

Elmhurst Remains Wet.

Elmhurst, which for the last year was the only wet town in Du Page county, decided yesterday to remain wet another year. The drys were defeated in a close election by a majority of only 57 votes. The vote was:

	Men.	Women.	Total.
For saloons	557	348	905
Against	367	481	848

S. W. Hammersmith was reëlected mayor; A. F. Bates, city attorney; Charles Hess, city treasurer, and Francis Newmann, city clerk.

Du Page county now has another wet town, West Chicago favoring saloons by 44 votes.

Lombard, also in Du Page county, decided in yesterday's election to have sewers. That was the only issue and on it Sidney R. Smith, pledged to a sewage system, won handily over Edward Bradley with a vote of 450 to 142.

Section Foreman Beats Banker.

There was a surprise in Itasca, Du Page county, in yesterday's election when August Fredricks, a section foreman, defeated H. H. Franzen, banker, for president of the village board by a vote of 84 to 74.

John Meyers was reëlected mayor of Highwood yesterday over his opponent, William Hogan. The only issue was the itinerant beer wagon. Highwood is dry, but the beer wagon trade is large and flourishing. Hogan wanted stricter regulations that would make it impossible for the beer wagons to do business.

West Hammond had a quiet election day, returning to power Mayor Paul M. Kamradt and his cabinet.

A proposition to place Elmwood Park in the dry column was lost by a vote of 210 to 94.

Mayor Harley of Aurora was reëlected and his entire ticket floated through on a comfortable majority.

Other Village Results.

BEAUTY SPOT

Art Institute Girls Adopt Miniature Flags in Place of Black Patches.

Here is the very latest fad, which has been adopted by girls from the Art institute.

Instead of wearing black spots on their faces they have decided that no more beautiful "beauty spot" could be worn than Old Glory.

The original trio to adorn themselves, and who hope that Chicago women will fall in line, are Miss Lucille Singer, Miss Dorothy Sutton, and Miss Havrena Protheroe.

BURNHAM CASTS 70 MORE VOTES THAN REGISTERED

Jury to Investigate the Election of Mayor John Patton.

An investigation by the Cook county grand jury of yesterday's election in Burnham, in which John Patton, the "boy mayor," was reëlected, was promised last night.

Patton, on the face of the returns, received 179 votes to 34 for Merle Wilson, the reform candidate. Wilson, after the returns were announced, stated that there were only 143 registered and legal voters in the village and that seventy fraudulent ballots had been cast by men imported by the roadhouse contingent. He will lay his information before State's Attorney Hoyne at once.

But one clash occurred at the polls during the day, and that came when four watchers sent to the village by County Judge Scully were ordered out of the polling place by Judge Marshall. They called up Judge Scully, and he ordered them to return and do their duty. They did, and were not molested the rest of the day. Judge Marshall, the reform forces claim, is not a legal voter of the village and should not have served on the board.

Investigators from the state's attorney's office and deputy sheriffs from Sheriff Traeger's office also were on hand, but found little to do.

"The wets and the floaters have placed Mayor Patton in power again, but he will not sit for long," said Mr. Wilson. "The election was quiet but unfair. With only 143 men entitled to vote and 213 ballots cast, there is something radically wrong. Fully 90 per cent of the people of Burnham are with me and I am going to fight this to a finish."

Mayor Patton said he had nothing to fear. "The election was orderly and everything was aboveboard," he said.

The three candidates for trustees running on the Patton ticket were elected by the same vote given Patton. They are Joseph Gapszewicz, Fred Rechler, and E. J. Doe. The defeated candidates were Ralph Smith, Fred Ackerland, and Robert J. Frank.

The Voliva forces, backing the Theocratic ticket, had a walkaway in Zion City, electing their entire ticket with a plurality of 685. The new officers are:

Mayor—W. H. Clendinen.
City attorney—Theodore Farley.
City clerk—John B. Thomas.
City treasurer—A. H. Biddle.

Elmer J. Witty, recently appointed an assistant United States district attorney, assumed his duties yesterday. District Attorney Charles F. Clyne assigned him to handle bond and revenue matters.

Just A Touch Of Ice-Mint. PRESTO'

Corns Wither and Lift Out With Fingers. No Pain.

Corn sufferers gather round; get right up close and listen, here's good news for you.

The real genuine "Corn Killer" is here at last. No humbug. Ice-Mint the new discovery made from a Japanese product is said to surely and quickly end all foot misery. Think of it; only a touch or two of that cooling, soothing Ice-Mint and real foot joy is yours. No pain, not a bit of soreness, either when applying it or afterwards and it doesn't even irritate the surrounding skin.

It just makes a pair of tired, swollen, aching, burning feet glow with cooling comfort.

Hard corns, soft corns or corns between the toes, also toughened callouses just shrivel right up and lift off so easy. It's wonderful.

Every foot sufferer can appreciate a treatment like this, especially women who wear high heel shoes and men who are obliged to stand on their feet all day.

Try it. Just ask in any drug store for a few cents worth of Ice-Mint and learn for yourself what solid foot comfort really is. There is nothing like it.

Carbon tears down the efficiency of all ordinary types of motors faster than the wear and tear of use.

But carbon builds up the efficiency of the Willys-Knight Motor faster than wear and tear uses it up.

And so the Willys-Knight motor improves with use

Think of the joy of owning and driving a motor that is automatically *re*vitalized by the very deadly element that *de*vitalizes every other kind of motor.

It means more constant use without repair or adjustment, constant instead of intermittent efficiency and much longer life.

Nujol For Constipation

THE LAXATIVE BOOMERANG

The "come-back" of the continued use of drug laxatives is frequently worse than the original ailment.

All laxatives are irritants, which will affect not only the intestines but the stomach. They whip and spur the bowels into action and are inevitably followed by a reaction which helps to make constipation chronic.

The use of Nujol, an intestinal lubricant, is the sensible and effective means of promoting normal bowel movements.

Nujol, unlike drugs or physics, is not absorbed by the system, but acts simply as a mechanical lubricant, preventing the intestinal contents from becoming hard and so facilitating normal movements.

As Nujol is not a physic but a lubricant, it does not gripe or upset the system. Being tasteless, it is not unpleasant to take.

The Standard Oil Company (New Jersey) has used its world-wide resources in producing Nujol and its reputation is behind the product.

Nujol is the only remedy for constipation we manufacture. The genuine sold only in pint bottles bearing Nujol trade-mark. All bottles filled at our Nujol plant, absolutely modern and sanitary.

Great Play Checks Rally in the Ninth After Collins' Swat Scores Two.

BY I. E. SANBORN.

Detroit, Mich., April 17.—[Special.]—Just ahead of a rainstorm that threatened to curtail the scrap the White Sox twisted a third consecutive knot in the tail of Detroit's Tigers and the score this time was 4 to 2.

Howard Ehmke, a northpaw, gave the Rowlands a lot of trouble for seven innings during which they were able to count only once and that was on a home run by Joe Jackson after two were gone in the sixth. In the same seven innings the Tigers, profiting by Dave Danforth's wildness, scored two runs, one of them on a wild pitch which punctured the mattress in front of the grand stand and let a runner in from second base.

Triples Win for Sox.

In the eighth and ninth, the Sox got to Ehmke for three runs in which three baggers by Leibold and Collins figured prominently. In the making of those tallies Danforth gave way to Murphy who failed to pinch hit anything, so Russell finished the slab job successfully in spite of being hit safely three times in two rounds.

With Sam Crawford pinch swatting for Ehmke in the ninth, the Tigers started what might have been a serious attack, but for the feature play of the game. It also illustrates the difference between the Sox of 1916 and the Sox of 1917, for they yanked Tex out of a hole by inside baseball.

One was out when Crawford went up for Ehmke and smote a two bagger to right, after fouling off a lot of good strikes. With the Rowlands two runs ahead Crawford's runs wasn't worth anything even if he scored. The White Sox figured Jennings would figure that way and send Sam home if Bush made a hit. Well, Bush delivered the hit all right and it went over second base to Felsch. Hap fired it home on a line straight through the pitcher's position.

Crawford Nailed at Plate.

Russell backed up half way to the plate with Collins beside him, watching to see what Bush would do on the peg. If Bush had tried for second Russell was all set to intercept the throw and nail him, but Bush was wise and stuck to first, so Collins yelled at Russell to let the ball go through and it nipped Crawford at the plate by an eyelash. That took all the dash out of the Tiger rally and an easy out ended it.

Perfect support was required by Danforth, who was hit pretty hard, but he was given just that. Several hard drives were nailed by the outfielders, and in the sixth Leibold and Felsch robbed Heilman and Burns by swell running catches. Dyer scored the first tally on his own double and a wild pitch, which went through the mattress and could not be extracted in time to stop him.

Jackson Wallops Homer.

Jackson evened that up with his home run wallop to center. A pass to Bush and Young's double to left scored Detroit's second run.

Murphy batted for Danforth in the eighth and went out, then Leibold soaked a triple to center. Risberg was hit by a curve and Collins mauled a triple over center, scoring two runs. Weaver walked with one down in the ninth, went to second on a wild pitch, and scored on a timely single by Schalk.

SOX SYDELIGHTS.

Detroit, Mich., April 18.—[Special.]—One more game here tomorrow, then home for a spell.

Risberg was hit on his throwing arm, but pluckily finished the game.

Gandil was the only man who got two hits off Ehmke, and both of them were wasted in the early innings.

Only a little over 3,000 fans came out on account of the threatening weather, which made it look doubtful in the morning.

The Tigers outbatted the Sox, but the Rowland hits were longer and more timely. Besides their base running was superior, for they did not waste an opportunity on the runway, where they were weakest last year.

It is peculiar reasoning that prompts a manager to take out a batsman who has an average of 1,000 for the game, but that was what happened to Danforth. He singled in the third and walked in the fifth, but Murphy was sent to bat for him in the eighth. It is doubtful if Danforth could have finished on the slab the way they were hitting him.

Detroit Signs Fuerborn, Purple Baseball Star

St. Louis, Mo., April 17.—[Special.]—Charles Barrett, Detroit scout, slipped one over on Branch Rickey and Bobby [illegible] of the Cardinals today, when he signed big Bill Fuerborn, a famous St. Louis "prep" school baseball star for the Detroit Tigers. Barrett coaxed Fuerborn away from Northwestern university, where he has been playing first base this spring.

PHILS PROTEST WIN BY BRAVES IN 12TH

Boston, Mass., April 17.—The Philadelphia Nationals protested Boston's 6 to 5 twelve inning victory today, Manager Moran announced tonight. A decision by Umpire Bransfield, who declared Pitcher Lavender out for running off the line between second and third bases in the third inning, when Philadelphia scored five runs, was the basis of the complaint.

Lavender had started to cross the diamond from second, apparently believing he had been called out on a play at that base, but turned and reached third base before the ball was thrown to that position. Manager Moran said his protest was based on the ground that a runner cannot legally be retired for leaving the base line unless intending to avoid being tagged.

The Braves won in the twelfth, when Mayer passed Chappell, a pinch hitter, with the bases full, forcing Smith to register. Score:

CUB PILOT MAY SOLVE FIRST BASE PROBLEM BY SHIFTING DOYLE

BY JAMES CRUSINBERRY.

It is possible that Larry Doyle will become first baseman of the Cubs. That was one of the ideas that popped into the brain of Manager Mitchell of the north siders yesterday afternoon while he was pondering over Cub problems during the rain which prevented the third game of the series against St. Louis.

The first base problem, following the accident to Vic Saier when he broke a leg Sunday afternoon, is the one most serious to Manager Mitchell at the present time. On Monday he sent young Dutch Ruether to the position, and the boy filled the place quite acceptably, but just the same he is a youngster having his first experience in the big leagues and Mitchell isn't sure yet that he will handle the job. Besides the Cub pilot hates to take Ruether from the pitching staff after the splendid showing the boy made in his game against Pittsburgh.

Considers Larry Doyle.

Consequently Mitchell is doing a lot of thinking over the first base job, and while he was in the midst of his deliberations yesterday he thought of Larry Doyle. He figured that possibly Doyle, because of his broken leg of last fall, might be a bit off his usual form as a second sacker, and that it might be easier to pick up a second baseman than a first baseman—so why not pick up a second baseman and let Doyle play first? Larry never was a regular first baseman in his life, but there isn't much doubt but that he could handle the job quite acceptably if necessary.

Mitchell also figured on the scheme of putting Rollie Zeider on first and restoring Charley Deal to the third base job, but after all his figuring he decided to keep young Ruether on the initial stack for the time being. There is a chance that a regular first baseman will be picked up from some other club.

Jack Ness a Prospect.

One whom Mitchell has in mind is Jack Ness, formerly of the White Sox but who now belongs to Joe Tinker's Columbus club. Mitchell never saw Ness play and Ness has asserted he will not join the Columbus club, preferring to stay in Chicago and hold a job with a big corporation and play ball on Saturdays and Sundays.

SOTHORON HOLDS INDIANS TO A HIT

St. Louis, Mo., April 17.—Allan Sothoron, a recruit from the Portland, Ore., club, held Cleveland to one hit and St. Louis scored a shutout, 4 to 0. Only twenty-nine men faced Sothoron and only two reached second, Chapman in the first when Sothoron gave two passes, and Allison in the ninth when after reaching first on Lavan's error, he stole second. St. Louis' first run in the second was the local's first score in twenty-two consecutive innings. Score:

COLUMBUS FANS HURT AS BLEACHERS FALL; COLONELS WIN, 5 TO 4

BY HARVEY T. WOODRUFF.

Columbus, O., April 17.—[Special.]—The collapse of a section of the left field bleachers, injuring forty-three persons, sixteen of them seriously, cast an early shadow over the Tinker day opening of the American association season. Of this number one is not expected to live, according to reports received from hospitals tonight.

The accident occurred just as the Chicago "boosters" for Tinker, who arrived this morning on a special train, were giving the home team a rousing cheer during its final batting practice. Gov. Cox, Mayor Karb, and Thomas E. Wilson of Chicago, who backed Tinker in the purchase of the club, directed the work of rescue.

Wilson Comes from Conference.

Mr. Wilson arrived this morning from Washington, where he had attended a conference in company with other Chicago packers and the secretary of agriculture on food conservation and supplies for the army and navy.

Business Manager Charley Thomas, one time Cub president, chaperoned the Chicagoans to the breakfast tendered by the chamber of commerce. A motor ride over the city and luncheon and a banquet at the Elks' club completed the program.

The Chicago special train was filled with members of the Chicago Athletic association, South Shore Country club, and personal friends of President-Manager-Third Baseman Joe Tinker and "Tom" Wilson, including President Weeghman of the Cubs. The party presented Tinker with a chest of silver and Mordecai Brown with some posies.

Senators Lose in Twelfth.

The result of the game, a heart breaking defeat for Columbus in a 5 to 4 twelve inning finish after the regulation period ended 2 to 2, failed to lend climax to an otherwise big day. Score:

Louisville 1 0 0 1 0 0 0 0 0 0 0 3—5 11 1

CAPRON ANNEXES TIGHT CUE MATCH

August Kieckhefer's last chance for the championship of the Interstate Three Cushion Billiard league was snuffed last night when Joe Capron defeated the Rockford star, 50 to 46, in sixty-one innings, at Bensinger's room. Kieckhefer's high run was 6, Capron's best being 4. Capron played in great form, scoring 41 points in forty innings:

In the balkline tournament at Foley's Samuelson [105] defeated Barnes [130], 105 to 60.

Ward defeated Lundgren, 50 to 39, in 94 innings in their Chicago league match at Leffingwell's. Ward had high run of 4, Lundgren getting a 3.

THREE CUSHION LEAGUE.

Pittsburgh, Pa., April 17.—[Special.]—Otto Reiselt of this city played his last match in the Interstate Three Cushion league tonight and defeated Hugh Heal of Toledo, 50 to 42, in sixty-four innings.

Anti-Fight Bill Fails to Pass New York Assembly

Albany, N. Y., April 17.—Notwithstanding that the Davis bill, designed to repeal the law legalizing boxing in New York state, failed of passage in the assembly today by two votes, supporters of the measure tonight expressed confidence it would be passed when next called up. Seventy-six votes are required for passage of a bill. When the vote on the Davis measure was taken, only that many votes had been cast for it. Two of those voting for the bill changed their vote leaving only seventy-four in favor of the measure.

Yacht Owners Abandon Racing During War Time

The Chicago Yacht Owners' association last night voted to abandon all yacht racing during the continuance of the war. In this the association is following the example of most eastern yacht clubs. Further the yachtsmen voted at the urging of Godfrey Atkin, as chairman, to concentrate their efforts on assisting the navy to man its auxiliaries and to carry on the coast patrol work.

The other beneficiary is Mrs. Agnes McCormick, the wife of Policeman William McCormick, 627 North Trumbull avenue.

Exhaust Echoes

by Sheppard Butler

GLIMPSES of government built motor roads more than a mile above sea level, skirting precipices and mountain lakes and leading the motorist through the most rugged scenery in the northwestern United States, were given the Chicago Advertising club at luncheon yesterday by Asahel Curtis, a naturalist and mountain climber, who has been photographing the things to be seen along the National Parks highway.

The long trail, said Mr. Curtis, will be "good going" for automobile travel this summer, that part of it which lies through Wisconsin presenting about the only difficulties on the route in the way of bad roads. In addition to the many cities along the way, with their hotel accommodations, the motorist will find scores of carefully selected camp sites at frequent intervals, where he may get back to nature as far as he likes.

Starting from Chicago, its eastern terminus, the highway strikes northward through Wisconsin and then swings to the west, crossing Minnesota, North Dakota, Montana, Idaho, and Washington. At Spokane the National Parks Highway association, of which William G. Edens of Chicago is president, will hold its third annual meeting next week.

A joint committee of the United States bureau of standards and bureau of mines is considering the problem of standardizing the gasoline sold throughout the United States. If the experts have their way motor fuel in the future will be labeled somewhat after the manner required for things to eat under the pure food law.

"We have decided," said a member of the committee who is in Chicago, "to recommend a provision that the distillation curve or something representing it be a part of the label under which gasoline is sold, and perhaps also the temperatures at which 20 per cent and 90 per cent of the fuel will evaporate. The latter would determine the intake temperature for manifolds at which vaporization can be obtained."

This, of course, is a technical way of saying that Uncle Sam is going to help teach the motorist how to use the low grade "gas" of the moment.

No more of those patrician Fageols [$9,500 for chassis alone] are to be built until the war department's immediate needs in the way of aeroplane motors are met. The makers of the Hall-Scott aviation engine, which is used in the Fageol, have been asked to furnish the government as many engines as possible for the next six months, and the Fageol builders have agreed to abandon their allotment and to accept no further car orders for the present.

Ann Arbor, Mich., April 17.—Fielding H. Yost, coach of the University of Michigan football, arrived today to take charge of the spring practice. He announced practice would be held despite the possibility that war may interfere with the football schedule. Director of Athletics Philip Bartelme today denied that football dates for next fall had been canceled.

Providence, R. I., April 17.—The faculty of Brown university authorized the athletic board of the college to carry out the schedules of the university's athletic teams as arranged, with the understanding that it reserved the right to cancel any or all schedules should it deem such action necessary.

FOUR MAROON STARS WILL QUIT MIDWAY FOR U. S. MARINES

BY GEORGE SHAFFER.

Four varsity athletes of more than passing renown quit the University of Chicago to help swell Chicago's complement in the United States marine corps yesterday. The men are Philbrick [Red] Jackson, last season's football captain; Al Lindauer, conference tennis champion and holder of numerous tournament honors; Hall Jeschke, conference and Missouri valley 135 pound wrestling title holder, and McBriar Sellers, substitute football end.

All are seniors and, except Lindauer, had finished their varsity competition. Jackson lives in Evanston; the other three are Chicago boys. The men probably will be aided by university officials in receiving their diplomas, which they should get in June.

Jackson Passes Tests.

Jackson, for all his huskiness and gridiron prowess, had a hard time convincing Uncle Sam's representatives that he would fill the physical requirements for a "sea soldier." He took his second examination in two days and passed yesterday, after having his eyes and heart questioned the first time the doctors went over him.

Seven hundred youths at the Midway are drilling daily with the student officer's training corps, and President Judson shouldered a rifle with other squads for a time yesterday.

Maroons Play Today.

In spite of the military atmosphere, athletics are proceeding much as in former years, following Coach Stagg's statement that sports furnished the best agency for whipping the students into shape for a military contingency. The Maroon nine will meet the United States Ball Bearing company team in their second engagement this afternoon, the first game having been won by the Ball Bearings after a slugging match.

SETS WORLD'S TANK RECORD

The Hamilton club's squad of young swimmers defeated the conference college champion Northwestern team, 40 to 23, with Lester White creating a new world's record, last night in the club tank. Hamilton took six of eight firsts.

White, who is the 19 year old son of the University of Chicago aquatic coach, set a mark of 2:36 3-5 in the 200 yard breast swim. This beat the 2:38 2-5 record held by Mike McDermott of the Illinois A. C. for years. The mark was attested by Charley Dean of the Central A. A. U. championship committee; Tom Robinson, coach of the Purple, and a corps of timers, and undoubtedly will rank as the best breast stroke time ever written in the books.

In the 150 yard back stroke A. A. (Gus) Seeger, who is still in his teens, set a new tank record of 1:58.

40 yard free style—Won by West, Northwestern; Norton, H. C., second; Goodyear, H. C., third. Time, :19 4-5.

100 yard free style—Won by Browne, H. C.; West, Northwestern, second. Time, :56. [Two entries.]

220 yard free style—Won by Wallen, H. C.; Leach, H. C., second; Gerding, Northwestern, third. Time, 2:35.

Fancy diving—Won by MacDonald, Northwestern; Carveth, H. C., second. [Two entries.]

150 yard back stroke—Won by Seeger, H. C.; Gerding, Northwestern, second. Time, 1:55. [New tank record.]

200 yard breast swim—Won by White, H. C.; Gerding, Northwestern, second. Time, 2:36 3-5. [New world's record.]

Plunge for distance—won by Cox, H. C.; Hall, Northwestern, second. Time, :29 for 60 feet. [Two entries.]

160 yard relay—Won by Hamilton [Browne, Wallen, McClanahan, Bennett.] Time, 1:22.

Leonard Boxes 7 Rounds to Prep for Mitchell Go

Benny Leonard, New York lightweight, who battles Richie Mitchell of Milwaukee, in the Brewery City tomorrow, whirled through seven speedy rounds at the Arcade gym yesterday afternoon. He liked his workout so well he decided to remain over this afternoon for a similar session. Charley Scully, lightweight, furnished the opposition for three rounds, then Billy Cepak and Kid Hogan, a couple of featherweights, took on two rounds apiece.

Oscar Gutter has decided he will not manage Joe Sherman any longer. They quit when a dispute arose over the opponents picked for Sherman.

WELSH RETAINS HIS RING CROWN, BEATING NELSON

Ducks Way to Victory, While Battling Lands but Six Real Wallops.

"TRIBUNE" DECISIONS

Decisions of "The Tribune" representatives are:
At St. Louis—Freddie Welsh beat Battling Nelson [12].
At Boston—Mike O'Dowd won decision over Frank Carlson [12].
At New York—Eddie Wallace beat Joe Mooney [10].

St. Louis, Mo., April 17.—Freddie Welsh, lightweight champion, bested Battling Nelson, a former champion, in twelve rounds of rather tame boxing tonight. Welsh was too clever for Nelson. The champion ducked, dodged, sidestepped, and back-stepped whenever Nelson started a blow, and was not hit solidly more than half a dozen times.

The champion also showed his punishing power. His left darted to Nelson's face repeatedly, and his infighting was far superior to the battler's. The blows Nelson landed seemed to lack their old time sting.

The contest was not all one sided, however. Nelson never failed to meet Welsh in the middle of the ring, and never during the fight did he back off an inch. In the eighth Nelson hit Welsh squarely, but the blow appeared low. The champion backed up against the ropes, but the referee motioned the boxers together again.

Welsh, apparently angered, then began his real attack. He slashed Nelson with right and left hooks and pummeled his body. Nelson soon was bleeding, and at the end of round eleven both men were crimson from a cut in the battler's lip. Nelson weighed 132 and Welsh 135.

Won't Let Darcy Box at Tia Juana Either

San Francisco, Cal., April 17.—Les Darcy is barred from any bout that may be staged at Tia Juana race track, for the same reason he was barred from New York by Gov. Whitman. Jimmy Coffroth, erstwhile fight promoter, made this announcement today. "As long as I am president of the Tia Juana Jockey club Darcy will not be allowed to fight there," he said.

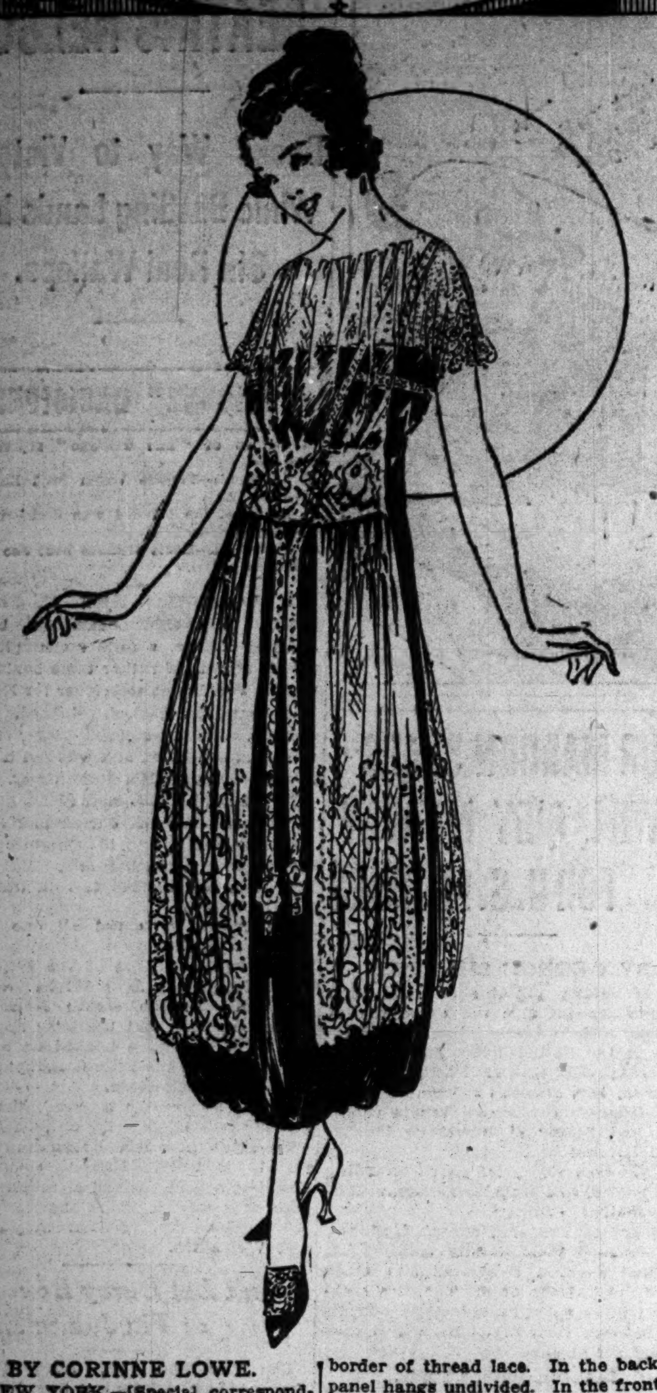
FASHION'S BLUE BOOK



BY CORINNE LOWE.

NEW YORK.—[Special correspondence.]—The woman of today's fashion drawing looks convincing as the magician when he rolls up his sleeves and says, "See, ladies and gentlemen." She is in reality arguing with the Women's Hughes alliance. "Have I anything up my sleeves in the way of extravagant modes?" pleads she. "Can you find a peg-top or a barrel or an unnatural waist line anywhere about me?"

This dinner frock from a Paris designer is, in fact, one of the most conservative of any models that have come to us. It probably will be just as good style in December as it is right now. And it is exactly as suitable for the middle aged woman as for the maid. The underfrock is of black satin, over which fall panels of sheer white with border of thread lace. In the back the panel hangs undivided. In the front the tablier divides to make way for those narrow lace strips which come down over the shoulders and which end in roses of Titania-like weave.

Bright Sayings of the Children

"The Tribune" will pay $1 for each childish saying printed. The only condition is the story told must never have been printed in any magazine or paper. Write on one side of the paper only. It is not possible to acknowledge or return unavailable contributions. Address bright sayings to Aunty Bee, "Tribune," Chicago.

The following remarks were overheard one day after my two nephews had been made ready for the dinner table. The eldest said to Bob: "Why, Bob, see how clean your hands are and your face, too." Then, evidently upon examining his own: "Why, mine are clean, too. Nobody would know it was you and me." A. R.

Bud, my nephew, who suddenly quieted down after playing ball all evening, was asked by his mother why he was so quiet, upon which he answered: "Well, I is waiting for some more think."

ELEANOR BING,

My son recently went to visit his grandmother and stayed several weeks. When he returned, I asked him if he took his nap every day like a wise boy, and he said: "No, 'cause when I did grandma got so lonesome her dess couldn't stand it so I had to stop it."

Red Nose May Be Caused by Many Things

BY ANTOINETTE DONNELLY.

ANXIOUS: THICK LIPS AND A red nose are not assets to beauty, to be sure. There is really nothing you can do to reduce thick lips. Do not bite your lips, as biting makes them coarse and thick. A red nose may come from poor circulation, indigestion, tight gloves, or tight wearing apparel. It is curable only by finding out which of the causes to attribute it to and removing the cause. In the meantime be careful of your diet. Do not wear tight clothing. Get lots of exercise in the open air. A cold plunge in the morning, followed by a vigorous rub with a Turkish towel, is excellent for impoverished circulation.

ANXIOUS: THERE IS NO CHARGE for my treatment for pimples. Just send a stamped, addressed envelope and it will be mailed to you.

Two ox tails, 25 cents. Seasoning vegetables, 5 cents.

Ox Tail Stew.

IT is well to buy two ox-tails if you have a family of from four to six, because ox-tail stew is so good warmed over. For two people one will make stew enough to have a second day. But no one would want either ox-tail stew or soup unless it was cooked so as to be savory and not in any sense strong.

Cooked in the following manner it may be used in toto as a stew or the liquid strained off and used as a thick soup and the meat used separately with the vegetables.

Scrape and trim ox-tail if necessary and wash carefully in more than one water if necessary, for there should not be a suspicion of a hair on the meat. Wiping the meat may insure safety. Put a little pepper and salt in a plate with two rather large tablespoons of flour and roll in this the meat, which should have been wiped dry after the washing in this mixture. Have two tablespoons of dripping or its equivalent melted in a good sized Dutch oven and sear the meat on all sides in this.

When this is done take up the meat on the plate with the flour. Put into the kettle two sliced onions, two scraped and sliced carrots, and from one to several stalks of celery diced. Stir them around in the fat, cooking them a few minutes. Sprinkle over the vegetables about two teaspoons of sugar. This makes a great difference in the flavor of the stew, but not enough should be added to make it sweet. Put in the meat finally and all the flour left on the plate, add one cup of cold water and stir the whole a few minutes and cook until the water thickens. Usually this is in a short time. Then add three cups more of seasoning, a teaspoon of salt, a dry red pepper, and any other seasoning to taste. Cover close and after the whole boils, reduce the fire to the lowest point that will keep the whole simmering, and cook four hours. With a heavy iron cover fitting closely there will hardly be a teaspoon of evaporation. With a less satisfactory cover the stew might cook away one-half. Serve over boiled rice as a stew or strain for soup. Instead of rice potatoes cut in dice, parboiled in a small amount of water, and added to the stew, water and all, fifteen minutes before it is served, may be used.

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsified cocoanut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.—Advertisement.

A Human Document—as True as Life

"ENLIGHTEN THY DAUGHTER"

By Mae Tinée.

A HUMAN document, as true as life itself, is being presented at the La Salle this week. Called "Enlighten Thy Daughter," it treats bravely—with almost terrifying sincerity—on the subject of parental elucidation of eugenics. Though it strikes straight from the shoulder and there is no mincing of matters—just as truly is there nothing salacious about it. Those of unclean mind who are drawn to see the film because of its title will find in it no fillip to their senses, no pandering to their morbidness. On the other hand I do think there will and should be a large attendance of the thoughtful, especially of those to whose immediate guidance is intrusted the care of the young.

Two homes are shown in the picture—the homes of two brothers. Both are men of integrity, one a physician, the other a lawyer. The doctor is married to a woman whose heart is in her home and whose interests are centered in her husband and the daughter whom she has fortressed with knowledge against possible youthful indiscretions.

The lawyer's home is presided over by an ex-opera singer, a good looking, frivolous and indiscreet, yet withal kind hearted creature with a passion for gambling, which she keeps concealed from her husband. Absorbed in her own interests, she pays her daughter but casual attention, with the result that the girl, left to her own devices, "goes wrong," as trite phrasing puts it—innocently enough—"led astray" by a young fellow of good family, innately decent enough, but accustomed to having his own way and to 'ell with the consequences.

The consequences in this case are hideous. Your sympathies are with the girl, but it is a most harrowing experience to follow the emotions of the terrified and conscience stricken mother, who, an animal driven to bay, in a panic at the thought of her husband's wrath, finally gathers up the poor little victim of circumstance who is flesh of her flesh and takes her to an abortionist. On the eve of her cousin's marriage to the man who had wrecked her life she dies and his name on her lips breaks forever, the bonds almost consummated between the engaged pair.

The above forms the gist of the story which escapes being melodrama by virtue of its cleanliness of treatment and the acting of the exceptionally high grade cast. You feel as the picture unreels that you know intimately the people portrayed. Too much cannot be said in commendation of the work of Frank Sheridan and Arthur Donaldson. Real honest to goodness men they are supposed to be, and as such they act. Zena Keefe, as the girl who did not know, is most pathetically convincing and James Morrison as the careless, likable youth as much so. We have all known women like the mother, characterized by Katherine Kaelred, just as we have, happily, met the kind of woman Marie Shotwell portrays.

There is no attempt at originality of plot—in fact, I don't believe there is a plot. You just enter unobserved the homes of some real folks and learn from them.

ASK ME! ASK ME!

INTERESTED: Well, I'll try! The majority of film companies buy their films from film manufacturers. When a film is old or spoiled the company that produced the picture on the film removes the "silver" and discards the celluloid. Yes, you may purchase any amount of this discarded film. No, it can never be used again. When a "negative" copy of a picture is shown on the screen the faces and figures shown are blurred and cannot well be distinguished. In order to clearly view a picture one must have the "positive" copy of the film. Not a bit of trouble, write again some time.

FAN NO. 2: Mary Miles Minter is about 18 years old. Yes, she played on the "legitimate" stage before entering motion pictures. She is 5 feet 2 inches tall and weighs about 110 pounds. I was so glad to get your interesting letter. Thank you so much for your words of cheer and encouragement.

ANNE H.: Did you get your material all right? It was mailed to you. Yes, some time I am going to try my hand at drawing; maybe I can do as well as some other people we both know.

Shallow Sister Clarice.

OUR family, consisting of my father and two sisters, had lived in the country for a number of years, and my father, having amassed a fortune, decided he would move to the city. Of course, we girls were more than delighted.

We had only been in the city a short time when we became very popular and had all the young people from the best families visit us. Among these visitors was one young man who was considered rich, and a great "catch." He called often and never failed to bring either a bunch of hothouse flowers or a box of candy, and always placed them on a table with the remark "for you girls."

Now, my sister Clarice was in the habit of treating me as a sort of Cinderella, and as she was my senior by six years, and having no mother, I just naturally took it for granted that whatever she told me was law.

One evening the same young man called as usual with another young man, who was engaged to marry my other sister. After being there a short while they proposed that we all go downtown to one of the shows. We acquiesced and went to put on our wraps. When we were in the bedroom my eldest sister, Clarice, said: "Why you are not going along, are you? You were only asked for politeness."

Of course, my feelings were terribly hurt, and my throat swelled with suppressed sobs. When we returned to the room where the young men were waiting for us, our friend, Mr. R., seemed much surprised to see me without my hat on, and when he asked me if I was not going I said I did not feel very well and would stay at home and read, whereupon Mr. R. said he would let the others go on and would stay and keep me company. Clarice simply glared at me and remarked that I had better come along, but I said, "No." You can already guess the end. Our friendship from that time on developed, and soon turned to love. When we were married Clarice pointedly refused to be my maid of honor.

SAVE YOUR HAIR AND BEAUTIFY IT WITH 'DANDERINE'

Spend 25 cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautifully wavy and thick in a few moments

If you care for heavy hair that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its luster, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25 cent bottle of Knowlton's Danderine at any drug store or toilet counter, apply a little as directed, and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—Advertisement.

"Blankets"—Cry of Navy Women as Jackies Shiver

BY CINDERELLA.

NOBODY envies the Navy league women their job of finding blankets for our apprentice seamen at the Great Lakes naval training station. There are the young jack tars arriving in great squads day after day, and there goes the weather freezing and raining, and the plain facts go forth that these splendid young chaps sleep on the floor with nothing under them and nothing over them.

There don't begin to be accommodations for so many. The Navy league women have all kinds of money merely for the asking, one knows, but blankets, it seems, aren't to be bought even with bags of money. Our manufacturers have been so busy in the past making angel boots and peekaboo materials that nowadays when something warm and woolen is needed it's found among the lost arts.

These young sailor men turned out after a two months' training at the Great Lakes station are the finest looking young fighting men in the world—red cheeked, active, upright, smart in their navy blue, khaki leggings, and snowy turbans. Chicago ought to be proud of them.

◆

But it appears that millionaire fighters are having the same troubles about blankets. One young man under orders with his regiment would be going away blanketless had Lady Aberdeen not donated a wonderful Canadian blanket from the far northwest to the Allied bazaar. This was bought by some wide awake north siders, who are presenting it to the artilleryman for his kit.

Seems to me Mrs. George Vanderbilt did a great thing when she established those looms for woolens on her estate at Asheville, N. C. Everybody who's been to Asheville this spring has come home with the smartest, woolliest looking real homespuns, in the loveliest heathers and greens and grays and whites.

The looms were brought direct from Scotland, and there under your eyes are grazing the very sheep that grow the wool that feed the looms, the products of which bring $3 a yard.

People are having suits made of these homespuns, which are said to have the doubtful virtue of wearing forever. However, these being war times, one thinks differently than before. In any case Mrs. Howard Linn and Mrs. Halstead Freeman have stocked up the Band Box with these Vanderbilt homespuns, which, by the by, are woven by mountaineers.

◆

The name of Winston is to be included in the new American army in the person of Garrard Winston, elder son of the late Frederick S. Winston, who has just returned from Washington on war matters intent.

Garrard Winston is a junior member of the law firm of Winston, Payne, Strawn & Shaw and a dweller in great bachelor magnificence in the big North State street house built by his father. Garrard Winston is a polo player and is anxious for active service in the cavalry.

Benefit for French Reservists.

A French benefit will be given to help the French reservistes in Chicago and suburbs under the auspices of the Comitee Patriotique de Secours Franco-American on Saturday at 11 a. m. at the Central Music hall. The program will be interesting to both adults and children.

A little play will be acted by children, all of whom are under 13 years old.

Marguerite Bériza and M. Raymond Faure will present "La Souris." (the mouse), by Armand des Roseaux.

Sig. Francesco Daddi of the Chicago Opera company will sing a group of Neapolitan songs.

Mme. Marguerite and M. Henri David will recite and Mrs. J. Mitchell Hoyt will sing French songs with M. Herman Devries at the piano.

The French consul has promised to attend and his box will be draped with French and American flags.

Richard Loeb is treasurer of the benefit and money may be addressed to him, 5017 Ellis avenue, or tickets may be procured at the box office of the theater.

Women to Learn Caloric Needs of Fighting Men

THE 150 newly enlisted army cooks from Chicago are to be taught the tricks of wholesome cookery for the soldiers at the School of Domestic Arts and Sciences in the Tower building. Col. Gorden Strong yesterday received notice that a sum of money had been donated to pay for such a course for the men and as soon as arrangements can be completed it is hoped that classes will be formed.

The wives of five colonels—regular army and militia—Mrs. Joseph B. Sanborn, Mrs. James Ronayne, Mrs. Gordon Strong, Mrs. N. W. MacChesney, and Mrs. H. C. Castor—met at the home preparedness meeting at the school and learned how many calories of heat are required for a fighting man. Three bunches of lettuce, one potato, one orange, one egg, a quarter of a piece of mince pie, or a half piece of cake will give 100 calories, and it takes over 3,000 calories a day for a strong man. The women were urged to fight for the use of floogsefish and carp, which were called perfectly good food.

"There are 10,000,000 pounds of goosefish caught in our rivers every year," said Mrs. Lyndon Evans, "and these, as well as the carp, are wasted because we have never learned their food value. They will be served hereafter at the school luncheons and I urge you women to ask your fish dealers to procure them for you."

The Chicago chapter, D. A. R., meets tomorrow in the Fine Arts building to celebrate the one hundred and forty-second anniversary of the battle of Lexington.

A most business-like and sweeping sale was conducted yesterday at the home of Mrs. James Ward Thorne of 1200 Lake Shore drive, when tea gowns, sport hats and waists, babies' garments, lamp shades, and a thousand other things went at reasonable prices to the swarms of fashionable purchasers who came to the sale. It was the annual spring event when the directors of the Woman's Exchange place on the counter the goods of those who make articles for the downtown exchange, and Mrs. John W. Gary, president of the board, assisted by others, wrote out purchase slips and made change as competent salespersons.

Among those who assisted Mrs. Gary were Mrs. Morris L. Johnston, Mrs. Donald R. Wegg, Mrs. Hathaway Watson, Mrs. John R. Mann, Mrs. Francis J. Johnson, and Mrs. Frank Hibbard. Mrs. Thorne's apartment was entirely denuded of furniture for the occasion and the bedrooms were used as dressing rooms for the purchasers.

Mr. and Mrs. George W. Swigart of 190 East Chestnut street are at French Lick Springs for two weeks.

The Fatherless Children of France will be the beneficiary organization of the exhibition of oil paintings to be opened today at Bryden Art galleries, 217 South Wabash avenue.

ENGAGEMENTS

Mrs. Edward Clark Porter of Hubbard Woods announces the engagement of her daughter, Charlotte Williams, to Donald Myrick of Springfield, Mass.

Word of two engagements of interest to many of the social workers of the city came from Boston yesterday. Mrs. F. J. Lothrop of Leominster, Mass., announces the engagement of her daughter, Nellie Louise, now a resident at Hull house, to James Johnson Forstall of Chicago, son of Mrs. Theobald Forstall. Mrs. D. Melancthon James of Newton, Mass., announces the engagement of her daughter, Mary Marguerite, to Everett Winfred Lothrop of South End house, Boston, formerly of Hull house.

Mr. and Mrs. William A. Illsley of 908 Seward street, Evanston, announce the engagement of their daughter, Constance, to Durrell Tuttle of Newark, N. J.

CONCERTS AND RECITALS

CAUTION stood out as the quality of the Musical Art Society's singing of the early items in last night's schedule: the concert, its second of the season, was in Central Music-Hall. Caution is an admirable observance with compositions like Palestrina's "Exultate Deo" and Bach's "Jesu, Priceless Treasure!" if rehearsing have not been extensive and so nearly complete as to give absolute confidence to the singers; and even such devotées as make up this admirable little band may, with all the will in the world, be unable to give the time necessary to prepare a Bach motet beyond the chance of disaster.

Herbert Hyde took them through well-nigh faultless performance in both pieces: the caution was the byproduct of intelligence, temperament, and the right feeling for the work. The note of rapture, the basis of both compositions, was lacking: this note is not a byproduct when caution is. There was not time to hear more of an interesting and varied program, which included three of Georg Schumann's songs.

◆

Ernest Bacon, although the owner in fee-simple of the new Baconian cipher in music, plays the piano in the accepted modes: he did so last night, at least, and did so excellently in two bits of Chopin, études, and a first-time-here fantasy by Busoni, "Al Italia." Young Mr. Bacon, whose recital was No. 3 in Mr. Gunn's Young American Artists' list, was not so happy in Brahms' ballade in B-minor: he did not release the melody which Brahms put into it. The Busoni piece is colorful and attractive, involving genial transcriptions of some familiar tunes.

◆

Neglect by the management of the Chicago Teachers' Chorus to send ahead a copy of its schedule for last night's concert made the foregoing routine unavailing as a device whereby a reporter might be in Orchestra Hall in time to hear Rossetter Cole's new cantata of "The Broken Troth," the only novelty of suspected importance: it was given in the first half. Morgan Kingston, in the second part, sang Tosti's "Parted" with excellent tone and taste: he put neither into some other ballads, and made sad work of Coleridge Taylor's "Thou Art Risen, My Beloved!" The chorus sang well enough, perhaps, for an organization of women whose chief business in life is not singing.

Funds for Educatiinal Center.

An educational center is the aim of a campaign to raise funds for the new building to be erected to house the Chicago Kindergarten institute, now located at 54 Scott street. The institute will be the center of a group of three affiliated institutions, the Mary Thompson hospital and the Hermon Beardsley Butler house.

An option has been obtained on property near Belmont avenue and Broadway, and a two weeks' campaign to raise the necessary funds begins next Wednesday.

The Successful Home Garden

This department will appear daily and Sunday in "The Tribune." Inquiries from readers desiring through neighborhood and back yard gardens to decrease the cost of living should be addressed to The Garden Editor.

ARTICLE NO. 44.

Plant Peas.

BEANS and peas, while affording highly nutritious food, are most beneficial to the soil through the nitrogen they gather from the air and deposit in the soil. This will be an important element in growing other crops on those beds next year, while the beans and peas will be shifted to enrich other beds.

In the back yard plan of March 12 there is a half bed next to the chard reserved for "early peas, followed by cauliflower and lettuce." Your soil permitting, those peas must be planted today.

In drills four inches deep, plant two rows, twenty-four inches between rows and 12 inches from the other edges, three to four inches apart in the row. A deep drill like this is made by drawing the corner of the hoe along the surface at the line. Press down the peas gently with the back of the rake, like smaller seeds, and rake over lightly to refill only half way. Thus the peas will be planted really but two inches deep, the remainder of the soil being filled in by degrees in subsequent hoeings.

◆

It is assumed that two large clumps of rhubarb were previously planted in the designated bed adjoining the fence. If not, plant them now with bud or crown fully one inch below the surface. Even more well rotted manure should be used in preparing for rhubarb than for trees and shrubs. In fact, the soil cannot be made too rich for it. Cut but sparingly of it this year, using the strongest leaves.

On April 10 and 11 was printed the manner of planting vines and berry bushes. After the fashion there described we plant two well rooted currant bushes and three well rooted raspberry bushes at the fence near the rhubarb. The raspberries are planted two in a bush, making six plants in all. Cuthbert is the most desirable red variety. By cutting the canes back to a height of six inches we dispense with the berries for this year, but increase future yields enormously.

◆

If social relationship admits of it, five 3 year old grape vines (three Concord and two Catawba) may be planted, ten feet apart, in the narrow strip between the sidewalk and fence, using the fence itself as a trellis. Where this is not advisable a porch trellis should be provided with south or east exposure if possible.

[To be continued.]

More than a Room

TRAVELERS appreciate the comfort and restfulness provided at Hotels Statler (Buffalo, Cleveland, Detroit). You do not merely rent a room; you buy a service of comfort and convenience.

A good bed in a pleasant room; a private bath room; circulating ice-water; a well-stocked writing desk; a morning paper before you wake; cheerful restaurants, serving good food; extra-comfortable lounging rooms—these things are but the background of that complete, courteous, interested service which we call Hotel Statler Service.

The fourth Hotel Statler (in St. Louis) will open this fall.

The Pennsylvania, now building in New York, will be Statler-operated—the largest hotel in the world—2200 rooms, 2200 baths. Opposite Pennsylvania Station.

CITY URGED TO CONSCRIPT LOTS FOR GARDENERS.

Number of Applicants Far Greater than Number of Plots.

Urgent appeals for more vacant lots for garden purposes this summer were made to property owners by Mayor Thompson and the city garden bureau yesterday in the hope of meeting the increasing number of requests from prospective gardeners.

Unless more lots are obtained at once, many persons seeking to join the "Grow a Garden" movement this summer will be unable to secure the land to do so.

L. J. Boughner, lecturer for the bureau, put forward the suggestion that the city conscript vacant lots. He asked the Cook county real estate board to place every available bit of land on the lists of the garden bureau.

High School Boys Apply.

Many high school boys visited the offices of the board of education to file applications for garden and farm work. President Loeb has received letters from farmers in Illinois, Indiana, Michigan, and Wisconsin asking for boys.

Government officials are pointing out that the labor shortage may cause serious handicaps in harvesting the wheat crops this year and are already taking steps to urge every man who can do so to go into the wheat belt during the harvesting season.

C. J. Blanchard, statistician of the reclamation service at Washington, said crop production in the south and west will be curtailed unless the labor supply is increased.

The Chicago Title and Trust company is giving its services free to persons seeking vacant lots for cultivation in the vicinity of their homes. More than forty persons applied to the company yesterday for needed ground.

Rotary Club's Offer.

The International Association of Rotary Clubs in session at Philadelphia volunteered to act as an intermediary between farmers and high school boys. The applications here will be received at the club's headquarters in the Hotel Sherman.

The soaring cost of living struck the sand girt town of Gary from a new angle. The town imports its soil for gardens and lawns. The cost of black earth rose from $1.75 to $2 per cubic yard.

Mayor Proclaims 'Cleanup Week' and 'Baby Week'

Mayor Thompson yesterday issued a proclamation designating April 23 to 30 as "clean-up week" and May 1 to 7 as "baby week."

COAL OPERATORS RAISE WAGES OF 225,000 MINERS.

Pennsylvania, Ohio, Illinois, and Indiana Men Get 20% Increase.

New York, April 17.—After a joint conference of representatives of bituminous coal miners and operators here late today, it was announced that the recommendation of a subcommittee granting an increase in wages averaging 20 per cent to 225,000 miners in Ohio, western Pennsylvania, Illinois and Indiana had been formally adopted. The increase in wages is effective from April 16 and will continue in force until March 31, 1918.

The miners and operators asserted that the increase in the wage scale would mean an advance in the cost of production of coal of at least 20 cents a ton and represent an annual wage increase of $35,000,000.

John P. White, international president of the United Mine Workers of America, in a statement tonight said:

"The conference just ended has set a new mark for the promp adjustment of relations between employers and employés in a spirit of patriotism and mutual accommodation worthy of good citizens in this time of emergency."

Mr. White declared further that the present arrangement was far more acceptable to the miners than would have been a bonus.

Before adjourning the joint conference passed a resolution providing for the appointment of a committee of miners and operators to coöperate with the council of national defense.

WO MEET DEATH HEN CAR AND TRUCK COLLIDE

head on collision between an auto- bile truck and a Lake street car in er Forest yesterday resulted in two deaths and the injury of a third person. The dead:

WILLIAM PAWSON, 18 years old, Gale avenue, Forest Park, driver of truck, which is owned by the J. Mathews Grocery company, River For-

WILLIAM REEDY, 16 years old, 130 avenue, River Forest. Died in the Side Suburban hospital.

Arthur Sander, 18 years old, of 162 Thatcher avenue, River Forest, badly injured.

Pawson was driving the truck behind eastbound Lake street car and in at- tempting to pass it he drove into the westbound track. He saw the approach- westbound car too late. He was in- stantly killed. His two companions crushed by the impact. The auto- mobile was demolished.

CITY MARKET MEN REVIVE PLAN FOR FRUIT TERMINAL

The proposed Santa Fé fruit and veg- etable terminal at Eighteenth street, Rockwell street, and Archer avenue yes- terday received the unanimous indorse- ment of the Municipal Market associa- tion. Speakers before a meeting of the association held in the refectory at Gar- field park declared the new terminal would reduce the price of foodstuffs by relieving South Water street conges- tion.

Music Teacher Accused of Theft of $500 Violin

The Rev. Alexander Greenwald of 1423 North La Salle street, a professor in Chicago College of Music, was held to the grand jury in bonds of $2,000 yesterday. Mrs. Anna R. Salzberg said took a $500 violin, an heirloom, and instead of repairing and returning it, gave her another one of considerably less value. The charge is larceny by bailee.

Women in Auto Steal Jewelry and Lingerie

Mrs. H. W. Wilcox of 2023 Byron street left on Wednesday for Madison, Wis. When she returned yesterday she found jewelry valued at $300 and lingerie had been stolen from her apartment. A neighbor saw three women of good ap- pearance carry several bundles from the building, enter an auto and drive away.

EXPLORER

Will Lecture Here Monday on Way Home to Fight for England.

Sir Ernest Shackleton

Lieut. Sir Ernest H. Shackleton, antarctic explorer, will arrive in Chicago on Sunday or Monday on his way to "do his bit" for England in the world war.

The explorer is returning from the antarctic regions, where he went with an expedition at the outbreak of the war. He arrived in San Francisco last Tuesday, went to Seattle for a day, and on his return to San Francisco will start for Chicago. While in Chicago he will give one of the few lectures which his hurried trip to England will allow in this country. He will address the Geographic Society of Chicago at Orchestra hall Monday evening.

In 1909 Lieut. Shackleton was within 106 miles of the south pole. Subsequently both Scott and Amundsen reached the pole.

"Lieut. Shackleton's lecture should be one of the greatest treats for Chicago in many months," said Prof. Henry J. Cox, who announced the lecture date. "The explorer is a lieutenant in the British navy and expects to go into active service at once. He was anxious to do that when the war broke out, but the government insisted that he undertake the expedition he had planned."

Y. M. C. A. FUND GAINS $12,700; TOTAL, $80,000

The Y. M. C. A. obtained an additional $12,700 yesterday, raising the total thus far pledged for work among the soldiers to $80,000. Today the returns from several business firms and prominent citizens who have the matter under consideration are expected to augment the fund considerably.

The mark set for Chicago—$150,000—and for Cook county—$200,000—will be reached in a few days, the Y. M. C. A. leaders believe.

L. Wilbur Messer, general secretary of the association, said:

"The splendid meeting Monday night is being felt in all directions. The citizens are just beginning to understand what a great help this work will be to the boys after they have gone to the front. It is a patriotic undertaking, one that means better soldiers on the firing line. The regular army officers have commended it highly.

"The Y. M. C. A. aid on the battlefields of Europe has been highly commended by the commanding officers and the governments. They recognize in it an almost invaluable help in many ways.

"Col. Milton J. Foreman is particularly interested in our undertaking, for he knows what it means to have this work attended to when the boys from Chicago and Cook county leave us for their country's defense.

"Capt. McCann, chaplain of the First infantry; Harry Pratt Judson, president of the University of Chicago; and Dr. Frank W. Gunsaulus are aiding us greatly. Their splendid appeals have done much to call the attention of the public generally to the need of this activity in the field."

At a meeting of the Northwestern university Y. M. C. A. in Fisk hall last night $2,379 was raised toward the $49,000 which Evanston agreed to raise.

JUST COULDN'T BEHAVE WHEN JAZ BAND JAZZED

Notorious Black and Tan Beaux Arts Club In Bad Again.

They simply couldn't behave when that jaz band began to play at the resuscitated Beaux Arts club, 2700 South State street, according to the report of Capt. Thomas F. Meagher, and yesterday Mayor Thompson revoked the dance hall license.

It is the second time the "club" has been closed since it became notorious as a "black and tan" resort under the regime of former Chief Healey. It reopened less than two months ago under the name of the Cascade dance hall on the promise of the licensee, Daniel M. Jackson, that it would be operated in an orderly manner with no booze accompaniments.

Finds 'Em "Walkin' the Dog."

Lieut. Loftus, however, visited the "club" on the night of April 8 and found the dancing "very disgusting." There were 300 white and colored couples on the floor, the majority of whom were doing an underworld dance.

After receiving this and other reports Capt. Meagher recommended the revocation of the license. He said the place was "not being conducted within the bounds of common decency."

The mayor also revoked the saloon license of John Galanek, 1711 South Union avenue, who was found guilty of selling liquor to minors.

Blue Goose Owner Fined.

The latest chapter in the affairs of the Blue Goose, a café at 3191 North Clark street, was compiled yesterday when a jury in Municipal Judge Newcomer's court found William Stewart, the proprietor, guilty of violating the 1 o'clock closing ordinance. He was fined $25 and costs.

Stewart has appeared to have some sort of influence with the city hall. A month ago his place was entered by the police shortly after 1, and so many jeers were directed at the officers that they arrested six customers, of whom four were married couples. One of the aggrieved customers complained to Mayor Thompson and an inquiry of the patrolmen who made the seizure was ordered.

Patrolman Paul J. Copperty told the jury that at 1:50 a. m. on Jan. 14 he entered the place and found more than 100 persons. The arrests which brought the place its greater notoriety were made on another raid, two months later.

BATTALION CHIEF, FOUR MEN BURNED BY BLAST AT FIRE

Fire Chief Thomas Reynolds of the Sixth battalion and four other firemen from engine company No. 24 were severely burned by a gasoline and chemical explosion last night in a fire at 2800 West Madison street. All of the firemen were taken to the Washington Boulevard hospital.

Those injured in addition to Chief Reynolds were Lieut. John Hennessy, Pipeman Frederick Bruhn, Pipeman John Davy, Pipeman Peter Horn.

All except Bruhn were able to leave the hospital after their injuries had been dressed.

The fire started in the basement of Hensel's drug store.

GIRL REPUDIATES JOY RIDE STORY

Miss Ruth Sensiba, 17 years old, a student at the Bush Temple Conservatory of Music, was placed under arrest in the Court of Domestic Relations yesterday after she had repudiated charges she formerly had made against Dr. Frank Ross, a dentist, 322 South State street.

Miss Sensiba and Miss Hetty Swaysland, 16 years old, 55 West Erie street, had had Dr. Ross arrested on a charge of having taken them to Milwaukee in an automobile. Miss Swaysland testified in court yesterday concerning the trip.

In view of Miss Sensiba's denial the case was continued until April 26.

WIFE SHOOTS HIM AT FRONT DOOR; JEALOUS, HE SAYS

Mrs. William Berlin Wounds Him 3 Times.

Los Angeles, Cal., April 17.—Shot three times by his young wife, William B. Berlin, special investigator for the United States Mortgage company, is held for investigation in the police emergency hospital. The wife, Mrs. Harriet Berlin, formerly of Chicago, was arrested on a charge of assault with intent to commit murder. She is a sister of Mrs. Paul Arndt of 2204 Irving Park boulevard.

The shooting, which took place in their apartment in the Douglas apartments, 624 West Tenth street, had been expected by Berlin, he told the police, for eleven years. Another man is mentioned in connection with the case.

Wife Met Him at Door.

Berlin says that when he came home at 6:30 tonight he was met at the door by his wife, who was armed with a thirty-two caliber revolver. She immediately opened fire, he says.

Immediately the woman turned the revolver on herself in an effort to take her own life. Berlin, wounded as he was, succeeded in disarming her.

According to Berlin, his wife had been jealous of him since they were married twelve years ago.

Mrs. Berlin's Letter.

The letter written by Mrs. Berlin just before the shooting follows:

"Dear Martha: You are the only sincere friend I have outside of Mrs. F. in Frisco and also F., and I want you to do me one last favor. Take charge of my little affairs. You will be surprised to find that I have this much money, but for years I have saved it for just such a purpose, and please bury us together. I want you to know I thought a great deal of you, because you are a good woman and understood me, and you have also suffered at the hands of Harris Hanshue.

"I want you to have my diamond and pearl ring to remember me by.

"You can have anything else you want, and the earrings and whatever else you want to send, send to my sister, Mrs. Paul Arndt, 2204 Irving Park boulevard, Chicago. D. D. Berlin, Trafford City, Pa.—Bill's brother. May God bless you and give you a little happiness in this world. Your unhappy friend,

"HARRIET BERLIN."

DIVORCES

Decrees Asked and Granted on Charges Ranging from Drunkeness to Bigamy.

A YEAR and a half ago R. Gordon Mills, 5522 Cornell avenue, took Miss Louise Gwinn to Crown Point and they were wed. Yesterday Mrs. Mills filed a bill for divorce in the Circuit court charging Mr. Mills, who is a La Salle street broker, with infidelity.

Other bills filed:

Mrs. Gladys McCurdy, 165 West Chestnut street, asked annulment of her marriage to Harold. Her marriage was prompted by her father's dying request, the bill states. She had another husband, Harry Evans, at the time.

Decrees signed by Judge Thomson included:

Mrs. Julia Lockerbie, 415 Webster avenue, who acted as her own sleuth against Oswald; cruelty.

Will of Jas. Pease Leaves $200,000 in Trust to Widow

The will of the late James Pease, former assessor and sheriff of Cook county, who died April 11, was filed yesterday for probate. The estate, which will approximate $200,000, is left in trust to the widow, Mrs. Theresa A. Pease, for life. Upon her death it is to be divided equally between their four children, Mrs. Margaret Sennott, William Pease, Mrs. Zella Wynn, and Mrs. Irene Mantanym.

Mrs. Durand Gets Divorce; Now He Can Be an Aviator

Judge Thomson yesterday divorced Mrs. Elliott Durand Jr. of 5328 Kimbark avenue, on cruelty charges, and now her husband, son of Maj. Elliott Durand, can join the aviation corps as he has intended.

MME. BERNHARDT OPERATED ON FOR KIDNEY TROUBLE

Sharp Turn for Worse Alarms Friends of Actress.

New York, April 17.—[Special.]—Sarah Bernhardt was operated on for an infection of the kidneys at Mount Sinai hospital at 10 o'clock tonight. After the operation it was reported that the "patient was comfortable."

Mme. Bernhardt's condition took a sharp turn for the worse late this afternoon. A consultation was held at her bedside tonight by Dr. Felix Marot, who accompanied her from France; Dr. Emanuel Lidman, Dr. Leo Buerger, Dr. Emanuel Baruch, and Dr. George E. Brewer, professor of surgery of the College of Physicians and Surgeons. Immediately afterward the hospital authorities gave out a bulletin.

"The improvement," it read," has not continued as we expected. The physicians in attendance who hoped to deter the operation have decided to operate. Mme. Bernhardt's condition is not as good as it was last night."

This change in the actress' condition was a shock to her friends, for reports from the hospital in the day had indicated she was much better than the night before.

Drys Ask Liquor Sale Be Stopped During War

The Dry Chicago federation yesterday formulated a petition to be presented to the city council asking that licenses for the sale of intoxicating liquor be discontinued during the war.

The petition is based upon the fact that much grain is now used in the manufacture of intoxicating liquors which might be diverted to the nation's food supply.

A committee of A. W. Harris, C. E. Coleman, and Phillip Yarrow of the Dry federation, was appointed to wait on Mayor Thompson.

'BISCUIT BLONDE' NEWEST ADD TO CHICAGO SLANG

Compilers of a slang dictionary should consult the records of the Criminal court to find there this new bit—"the biscuit blonde."

Mrs. Louise Bergman gave the phrase life yesterday by talking it into the record in Judge Crowe's court. She applied it to "Wife No. 2" of John C. Niebel, who is being tried on a charge of bigamy. Niebel was arrested on complaint of Anna Wendorf Niebel, whom he married here in 1911.

"Niebel introduced me to a girl he called his wife," Mrs. Bergman testified.

Assistant State's Attorney Daniel G. Ramsay then asked Mrs. Anna Niebel, a diminutive brunette, to stand up where every one in the courtroom could see her.

"Is that the woman who was introduced to you as Mrs. Niebel?" he asked.

"No, the woman that I referred to was a young 'biscuit blonde,'" Mrs. Bergman answered.

Federation of Synagogues Outgrowth of Conference

A resolution unanimously adopted by the first conference on religion and the synagogue calls for a meeting to discuss the formation of a local federation of synagogues to further the religious work of the Jewish community in Chicago.

Five delegates from each congregation, including the rabbi, the president of the congregation, and three others, are to sit in the preliminary meeting when called.

The resolution was read at the closing meeting of the conference at Sinai temple, last night. Rabbi Henry Berkowitz of Philadelphia spoke.

Ex-Capt. John E. Mahoney Left Police with Honor

Through an error it was suggested in yesterday's TRIBUNE that Former Capt. John E. Mahoney might be deprived of his police pension. John E. Mahoney left the police department with a record of meritorious service. The man referred to was John J. Mahoney.

ARMOUR & CO. SHORT OF LABOR; MAY USE WOMEN

Project a New Employe System as Dearth of Workers Perils.

Worried by the increasing difficulty of getting satisfactory laborers at the stockyards, Armour & Co. officials last night started a formal program for stabilizing labor conditions.

There was a warning that unless there is marked improvement in the near future the yards will have to begin employing women almost everywhere except in the killing pens and other points where great strength is required.

Here's the Plan.

The new arrangement provides:

An employment bureau for finding places immediately for transient laborers. To take care also of men released from one department which has temporarily too many hands.

A housing commission for averting the too thick colonization of the employés; arrangement of model colony settlements looked on as an eventual development.

Promotion system calculated to increase employés' interest.

Employés' aid organization to advise them on personal matters.

Employ 9,000 Men.

Armour & Co. employs 9,000 men, but to keep the plant filled it has been necessary latterly to employ 25,000 in the course of a year, of whom 21,000 remain less than six months. The trouble is due chiefly to the demand for labor in other fields, sometimes much more remunerative, but a factor has been the habit of rushing work in one department, and, when production has been too heavy, of discharging a large gang. This gang has been unable to find work in another department right away and consequently has moved away.

Last night's conference was of the 150 plant managers and assistants of this one packing house, to whom John E. O'Hern, superintendent of plants, explained the program. It is based on that now in effect in St. Louis. Locally it will be administered by M. B. Harding, now one of the plant superintendents. One of the officials predicted that somewhat similar arrangements would be made by the other packing houses in the near future.

DIVORCE ACTION CALLS OPERATOR AT SWITCHBOARD

Mrs. Mildred Stovel was startled at her switchboard at the Osgood company, engravers, of 430 South Market street yesterday, when some one handed her a summons in an action by her husband, R. C. Stovel, for divorce.

On Saturday night her husband and three determined persons from the Hunter Detective agency trailed her for miles. At last she paused at the Atlantic hotel—formerly the Kaiserhof.

There Frank W. Pelton, assistant district sales manager of the Mitchell Motor Sales company of Racine, Wis., joined her, according to the detectives. "Frank W. Pelton and wife, Racine, Wis.," appeared on the register later, the detectives say.

Mr. Stovel then dismissed his detectives for an attorney, and yesterday Lawrence Cohen took up the case.

"There is but one charge—can be but one," said Attorney Cohen. "The case is set for May."

Mr. and Mrs. Stovel were married three years ago. During a visit to Akron, O., last October, Mr. Stovel heard from his wife seldom. When she did speak by long distance, he says, she told him she wouldn't live with him again—that her love was dead, and she cared for another.

His speedy return to Chicago didn't alter her decision. She had dismantled the home at 3606 Maple Square avenue and had taken all the furniture, according to Stovel. Then followed the affair of Saturday night.

'Medics' Who Quit Studies for War to Get Credit

Medical students who leave their present studies to give their services to army or navy hospitals in the present emergency are assured due credit for doing so. The state board of health has voted to grant the credits to students, provided they supply the legal credentials of their having done their bit, and through Dr. John A. Robison, president of the board, has notified the surgeons general of both services. Illinois is among the first states to take this action.

U. of C. Students to Man R. D. Hill's Patrol Yacht

A crew of University of Chicago students and alumni is being recruited to man the 71 foot yacht which Russell D. Hill of Lake Forest recently bought in New York for $30,000. The boat, Mr. Hill says, has been accepted for patrol service by the government. Mr. Hill will command and will have the rank of ensign. He is head of the real estate firm of R. D. Hill & Co. of 112 West Adams street.

Community Conference Opens at Auditorium

The national community conference opened last night at the auditorium with a registration of delegates from every state. John Collier, secretary of the conference; Jacob Loeb, and George W. Coleman of Ford Hall, Boston, also spoke. Americanization will be the subject of this evening's meeting at the Strand theater.

SELLING EXERTS MORE PRESSURE ON N. Y. MARKET

Losses Partly Regained After the Tax Policy Scare Subsides.

BAROMETER OF THE MARKET

Average of Closing Prices of Twenty Leading New York Stocks

Tuesday, April 17	85.76
Monday, April 16	85.65
Net gain for the day	.11

Total sales of stocks, 620,000 shares.

Total sales of bonds (par value), $3,775,000.

DEALERS INFLUENCE MARKET.

New York, April 17.—Professional selling was again a potent influence in today's irregular market, pressure from that quarter inducing further public liquidation, although many losses were largely retrieved in the later dealings. The effect of the government's proposed policy of taxation was seen in the heaviness of certain specialties.

At the beginning there was a renewal of yesterday's offerings of shippings, equipments, munitions, and kindred issues. Operations in the afternoon were meager, with a gradual advance of prices to the day's highest levels. The only notable exceptions to the later improvement were the motors, some of which were at the lowest prices in the final trading.

Shippings offered obstinate resistance to the heavy selling of the forenoon, which was based upon reports of the appearance of an enemy submarine in American waters. Marine preferred rose to 79⅝ after its setback to 75¼ and closed at 79, a net gain of 1½.

Coppers Gain at Close.

Coppers were moderately depressed at the outset, but rose briskly after publication of the annual statement of the Utah company, which disclosed enormous gains.

Extreme recessions of 2 to 4 points were scored by Bethlehem Steel and Lackawanna Steel, but United States Steel was at no time more than a substantial fraction under, making a slight gain on the day.

Oils, leathers, fertilizers, and sugars were subject to variable tendencies with numerous minor specialties, most of these, however, recording net losses of 1 to 3 points.

Bonds were again inclined to lose ground, except internationals, which held firm on small dealings. In government issues Panamas were a point lower on call.

OLD FOLKS NEED 'CASCARETS' FOR LIVER, BOWELS

Salts, calomel, pills act on bowels like pepper acts in nostrils.

Enjoy life! Don't stay bilious, sick, headachy and constipated.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store.—Advertisement.

ELECTRIC CO. LEASES FROM JAMES F. PORTER

Illinois Concern Secures Five Story Building in Madison Street.

The most important realty deal yesterday was made by the Illinois Electric company, dealers in electrical supplies. They have leased from James F. Porter the five story and basement building at 312-14 West Madison street, 120 feet west of Franklin street, for a period of ten years at a rental of $14,530 per annum, or $143,500 for the term. The building is 40x180 and contains 42,500 square feet of floor space. The lessees have occupied the property adjoining on the east, owned by the Marshall Field estate, for more than eighteen years. Miltenberg & Guettel were the brokers.

Greenebaum Sons Bank and Trust company is trustee in a bond issue loan of $235,000, maturing in two to ten years, at 6 per cent, secured upon the new Evanston hotel property at the southwest corner of Forest avenue and Main street, in Evanston, owned by Louis M. Nelson and Frank C. Lewin. The hotel is five stories high and contains 180 rooms. It occupies a lot 200x189 feet in extent. The land, building, and equipment are valued at $575,000.

Fifth Avenue Deal.

The fee to the property at 414-16 South Fifth avenue, eighty feet north of Congress street, 20x100 feet in extent, east front, has been sold by Edward A. Weissert to an investor of Los Angeles, title to the property being taken by the Los Angeles Trust and Savings bank, the consideration not being disclosed. It is understood the property had been held at $35,000, or $1,750 a front foot. The land is under lease for ninety-nine years at an annual rental of $1,500 to Sidney Adler of the law firm of Adler & Lederer, the lease having been started eight or ten years ago. There is a three story building on the property.

A large auto service station is to be erected at the northeast corner of South Park avenue and Thirty-fifth street on 214x165 feet of ground. The property has just been sold by Mrs. Grace L. Whitehead to Warren Pease, an attorney, who, it is understood, is acting for the purchasers, for a reported consideration of $40,000. The transaction was negotiated by Harry Goldstine & Co., acting for Mr. Pease, and Edgar H. Tharp, representing Mrs. Whitehead.

South Side Deal.

Walter V. Aikman has acquired by master's deed the property at the southeast corner of Thirty-fifth street and Parnell avenue, 299x599 feet in extent, for $49,993. The property formerly belonged to Sebastian Krug and others.

James S. Knight purchased from Orville D. Eastman the apartments at Dakin street, 80 feet east of Rokeby street, north front, 40x122 feet, price withheld, subject to $26,000 incumbrance.

William H. Banford has sold to John E. Stephan the six apartments on Hood avenue, 57 feet east of Lakewood avenue, south front, 50x124 feet, for a reported price of $30,000. The buyer gave in part payment 40x173 feet on Robey street, 292 south of Wilson avenue.

Buys Apartment.

Charles L. Ling bought from William T. Woodley the apartments on Ingleside avenue, 170 feet south of Fifty-second street, east front, 52x109 feet, consideration nominal, subject to $21,000 incumbrance.

The apartments on Cornell avenue, 57 feet north of Sixty-ninth street, east front, 60x125 feet, have been sold by Axe E. Carlson to Alvin L. Guilford, price not disclosed, subject to $13,500 incumbrance.

Daniel Berminghoven sold to Philisie E. Schumacher the apartments on Columbia avenue, 291 feet east of Sheridan road, north front, 40x133 feet, consideration withheld, subject to $13,000 incumbrance.

Y. M. C. A. in Deal.

The Y. M. C. A. has purchased from Annie Hennessy the six apartment building in Dorchester avenue, 160 feet north of Fifty-third street, west front, 50x150 feet, price understood to have been around $27,000, subject to $16,000, incumbrance. It is understood the property will be used in connection with the future expansion of the Hyde Park branch of the association, but no plans have yet been made for any additions.

Sears, Roebuck & Co. have taken title through Alfred Beck by quitclaim to the property in Fillmore street, 200 feet west of Central Park avenue, north front, 125x124 feet, and the 274x124 feet on the same thoroughfare, 350 feet west of Central Park avenue. The property is occupied by the company's garage.

At Clark and Illinois.

The business premises at the southeast corner of Clark and Illinois street, with 26x100 feet of ground, have been conveyed by Robert Hoffman to Abraham Fogel, the deed naming a nominal consideration.

The apartment property on Flournoy street, 112 feet east of Crawford avenue, south front, 129x73 feet on the east and 50 feet on the west, has been conveyed by Fred P. Heitman to Isaac Schaffer and by the latter to Martin C. Shannon, and finally to Samuel Netter for a nominal consideration, subject to $25,000 incumbrance.

Anna Hazella Reha and Edward R. Reha have sold their six apartment building at 5608-10 Ingleside avenue at a consideration of $20,000, subject to incumbrance of $11,750, to August J. Johnson and taken in part payment the northeast corner of Seventy-sixth street and Langley avenue, improved with a two flat brick building, at a consideration of $11,000, subject to incumbrance of $4,000. Frank M. Dooley represented both parties.

Real Estate Transfers.

Real estate transfers filed for record yesterday totaled 260, of which 200 were in the city and 60 outside, including 16 under the Torrens system. Transfers were as follows:

RECEIVER ASKED TO KEEP POWDER PLANT WORKING

Ætna Company Creditor Sees Foreclosure as a Handicap to War.

New York, April 17.—Appointment of receivers to manage the business of the Aetna Explosives company, incorporated, an $18,000,000 corporation, until its properties may be ordered sold by the court, was asked in an equity suit filed in federal district court here late today. The plaintiff in the action is the Grasselli Chemical company of Cleveland, O., which has a claim, payment of which has been refused, it is alleged.

Seeks to Prevent Suspension.

The appointment of a receiver is sought, according to the complaint, because other creditors are threatening suits, which might compel suspension of business by the company, which "is now engaged in the performance of contracts for further large quantities of explosives which are of vital importance in the prosecution of the war." To interfere with the fulfillment of these contracts, it is alleged, would be "altogether ruinous to the company" and also would "work great detriment to the public welfare."

Charges Misuse of Funds.

Upon information and belief, the complainant states, A. J. Moxham, former president of the company, assumed to make in its behalf contracts with Edward W. Bassick, whereby commissions amounting to several million dollars were to be paid to Bassick for making contracts with the French government. This action, it is charged, was without authority of the company. Bassick now has a suit pending to recover more than $3,000,000.

While it is asserted there is not sufficient money on hand to meet current obligations, the aggregate of the company's property, the complaint says, is worth more than enough at a fair valuation to pay all debts. The court, it was announced, would consider Thursday the application for the appointment of receivers.

COFFEE.

NEW YORK, April 17.—COFFEE—The market for coffee futures was less active and irregular today. The opening was unchanged to 2 points higher on covering, while there was some scattered buying of near months on the continued talk of an import duty and nervousness over shipping conditions. Closing bids: April, 8.20c; May, 8.23c; June, 8.29c; July, 8.35c; August, 8.42c; September, 8.48c; October, 8.53c; November, 8.58c; December, 8.64c; January, 8.72c; February, 8.78c; March, 8.84c. Spot coffee was quiet; Rio 7s, 10⅛c; Santos 4s, 10¾c. No fresh offers were reported in the cost and freight market. The official cables reported an advance of 75 reis at Rio. Santos spots were 300 reis higher and futures 75 reis higher. Brazilian port receipts, 21,000 bags; Jundiahy, 9,000 bags.

COTTON.

NEW YORK, April 17.—COTTON—The market was less active today and fluctuations were irregular within a range of 15 or 16 points. The market opened steady at a decline of 8@15 points in response to relatively easy cables and the more favorable view of weather conditions. Active months sold about 12@16 points net lower shortly after the call. Prices then steadied on buying of new crop months by trade interests and covering, which was promoted by reports of easier ocean freights and southern advices indicating that increased planting of foodstuffs in some sections of the south might lead to a reduction in the acreage originally contemplated for cotton. The market eased off again during the early afternoon on reports of increased spot offerings and the favorable weather reports for the eastern belt. It was reported that ocean freight room was available for Liverpool at $2.50 per hundred and there was buying of October here against sales abroad in expectation of narrower differences. Exports for the day were 27,859, making 4,498,666 so far this season. Port receipts, 21,009 bales. United States port stocks, 1,117,991 bales. Futures:

Melbourne Electric Supply Co.

L. A. H.—The Melbourne Electric Supply company is operating under an "order in council" permitting it to supply electricity in Melbourne and most of the suburbs till 1925, when the local authorities can purchase it, by paying "the then value" of the property. There was outstanding a year ago £150,000 of first preferred 7 per cent stock, £375,000 of consolidated ordinary stock, £250,000 first mortgage debenture stock, as much consolidated debenture stock, and £19,532 of income certificates, issued in 1910 to adjust accumulated preferred dividends. Since 1910 the company has become exceedingly prosperous and earnings are increasing steadily. It has been paying 10 per cent a year on common shares since 1912. Fixed charges are earned about four times and last year the dividend on common stock was covered twice. The company recently issued $1,250,000 of five year general mortgage bonds. Evidently their margin of safety is very wide.

Elgin Motor Car.

L. S., Rockford, Ill.—The Elgin Motor Car corporation says it has been shipping about twenty-five cars a day recently and is behind orders. Its balance sheet of Jan. 31 last shows $2,123,398 of assets, of which 55 to 65 per cent are tangible. The only debts are current accounts amounting to $101,306. There is $1,920,415 of stock outstanding and the tangible assets amount to 60 or 70 cents for each dollar of it. No figures are given as to the cost of production or whether the company is operating at a profit. Without information on this line of course no estimate of the present true value of the stock is possible.

Denver and Rio Grande.

F. K.—The Denver and Rio Grande earned its preferred dividend and 3 per cent on its common stock in the year ended June 30 last. However, it made no distribution, but appropriated $2,300,000 for betterments and carried $1,228,690 to surplus. After July 1 earnings, both net and gross, continued to show improvement till last February, when net dropped about 40 per cent and charges were not much more than half earned. In March gross showed a good increase. Figures on net are not yet

SUGAR.

CHICAGO, April 17.—SUGAR—Sugar prices were quoted by the wholesale dealers per 100 lbs: Powdered, standard, $9.10; standard cane granulated, $8.85; beet granulated, $8.75; extra C, $8.45; canary, $8.15.

NEW YORK, April 17.—SUGAR—The market for raw was more active today, with prices irregular, although unchanged at the close. There were sales of about 110,000 bags of Cubas for April and May shipment at 5½c, cost and freight, equal to 6.52c for centrifugal, and 33,000 bags of Cubas, April shipment, at 5 7-16c, cost and freight, equal to 6.46c for centrifugal. There were also sales of 1,700 tons San Domingos, April shipment, at 5⅝c c. i. f. The market closed steady at 5 7-16c for Cubas, cost and freight, equal to 6.46c for centrifugal and 5.58c for molasses. Refined sugar was firm, with one refiner advancing prices to the 8.00c level, although accepting little business. Prices ranged from 7.50c to 8.00c for fine granulated. Futures eased off, closing 4@11 points lower, with sales of 31,300 tons. May sold from 5.60c to 6.44c, closing 5.49c; July, 5.72c to 5.58c, closing 5.60c; September, 5.79c to 5.63c, closing 5.67c; December, 5.32c to 5.28c, closing 5.22c.

FROM
THE PRESIDENT'S PROCLAMATION
April 15, 1917

"TO THE men who run the railways of the country, whether they be managers or operative employes, let me say that the railways are the arteries of the nation's life, and that upon them rests the immense responsibility of seeing to it that those arteries suffer no obstruction of any kind, no inefficiency or slackened power.

"To the merchant let me suggest the motto, 'Small profits and quick service'; and to the shipbuilder the thought that the life of the war depends upon him. The food and the war supplies must be carried across the seas no matter how many ships are sent to the bottom. The places of those that go down must be supplied and supplied at once.

"To the miner let me say that he stands where the farmer does. The work of the world waits on him. If he slackens or fails, armies and statesmen are helpless. He also is enlisted in the great service army.

"The manufacturer does not need to be told, I hope, that the nation looks to him to speed and perfect every process; and I want only to remind his employes that their service is absolutely indispensable and is counted on by every man who loves the country and its liberties.

"It is evident to every thinking man that our industry on the farms, in the shipyards, in the mines, in the factories, must be made more prolific and more efficient than ever, and that they must be more economically managed and better adapted to the particular requirements of our task than they have been; and what I want to say is that the men and the women who devote their thought and their energy to these things will be serving the country and conducting the fight for peace and freedom just as truly and just as effectively as the men on the battlefield or in the trenches.

"This is the time for America to correct her unpardonable fault of wastefulness and extravagance. Let every man and every woman assume the duty of careful, provident use and expenditures as a public duty, as a dictate of patriotism which no one can now expect ever to be excused or forgiven for ignoring."

In accordance with the suggestion of the President that his appeal receive wide-spread publicity, these extracts from his Proclamation occupy the advertising space scheduled for this week by The Autocar Company, of Ardmore, Pennsylvania.

THERE MUST ALWAYS BE A "BEST"

THE policy of the Hood Tire Company is to make absolutely the *best* tire possible.

There are dozens of other tires on the market—all good—but not one that stands out alone—far ahead of all other tires as the Hood.

The Hood Tire costs more—it should be better than the majority of tires. But you get that extra value—*plus*, out of a Hood Tire. There is more rubber, more plies of fabric, a stronger fabric, an exacting scientific adjustment of the various materials in the building of the tire.

There are also a number of other refinements in the making of these quality tires all of which are designed to give a longer life, a mileage hitherto unatainable with any other tire, a greater factor of safety and a real economy because it is the "best."

Hood Tires will always remain the "*best*"; improvements will be added from time to time as our and other experts discover them, keeping the Hood always in the forefront and always *the* quality tire. Try these quality tires on your car now—let them show their real value to you.

WAR TAX SCARE RUNS COURSE AS MARKET FACTOR

Belief Is Corporations and Government Will Work in Harmony.

It is believed in important market quarters that the liquidation caused by apprehension over prospective war taxes has substantially run its course. For four or five days the market has been under the influence of this fear. Prices have suffered several points and a nervous condition has obtained. But the shock thus far has been weathered in a manner that is causing a resumption of confidence in the stability of quotations. Meanwhile sentiment is growing that there will be coöperation instead of antagonism between corporations and the government and that the final assessments will not be inequitable.

United States Steel earnings for the current quarter are estimated at not less than $110,000,000. The corporation has on hand unfilled orders sufficient to operate full time for one year. The statements of earnings show that the increased prices for steel products are producing a higher ratio of profits.

War Tax Not Disturbing.

It is estimated in Wall street that the maximum war taxes for the entire year were earned by the Steel corporation in the first six weeks of the current quarter. This would leave profits for the remainder of the year to the credit of the corporation. Since earnings are at the rate of $70 a share the war tax proposition is not a matter to disturb shareholders. As Steel is the king industry of the country it may be assumed that the position of its securities will influence sentiment throughout the list.

It is growing opinion in New York that raids on the industrial list because of war tax rumors are from this time on likely to do nothing more than produce a moderate decline and add to the short interest.

Another factor making for confidence in the securities market is the fact that the interstate commerce commission will begin next Friday hearings in the proposed general increase of 15 per cent in freight rates. Such an early hearing is considered substantial evidence of a desire on the part of the government to coöperate with revenue producing factors.

Chicago Securities.

In the local stock market prices were generally lower, with the exception of Booth Fisheries common, which advanced 6 points to 111. The company may double its common stock into shares of no par value.

There was considerable pressure on the packing house shares, owing to apprehension over the possible operation of the plants by the government. The t that the heads of the companies red their plants for such operation not quiet apprehension that profits be reduced.

NEWS OF THE FINANCIAL WORLD

A pessimistic view of the motor shares is somewhat prevalent in the market. The report that the army will purchase 40,000 motor trucks is expected to help motor stocks to some extent, but the bears point out that the tax on gasoline and on pleasure vehicles will restrict sales of cars. It would seem, however, that the motor shares have already gone through a drastic period of declines and discounted much that may be expected to happen. As a single illustration, the first preferred stock of the Maxwell Motor company is quoted at 64. It pays 7 per cent and so far as can be learned of earnings they are several times the amount of the preferred dividend.

It is figured in Wall street that the flotation of the big government war bond issue will bring into the investment class an element that heretofore has had no familiarity with bond investments. It is estimated that there are about 2,000,000 bond and shareholders in the United States. This is held to be a small percentage compared with European countries. A government bond issue is expected to increase the number of investors at least 50 per cent.

For the year ended Dec. 31, 1916, net profits of the Magma Copper company were $1,097,333, an increase of $485,604. This is equivalent to $4.50 a share, against $2.54 in 1915.

Friends of the International Mercantile Marine are figuring the concern to be able to earn $2,500,000 a month in operating revenue exclusive of the excess profit tax. This is based on the assumption that there will be no wholesale destruction of ships and that the United States government will not pursue a radical policy in commandeering ships of the company flying the American flag.

The report of the Canadian Pacific Railway company for the six months ended Dec. 31, 1916, shows gross earnings of $76,717,695, working expenses of $45,843,199, net earnings of $30,874,765. After all deductions the net surplus for the six months was $13,684,504.

Directors of the Sloss-Sheffield Steel and Iron company deferred action on the quarterly common dividend on a recommendation from President Catchings that earnings be used in developing the properties and securing the fullest possible operation.

The Utah Copper company shows for the calendar year 1916 earnings equal to $24.09 a share, compared with $10.69 in 1915.

At the annual meeting of the Algomah Mining company Thomas A. Woods of Boston replaced John E. Rice as a director.

In Boston Stock Market.

BOSTON, Mass., April 17.—The packers' offer of their plants to the United States government was responsible for weakness in Swift & Co. It was off more than 2 points in the first hour, but rallied, still showing a loss of 1¾ points. Atlantic Gulf followed the marine issues in New York and was soft in the first hour. Later it recovered and finally closed at 101½. United Fruit was weak in the morning, but came back to 136½, up 1½ points. Mohawk rose to 85. Calumet and Hecla, Arizona, and United States Smelting lost a point each. New Haven lost 1⅜ points on one small sale, and Island Creek common lost a point. Call money ruled at 3½ per cent; time loans, short dates, 4½ per cent; time, loans, six months, 4½@5 per cent; time loans, one year, 4¾@5¼ per cent.

RECORDING YOUR INVESTMENTS

EXPERIENCE extending over many years as dealers in carefully selected municipal, railroad and public service corporation bonds has shown us that the average investor has difficulty in recording his investments. As a service to investors we have therefore prepared for free distribution a

Loose Leaf Security Record

which is compact and practical for recording bonds and other investments. A copy will be sent upon application for Booklet C-28.

Mobilizing Money for War

THE United States faces the imperative demands of war. To meet them, a great popular loan will be offered by the Government. The nation's wealth must serve the nation's needs. This war is the concern of *every citizen.* Although our country is rich and our financial institutions strong, it is *the people* who must subscribe to this great loan if it is to be successful.

"Mobilizing Money for War," a booklet reviewing our country's resources and showing the reason for and the necessity of investing in this loan, will be forwarded upon request.

Placing of Canadian wheat on the free list caused a violent break in wheat prices yesterday and an exceedingly wild market. May delivery closed 11¼@11½c lower and at one time showed a loss of 14@14½c under the previous finish. The deferred futures closed 8@8½c lower. At the outset there was a general rush to sell, but fairly good buying caused a material rally. Later long liquidation became heavy, running into many stoploss orders, and the buying power weakened conspicuously.

New York reported purchases of 500,000 bu Canadian wheat by seaboard people, including 100,000 bu to Buffalo millers. Some Canadian wheat was also bought by local people late Monday and taken by one of the millers here. Local shipping sales were 5,000 bu.

Clearances for the day were 753,000 bu, against 916,000 bu a year ago. Primary receipts totaled 667,000 bu, against 980,000 bu last year. Bradstreet's showed a decrease of 8,262,000 bu for the week in available supply of North America.

Corn Breaks with Wheat.

Corn broke with wheat and finished 4⅝@5¼c lower. The market at the opening was almost demoralized, especially for the distant deliveries, with everybody trying to sell and nobody to take it. Some support developed later, but it was not important and the selling was quite persistent. The market acted strained, being so violently affected by the wheat action.

Cash corn was 1@5c lower with local shipping sales 20,000 bu. It was reported that the country was offering corn more freely, but that prices asked were above the market. Clearances from the seaboard for the day were 110,000 bu. Primary receipts totaled 603,000 bu, against 779,000 bu a year ago.

Oats Also Show Decline.

Oats weakened with other grains and showed net losses of 2@2½c at the close. Trade was large and price fluctuations were sharp and erratic. At the start there was a general rush to sell, but cash interests took the offerings. The widening of the spread between American and Canadian oats checked buying of the latter by foreign governments. Cash oats were 1@2c lower, with local shipping sales 25,000 bu. Seaboard clearances were 48,000 bu. Primary receipts were 901,000 bu, against 698,000 bu a year ago. London oats were 9d lower.

Provisions declined sharply. There was heavy selling by some of the larger local traders with considerable pressure from other sources, influenced by the sharp break in grains. Packing interests bought on the break, but the price recovery was not material. Hog values at the yards were firm and receipts at western markets totaled 103,300 head, against 105,775 a year ago. Local meat shipments were 1,891,000 lbs, against 3,296,000 lbs a year ago, while lard shipments were 1,202,000 lbs, compared with 561,000 lbs last year.

Rye Market Holds Firm.

Rye was firm. No. 3 sold $1.89@1.90 and No. 2 was quoted $1.91 nominal. Receipts were 12 cars.

Barley ruled firm; malting was quoted $1.30@1.50 and sold $1.28@1.47; feed and mixing quotable, $1.20@1.30, with sales at latter figure; screenings were quoted 88c@$1.22 and skimmings, 85@95c, with former selling 90c@$1.03. Receipts, 54 cars.

Timothy seed was steady; September, $8.00 bid and $8.25 asked; cash lots sold, $2.00@6.60. Clover seed was steady; cash lots quoted $12.00@17.00 and spot prime, $18.00 nominal.

Flaxseed closed 2¼c lower. Cash quoted $3.19¼@3.26¼; Duluth was 2@2½c; Minneapolis, 2¼c, and Winnipeg, 1@1½c lower, respectively.

NEWS AND GOSSIP OF BOARD OF TRADE

Australian wheat, which has been found difficult to move to Europe on account of the submarine warfare, and more especially because of the lack of sufficient tonnage, is being sold on the Pacific coast. Somers-Jones had a San Francisco wire saying three cargoes of Australian wheat were sold there yesterday. With the Canadian wheat being permitted to enter free of duty and the Australian wheat furnishing moderate supplies for the coast states, together with the marked improvement in the crop reports, the bears had more encouragement than for some time.

Official estimates of the Canadian crop indicated about 79,000,000 bu available for export March 1. Estimates recently made indicate about 60,000,000 bu available for export April 1. There is about 8,500,000 bu Canadian wheat in bond in this country, most of it being at Duluth, with a fair amount at Buffalo. It was reported that a cargo of Canadian wheat had been bought by Chicago people yesterday. No. 2 northern has been selling considerably cheaper than our No. 2 hard wheat.

With the possibility of fairly liberal importations of Canadian wheat the next few months there was less anxiety on the part of mills in regard to their supplies. Recent advices from Canada have indicated that stocks are the largest ever known at this time of the year. Presumably a large portion of the wheat will be shipped to the allies, but the action of the Canadian government was taken to indicate that there was more wheat available than needed to supply the allies.

A little wheat was worked from the gulf yesterday, but the business was not extensive. Seaboard advices indicated most of the trade was in Canadian wheat. Premiums were fairly firm relatively and offerings of wheat were not much larger. Northwest cash markets were moderately active with premiums not much changed. Cash corn and oats followed the futures. Shipping sales were 20,000 bu corn and 25,000 bu oats.

Local bulls were the principal buyers of wheat early. In the last half hour of the session the wheat market as well as corn and oats, was rallied by shorts taking profits and buying against the bids, which showed profits in all grains.

The directors yesterday passed a resolution favoring a change in the unit for pork trading, it being proposed to trade in 50,000 lb lots of heavy mess pork sides, instead of 100 brl lots as at present.

Jesse L. Livermore, the big eastern speculator, was elected a member of the board of trade at the directors' meeting last night. Theodore Bernstein and M. R. Rothschild also were approved.

The National Elevator, operated by Bartlett-Frazier, has been declared regular for the storage of grain. The house has a capacity of about 1,250,000 bu.

Receipts inspected yesterday: Wheat, 89 cars; corn, 114 cars; oats, 174 cars; rye, 12 cars; barley, 54 cars. Hogs estimated for today, 29,000.

Minneapolis reported a keen demand for good wheat, but a slower call for the low grades. The flour trade was quiet.

Minneapolis wheat stocks decreased 200,000 bu for three days.

Hog market at Chicago yesterday started on steady basis, but closed 10@15c lower than on Monday. Receipts were posted at 13,000 head, of which shippers took only 1,000. Packers were bearish and the absence of aggressive competition from outsiders placed sellers at a disadvantage. Top sales were made early at $16.30, but the bulk sold at $15.65@16.15. About 8,000 hogs were left unsold.

Cattle trade was dull and weak at former prices. Few good steers were offered, although sales were made up to $12.00 for distillers and $12.35 for corn fed lots. Calf receipts of 7,500 exceeded requirements and sales were made at a decline of 50@75c.

Only a few odd lots of sheep were offered and they sold at weak prices, while lambs sold slowly at a decline of 10@25c. Receipts were 14,000 head.

A Patriotic Non-Speculative Investment

First Farm Mortgages netting 5% to 6% per annum

At the threshold of war we find ourselves short of foodstuffs—prices already beyond reason. For the season of 1917 we must make our farms produce more than ever before.
Help the situation by investing your funds in good farm mortgages. They are not only fundamentally the soundest investment but represent the only practical method of financing the farmer so that he can assume broader responsibilities and thus produce a larger yield of foodstuffs.

We have made farm mortgages exclusively for 32 years without loss to a client. We operate in 16 different states, offering a wide range of selection. We can still net our clients 6% per annum. Send for our list of available farm mortgages and our booklets, "The Federal Farm Loan Act" and "How Forman Farm Mortgages Are Made."

Wanted

A Profitable Business $15,000.00 to Invest

A progressive young business man with broad business ability and initiative—fifteen years' successful executive experience with one firm—will invest up to $15,000.00 for half interest in a paying wholesale or manufacturing business. Personnel and business must be of highest caliber and stand close investigation. Will deal only with principal.

ADDRESS B S 93, TRIBUNE

Business Connection Wanted

I have just disposed of a majority interest in a successful manufacturing company. Selling rather unexpectedly, I am open to consider purchase of all or part interest in a concern having possibilities of growth where ability and executive experience are needed and where income of not less than $10,000 is assured.

Louisiana.

GROUND FLOOR

The New Orleans Great Northern Railway opens for farm settlement the immense acreage of the great lumber company lands along its lines in Mississippi and Louisiana.
Growing towns, churches, schools, lumber companies, shipbuilding, turpentine distilleries, pine oil, and paper mills have sprung up all along the line of the railroad, but timber being the chief asset, the land itself, regardless of its great agricultural worth, has been carried on the books at a mere nominal value.
As the timber is being cut and the stumps and discarded tree trunks and limbs in the logging field are being ground into pulp for pine oil, turpentine, and the manufacture of paper, an immense acreage of virgin land close in to the railroad, towns, factories, churches, and schools is being left for farm occupation.
Unless the railroad settles these lands with farmers it will fail to provide for a chief source of revenue when the timber is gone, and the railroad, with its future means of support materially at stake, will therefore afford every aid in the matter of prices, terms, and co-operation in obtaining settlers on the land.
WRITE WALTER S. AYRES, INDUSTRIAL COMMISSIONER, N. O. G. N. Ry., 864 McCormick Bldg., Chicago, Ill., how to obtain first hand a desirable farm out of this great body of cheap virgin land.

Texas.

FOR SALE—NEW FARM OPPORTUNITY IN ONE OF THE GREATEST STATES IN THE UNION. A new line of the Santa Fe is tapping a rich and fertile prairie section of Northwest Texas, near the Oklahoma line, where already many farmers have MADE GOOD in a big way with wheat, hogs, and live stock. Here, if you ACT NOW, you can get first choice—get in on the ground floor of a great opportunity. You can get in AHEAD of the railway—ahead of the people whom the railway will bring—ahead of those who act more slowly than you do. This is the chance of a lifetime for a man of moderate means, or for the man who has paid rent all his life and now has just a little money. A certain number of thrifty, far-seeing farmers can acquire good land at an astonishingly low figure and on long, easy terms. If you have confidence that a great railroad, like the Santa Fe, would only recommend what it considers a good thing, and because it wants to see new territory developed and wants newcomers to PROSPER and PRODUCE—then write me TODAY for particulars about this district. Mild climate, social advantages, schools, churches, telephones, good roads. Everything there but enough men with their families. Will you be one of the fortunate first comers to reap the advantages of a section that has been minutely inspected by a Santa Fe agricultural agent and pronounced RIGHT! Write me NOW and let me send you a copy of the special illustrated circular we are getting out. C. L. SEAGRAVES, Industrial Commissioner, A. T. & S. F. Ry., 1105 Railway Exchange, Chicago.

All Good Shoes Are NOT High Priced

This store has shoes for everybody.

Over 100,000 pairs are in these present stocks and it may be surprising to learn that more than half these shoes are priced very little above the prices of a year ago.

It's the demand for the most extreme modes, in the softest and lightest shades, that has made "high prices" for shoes seem so prevalent.

The more staple kinds are *not* high priced—not here, at least—and wise women are buying a pair of plainer shoes for ordinary wear for every pair of the more delicate shoes they buy for dress. This makes their shoes last about three times as long.

Surely in such enormous stocks as these no shoe desire will be found unnoted. Surely the moderation of pricing will be a revelation to many hundreds of women, and men as well, when they go over the situation seriously, comparing the prices on good shoes of the plainer leathers with those at which the exclusive styles must perforce be marked—and with the prices prevailing on many good standard grades and novelties elsewhere.

Let the following brief summary start you thinking—

For Women—

Boots, low cut shoes, pumps, oxfords, hundreds of styles, of patent colt, glazed kid, dull kid and bronze kid.

Third floor section—$6, $7, $8 and $9 pair. Basement section—$3.50, $3.90, $5 and $5.75 pair.

Women's White Canvas Low Cut Shoes:

Third floor section—$5, $5.50 and $6.50 pair. Basement section—$3, $3.50 and $4.50 pair.

For Men—

Boots and oxfords, conservative styles and styles for young men, of calfskin, black kid and tan calfskin.

First floor section—$5.50, $6, $7, $8 and $9 pair.
Basement section—$3.50, $3.90, $4.35 and $5 pair.

For Boys—

Shoes of dependable leathers, well made, in lace and button styles, of calf and patent colt.

First floor section—$3.50, $4, $4.50 and $5 pair.
Basement section—$2.95, $3.50 and $4 pair.

For Misses and Children—

Misses', girls', children's and infants' shoes—the best looking, best wearing shoes obtainable, in all leathers, priced according to size.

Third floor section—$1.45 to $6 pair. Basement section—$1 to $5.50 pair.

Women's, misses', girls', children's and infants' shoes—Third Floor, South, and Basement.
Men's and boys' shoes—First Floor, South, and Basement.
